

## Wizard 457

### Chapter 457: Heavenly Eagle Breathing Technique! (3)

"There's no need to thank me. I do have some things that I need to trouble your family with," Levi said.

"Please go ahead."

Levi thought for a moment and said, "I might need to trouble you with a lot of things. If you need me to pay extra, you can tell me. I don't like to trouble others."

"Don't worry. As long as it's within the power of the Jostar Family, how can we ask for your money? My life is still worth some money, hahaha," Dinos said jokingly.

"I need the Jostar Family to help me find clues about the Colin Family. This family was a Second-Circle Wizard family 200 years ago. Now, it has declined. Now that 200 years have passed, I don't know where it is in the Loess Continent."

"Colin Family, right? I understand. Is there anything else?" Jostar asked.

"In addition, I need to collect some potion materials to refine potions. I might need these transcendent creatures. I want to trouble you to help me take a look. Are these transcendent creatures distributed on the Yellow Earth Continent?"

Levi took out a list that he had prepared for Dinos. Dinos knew that Levi was a first-circle pharmacist, so he did not think too much about it.

"Alright, leave these to me. Give me a week. I'll give you an answer. During this period of time, you can stroll around Lion King City. Many of the businesses in Lion King City belong to our family. If you need to buy materials, tell them my name and get them to give you a discount. It's getting late. Rest early," Dinos said.

Levi nodded. After bidding farewell to Dinos, he left the Golden Lion Castle. Although the Jostar Family warmly invited him to stay in the castle, Levi was not used to living under the eaves, so he found a small hotel in the city and stayed there temporarily.

Levi spent the rest of his time strolling aimlessly in Lion King City. He was pleasantly surprised to find that there seemed to be many knights from non-golden lion clans living in this city. This made him overjoyed. He might be able to obtain many knight breathing techniques here.

As for the Golden Lion family's ancestral breathing technique, Levi did not dare to think about it for the time being. He could only think about it slowly in the future and let nature take its course.

The market in Lion King City was huge. Levi spent 5,000 Aether Stones after staying here for three days. A large part of it was to buy a large amount of rare mithril and Luminant gold, which he bought through Dinos' name.

He wanted to take this opportunity to prepare for the refinement of the Corpse Digger. He had to prepare all the materials first and could start the refinement when he returned to the Black Fire Island.

At the same time, Levi would cultivate the Earth Meditation Art whenever he was free. He would not waste anything.

Just like that, seven days passed quickly. During these seven days, Levi entrusted some intermediaries to help him collect some breathing techniques.

Apart from Strength or speed, Levi had unexpectedly obtained another Perception-type breathing technique. Moreover, it was an excellent quality that Levi had never seen before and could be cultivated to the Maximum Level 7.

Heavenly Eagle Breathing Technique.

It was a third-rate excellent Perception breathing technique.

Unlike the Night Owl and Man-Faced Spider Breathing Technique's hearing and vibration Perception, the Heavenly Eagle Breathing Technique's perception was an extraordinary vision!

Legend had it that the Heavenly Eagle was a powerful God Bird. Its gaze was sharp, reaching the nine heavens and reaching the netherworld. It was a true clairvoyant!

Now, Levi had already obtained the Night Owl Breathing Technique and the Heavenly Eagle's eyesight. It was simply perfect.

This allowed Levi's Perception Dimension to continuously deepen. From sight, hearing, vibration, Perception, and many other aspects, it enhanced Levi's Perception Dimension.

The Heavenly Eagle Breathing Technique did not need those transcendent creature-level secret medicines. The main ingredient was the eagle's eye. "If it's just an ordinary bird, it's easy to find it. However, it'll be troublesome if I need a transcendent eagle after I break through to legendary. However, the

Perception breathing technique is still far from breaking through to legendary. I'm not in a hurry."

With Levi's current realm, it was easy for him to cultivate such a second-rate breathing technique.

After quickly preparing the secret medicine, Levi immediately mastered the Heavenly Eagle Breathing Technique after practicing it once. Three days later, the Heavenly Eagle Breathing Technique reached level 2.

At this rate, Levi estimated that before he left the Yellow Earth Continent, the Heavenly Eagle Breathing Technique would be at the Maximum Level 7. At that time, he would directly fuse the Heavenly Eagle Breathing Technique and the Human-Faced Owl breathing technique to see what breathing technique could be born.

Levi's Silver Mountain Dragon breathing technique had also reached level five

During ten days of cultivation. It was estimated that the Legendary

Endurance would be born within two years. As for the Hunchback Dragon Breathing Technique, it could be integrated with other endurance-type breathing techniques, allowing the Silver Mountain Dragon breathing technique to break through to legendary and advance to level 12.

In addition to the breathing technique, Levi had also bought most of the materials he planned to refine into Corpse Diggers in Lion King City. Just the cost of these materials alone cost Levi 7,000 Aether Stones. It could be said to be extremely expensive. It had to be said that the School of Alchemy was a school that burned money.

However, considering that the Corpse Digger was powerful enough to take on a

Second-Circle Wizard, Levi felt that it was worth it.

That night, Levi came to the Jostar Family. Dinos looked a little embarrassed when he saw Levi.

"Sir, I'm sorry. I didn't find all the lists you gave me, but I've found clues about the Colin Family."

Some of the things Levi had asked him to find, such as the creature with the Undying Bird Bloodline, he had asked his family, but there were no useful clues.

"It's alright, as many as you have. These things are rare to begin with. I've long been mentally prepared. You can give me the current clues first." Levi heaved a sigh of relief. He had thought that there were no clues at all..
