Chapter 462: Unbridled Snatching and Killing of the Second-circle! (1)

[Top-notch Vision: You have the sharp eyes of a Heavenly Eagle. Nothing in the world can escape your gaze. Even a small obstacle can't block your vision.] This was the Special Effect created by the Heavenly Eagle Breathing Technique.

Other than that, there was no other Special Effect.

Levi was quite surprised.

After all, according to his previous experience, the Perception-type breathing technique was the easiest to give birth to a second Special Effect.

"I'm still short of a shallow breathing technique to allow the Heavenly Eagle and Human-Faced Owl breathing techniques to fuse and break through the limit. I wonder what kind of changes will happen."

Levi descended from the sky and made some adjustments.

It was almost time for the secret realm to open. His figure quickly rushed towards the Colin Family.

At the entrance of the Colin family, there were already ten wizards standing there. Two of them were official wizards, and the rest were apprentice wizards of the Colin family.

Apart from Dwayne guarding the family, the male and female wizards had to enter the secret realm to collect resources.

"Your Excellency Levi, you came at the right time. You must have been waiting for a long time," the male wizard said in a strange tone.

"Yuko, stop it," Linda said quickly, afraid of what would happen.

"Don't worry. Since both parties have signed the contract, I still have the spirit of the contract. I hope that Sir Levi can recover his 8,000 Aether Stones. Don't blame our Colin Family when you don't find anything good," Wizard Yuko said with a cold smile.

It was obvious that even if Levi entered the secret realm, it would be difficult for him to gain anything.

On the other hand, Yuko and the others were different. They had the map of the previous few clans exploring the small secret realms. The map marked a fixed resource point, so it was impossible for them to return empty-handed.

Levi smiled and did not say anything. There was no point in arguing with them now. As long as he could find the Seven Days Soul Returning Grass, not to mention 8,000 Aether Stones, even 80,000 or 800,000 Aether Stones would be worth it. This was a truly priceless treasure that could not be measured by the value of ordinary seven-circle herbs.

Of course, if he could get some other benefits in the secret realm, it would be extremely good.

After the family members were all gathered, Yuko and Linda led the team and advanced along the Rogue Rift.

He followed behind silently, paying attention to his surroundings at all times. He was also worried that the Colin Family would do something else.

They successfully reached the source of the Rogue Rift. Here, there were many wind tunnels.

Boundless gales blew out from these densely packed wind caves. These gales were like the breathing of humans. They were rhythmic, sometimes big, sometimes small.

Yuko arrived in front of one of the wind caves. A crystal ball suddenly appeared in his hand. In the crystal ball, there was a spinning white mini tornado that emitted dense wind elemental power. It seemed that this was the key to entering this secret realm.

Not long after, the gale in the wind cave suddenly stopped.

A spatial rift similar to Levi's last exploration appeared there.

Yuko looked excited. It had been 200 years. He could finally step into it again. As long as he could obtain more resources, the Colin Family might be able to rise and regain its glory in the next 200 years.

Linda looked at everything expressionlessly and said, "Go in, Sir Levi. If you're worried, you can follow us in."

"Everyone has signed the contract. I believe in the character of the Colin Family," Levi said with a smile. His heart did not waver at all.

On his arm, the Spider Sensing was acting up. He had a feeling that this Linda, who seemed to have a good attitude, seemed to be hostile to him.

On the other hand, although Yuko was eccentric, he did not have any strong hostility. This was intriguing. Levi thought about it and was always on guard.

Just like that, Youke quickly entered with the apprentice wizards, and Linda also stepped inside and disappeared.

In the end, only Levi was left outside. Under his robe, layers of Black Gold

Scales appeared and protected him. His Rock Body shone with a green luster.

He was still worried, so he cast Water Shield and Golden Protection on himself.

After stacking four layers of armor, Levi stepped into the spatial rift.

As soon as he stepped into the crack, he entered a chaotic moment where he had no Perception and no direction.

Then, Levi stepped onto the ground and looked at the Colin Family's team in front of him. Yuko and Linda looked at him but did not attack.

They had previously signed a contract that prohibited both parties from fighting. This was also because they were worried that Levi would snatch their resources or secret realm keys. Levi could also protect himself through the contract.

"Sir Levi, are you going to join us next?" Yuko sneered.

"Forget it then." Levi looked at the entrance and quickly left.

"Without a map, you'll be like a headless fly. Perhaps you'll be eaten by the transcendent creatures in the secret realm in a few days," Yuko mocked.

"Hurry up, don't waste time. We only have seven days to collect resources." Linda said.

Before long, three figures descended from the sky at the entrance of the secret realm.

A Second-Circle Wizard in a black robe looked at the entrance of the secret realm and said hoarsely, "This secret realm's entrance is really hidden. If not for that woman's location, we really wouldn't have been able to find this place. Remember, the first thing is to seize the secret realm key. The second thing is to eliminate everyone else in the secret realm and collect more resources. Also, don't expose our relationship with the Al Hidd Family in case the Pan-Plane Wizard Council investigates the family.."
