

Wizard 463

Chapter 463: Unbridled Snatching and Killing of the Second-circle! (2)

"Alright, Boss Black Flame. We're Black Sun Flame's dark wizards. We understand." The two subordinates nodded.

The black-robed Second -Circle Wizard nodded and led his subordinates into the secret realm.

He was the leader of an underground dark wizard organization on the Yellow

Earth Continent, the Black Sun Flame. He had been a Second-Circle Wizard for 50 years and was very powerful. Although he was not a second-circle senior, he was not to be underestimated.

However, this was only his identity on the surface.

In reality, Lehlín was the younger brother of the Al Hidd Family's Lehman.

However, he had become a dark wizard a long time ago because of some misdeeds and was expelled from the Al Hidd Family. Everyone thought that he was forced to become a dark wizard, but in fact, he was voluntary.

On the surface, Lehlín was a lawless dark wizard who did some illegal things and got away with it. His infamy made many wizards on the Yellow Earth Continent angry but not dare to say anything.

Behind his back, he was actually still loyal to the Al Hidd Family and had become Lehman's right-hand man. Some of the evil deeds and dirty work that the Al Hidd Family was inconvenient to do were left to the Black Sun Flame Organization. Lehlín was also the villain.

Of course, due to the secret shelter of the Al Hidd Family, Lehlín was doing well as a dark wizard in this area. Every time he finished a job and the enforcers arrived, Lehlín had already fled without a trace.

In fact, this was the usual method used by some large families. A pair of white gloves was in the light, and a pair of black gloves was in the dark.

For this mission, Lehlín was the first person Lehman thought of. Lehlín was a Second-Circle Wizard and a dark wizard. Be it his fighting style or combat experience, he was extremely experienced.

With Lehlín making a move, be it the Colin Family or that brat from the Gray Tower, they would be able to capture them easily. There was no way they would fail!

Of course, Lehlín's most important mission was to explore the secret realm within these seven days and collect more resources. After all, the next time it opened would be two hundred years later.

On the Al Hidd Family's wizard steeple, Lehman's eyes were sharp. He liked the feeling of being high and mighty and in control of the overall situation.

"One day, I, the Flame Prince, will become the only king of this mainland. Then, I will use the Yellow Earth Continent as a fulcrum and set foot in the inner sea region. I will gain a foothold in the inner sea region where experts are as numerous as the clouds. I will stir up the entire Endless Sea and become the Flame Emperor of that sea!"

Lehman was very ambitious. He was a dual-element Machinery Heart, to begin with, and he was only 200 years old. He still had nearly 300 years of lifespan.

In these 300 years, he would definitely be able to step into the fourth-circle, fifth-circle, and even, if he was lucky, advance to the sixth-circle and become a high-level primordial soul wizard who played an important role in the entire Endless Sea!

The outer sea region was just a sea area where rookies pecked at each other. Lehman was completely uninterested in these opponents.

In Lehman's eyes, Levi was just an ant that had intruded into his boring life.

The secret realm was the same as the Rogue Rift. There were strong winds everywhere, sweeping up sandstorms. From time to time, sandstorms would sweep over. The plants and animals that could grow here were extraordinary.

Levi estimated that the violent winds in the Rogue Rift Valley might be related to this secret realm.

The wind elemental power in the secret realm was very rich, but the wind here was too strong. The deeper one went, the more terrifying the wind speed became. It was unknown where these boundless winds came from.

Levi, who had top-notch vision, Top Perception, and snake tongue, was searching for the cold pool in the valley that the Tower Master had mentioned.

Generally speaking, a small secret realm was not very big. Levi estimated that it was less than 1% of the Yellow Earth Continent.

Theoretically speaking, with Levi's current perception range, he should be able to find the cold pool in the valley within seven days even if he searched thoroughly.

Along the way, Levi's snake tongue Perception picked up some information about the herbs that he was familiar with. One herb after another was found by Levi, and he found it funny.

"That Colin Family thought that I would suffer a loss. Little did they know that with the perception of a snake's tongue, as long as it's a herb stored in my database, I can find it according to the aura factor it emits. After this trip to the secret realm, the herbs I've harvested will far exceed 8,000 Aether Stones. Your Colin Family might make a profit, but I, Levi, will definitely not suffer a loss!"

This secret realm had not been developed for two hundred years, so the resources inside were still very abundant, far exceeding Levi's expectations.

All kinds of herbs, including first-circle herbs, were collected by Levi without hesitation.

If he could not grasp a stable way to enter this secret realm, it would be 200 years before he could enter again.

Therefore, other than those herbs that had yet to mature, Levi took all the other herbs directly. Otherwise, it would be a waste to leave them here.

On the third day, Levi's storage bag was already piled with a lot of herbs. These herbs were worth 8,000 Aether Stones just by selling the raw materials. A large portion of them were herbs that were difficult to find in the Endless Sea.

"Cool."

On a steep cliff.

Levi landed and had top-notch vision.

He found another precious Windchasing Grass.

This was a very precious third-circle herb. It was one of the main ingredients to refine the second-circle potion, Eye Devil's Gaze. Just this herb alone was worth 1,000 Aether Stones.

Levi entered the information of the Wind Chasing Grass into the database and began to search on a large scale. He was now a senior first-circle wizard, so he had to consider advancing to the second-circle next. Therefore, it was indeed time to prepare the materials to refine the Eye Devil's Gaze..
