

Wizard 458

Chapter 458: Flame Prince! Top-notch Vision! (1)

The Jostar Family.

Dinos and Levi sat opposite each other in the room.

"The Colin Family was once a second-circle family. After our investigation, they're now living in seclusion in the Rogue Rift region in the west of the Yellow Earth Continent. That place is very close to the Al Hidd Family. Because our Jostar Family doesn't have a good relationship with the Al Hidd Family, we can't investigate in detail."

"Thank you. It's good that you know where it is. The Rogue Rift, right?" Levi said.

"That's right. Strong winds of unknown origin are blowing in the Rogue Rift all year round. If you go there, it's best to prepare a Wizard Tool to avoid the wind. Although the wind can't compare to the great hurricane in the Endless Sea, it doesn't feel good to be blown on your body. However, with your Legendary Imight body, it shouldn't be a problem.

"In the Rogue Rift Valley, the wind element is very strong. The Colin Family is dominated by the Storm Faction. This should be the reason why they settled down here," Dinos said.

"Thank you for your reminder." Levi thanked him sincerely.

"Do you need me to send someone with you?" Dinos asked.

Levi thought for a moment and shook his head. "No need. I'm just meeting an old friend. I won't trouble you."

"Alright, be careful. If you need anything, just let me know," Dinos said.

After leaving Dinos' place, Levi returned to the hotel. He took the clues that the Jostar Family had found and examined them carefully.

Other than the clues of the Colin Family, Levi was most concerned about the clues of those transcendent creatures.

"Red Sand Ape, Earth Machinery Heart, first-circle transcendent creature, spell-like ability mastered, Earth Lightning Spell, Sandstorm Spell... Red Sand Apes usually gather in the form of a tribe. After adulthood, they have the

Strength or a first-circle, and their Intelligence is not IOW. 'I'nererore, If you don't form a team, try not to provoke the Red Sand Ape. In addition, there is a chance that this transcendent creature will give birth to a mutated individual. After adulthood, it has the strength close to a second-circle... Red Sand Apes often appear in the Quicksand Sea."

"The Crimson Fire Dragon Lizard has an affinity with fire elements and lives alone. It has the strength of a first-circle when it grows up. Moreover, because it's a mixed-blood Dragon Clan, it's generally stronger. It has spell-like abilities, the Crimson Fire Breath, the Fire Arrow Spell... The Crimson Fire Dragon Lizard is elusive and difficult to find. The few eyewitness records show that it's in the Black Flame Mountain Range. That's the Al Hidd Family's territory. If you search for it, you have to be careful."

"Three-horned Dragon King, a second -circle creature. It once appeared in the ancient forest. It's a mixed-blood Dragon Clan and is powerful. Only Second-Circle Wizards can defeat it. Moreover, there's suspected to be a third -circle transcendent creature in the ancient forest. It's a forbidden area of the Yellow Earth Continent...

Other than the Red Sand Ape, the Crimson Fire Dragon Lizard, and the Three-horned Dragon King, the other transcendent creatures could not be found even with the ability of the Jostar Family.

However, Levi was already very satisfied.

The Red Sand Apes could cultivate the Saint Ape breathing technique, while the

Crimson Fire Dragon Lizards could cultivate the Red Lotus Breathing

Technique. The Three-Horned Dragon King was naturally used by the Golden Snake Breathing Technique to stimulate the growth and evolution of the horn on Levi's forehead.

Levi did not think about it for the time being. This thing was too powerful. Even if he could defeat it, he could not subdue it and capture it alive. If he killed it directly, it would not be in line with his concept of sustainable development. It was not easy to find a second one on this Yellow Earth Continent.

"Then let's deal with the Red Sand Ape and the Crimson Fire Dragon Lizard first. I will contract the Red Sand Ape with a spiritual connection spell, while I can only subdue the Crimson Fire Dragon Lizard first and find a way to capture it alive. I'll imprison it first and slowly tame it with the Dragon Affinity and

Nature's Heart, just like how I tamed Leviathan back then. It's just that this method will take a little more time."

The contract slots of Levi's spiritual connection spell were limited, so he needed to have a good plan. He should try not to waste his contract slots on mixed-blood Dragon Clan creatures.

There was no time to lose. The Quicksand Sea and the Black Flame Mountain Range were in the west of the Yellow Earth Continent, which was still far from Lion King City. After saying goodbye to Dinos, Levi left Lion King City.

In the Golden Lion Castle, Lyon said to Dinos, "Dinos, seize this opportunity. This person is definitely not simple. Although I don't want to admit it, from the knight's aura and the knight's characteristics you described, this person has already exceeded your great-grandfather's description of his ancestors.

"He is not an ordinary legendary knight. Ever since the death of our ancestor, the Golden Lion Family had not produced a legendary knight for hundreds of years. This is not a good sign.

"The Golden Lion Bloodline in our bodies is constantly thinning. If this continues, one day, the Golden Lion Bloodline in our bodies will slowly dissipate.

"Although I'm a Third-Circle Wizard, I'm already old. Even if a Third-Circle Wizard has nearly 500 years of lifespan, the peak of my knight's vitality has long passed. It's almost impossible for me to step into legendary. Besides, I have to worry about the development of my family.

"But you're different, my child. Our ancestors have used generations of hard work to pave the way for you. You have the talent of a double affinity. In the future, you will definitely shine on the path of a wizard. It's a certainty that you will advance to the intermediate level!

"Moreover, your talent as a knight is also extraordinary. As long as you have the guidance of a legendary knight like Levi, you might become the second legendary knight in our family, allowing the Golden Lion bloodline of our family to continue for hundreds of years.

"In the future, you must remain humble and cultivate as fast as possible. Become a legendary knight and a Second-Circle Wizard as soon as possible, and then marry more wives and concubines to help the family continue the

Golden Lion bloodline.."
