Chapter 465: Unbridled Snatching and Killing of the Second-circle! (4)

In the Rogue Rift, the Colin Family was now a living hell. Dwayne's head was held in the hand of a black-robed wizard, and he died with remaining grievances.

"From today onwards, the Colin Family will become history. Let's retreat too and hide at sea. In a few days, the enforcers of Area 7 will be here. Don't cause trouble during this period of time. When the storm passes and the enforcers retreat, we'll come back."

The other two black-robed wizards nodded.

"I wonder how Boss Black Flame is doing?"

"Don't worry, that's the boss of Black Flame, the king of the underground world in the western region of this mainland. He even has the lives of Second-Circle Wizards in his hands. How can he fail to deal with a few First-Circle Wizards?"

On the fifth day.

In the secret realm, Levi, who had made a lot of money, revealed a happy expression.

"These 8,000 Aether Stones are worth it. After completing the mission, I can ask the Tower Master to reimburse me."

Levi could not help but sigh at the abundance of resources in the secret realm.

The deeper he went into the inner area, the more precious herbs there were.

Levi had already found several types of third-circle herbs, and there were many of them.

Levi used snake tongue to check the scent of the herbs that he had stored in the database. With his top-notch vision, he could see the herbs that he had seen in the illustrations. When these two were combined, no herbs were spared wherever Levi swept past.

"However, I've been feeling uneasy these past few days, and the Spider Sensing has been acting up continuously. Could it be that those people from the Colin Family want to harm me? But with the contract, logically speaking, they can't attack... Or is there some dangerous creature hidden in this secret realm?"

However, this sense of danger was not that strong. Hence, Levi felt that he should continue searching. Once he found the Seven Days Soul Returning Grass, he would immediately leave the secret realm.

In the end, Levi arrived at a canyon. Cold air pervaded the canyon, and the temperature seemed to be much lower than usual.

Moreover, Levi could vaguely sense the aura of a second-circle creature in the canyon. It seemed that there was a ferocious beast lying dormant there.

"It seems that this is the cold pond where the Seven Days Soul Returning Grass grows. This is troublesome. There are second-circle creatures." Levi frowned.

"Judging from the aura, there's only one. I'll go take a look first. Maybe I can let Ace lure that guy away first. Then I'll snatch the Seven Days Soul Returning Grass and slip away after getting it." Levi made a plan.

Since he was already here, he naturally could not give up. After the battle with the Red Flame Witch, Levi knew that he actually had the ability to fight against the existence of the second-circle.

Although the Red Flame Witch was weaker than an ordinary Second-Circle Wizard due to her injuries, her strength should not be much weaker than this second-circle creature.

Taking a deep breath, Levi flapped his wings and flew into the sky. He did not dare to fly too high. The higher the wind in this secret realm, the stronger it would be.

In the high altitude of this core area, the wind might be at the level of a level 4 or even level 5 great hurricane. Even official wizards would not be able to last long.

Finally, in the depths of the valley, Levi saw a small lake that emitted Nether Cold Qi. There were few people, as if no one had ever stepped foot there.

In the middle of the lake, there was an island. On the island, there was an ice-blue ape that was three stories tall. When Levi saw this ape, he almost thought that it was Hapes, the Great Ice Ape King in the human world. However, Hapes was still living well in the human world, so this should not be Hapes.

However, it was an ape-type transcendent creature that was very similar to the Ice Apes.

He suddenly remembered his Giant Breathing Technique. The secret medicine after the legendary Giant Breathing Technique required creatures with Frost Blood. Among them, there were Frost Giants or extraordinary apes with frost element affinity.

Wasn't the one in front of him meeting the requirements?

However, how should he take away a second-circle creature?

Levi shook his head. This was unrealistic.

Even if he could barely defeat the other party, it was impossible for him to capture it alive and tame it.

It was also impossible for a first-circle Nature's Secret Language to be used on transcendent creatures above the first-circle realm.

"Forget it, I can only kill him. With such a huge body, the blood should be

Enough for my Giant Breathing Technique to cultivate to level 12."

The secret realm would close in a few days. Levi could not wait until he advanced to the second-circle before coming back to subdue the other party. By then, 200 years would have passed and it would be too late.

Therefore, the final thought was to kill this guy and bring him out of the secret realm.

In the center of the island, where the cold aura was the densest, a black grass with seven leaves stood quietly.

"This is the legendary Seven Days Soul Returning Grass. It's exactly what the Tower Master needs. Phew, I can leave after getting this. I keep feeling like someone is trying to harm me."

Levi heaved a sigh of relief. Then, he perked up.

He summoned Ace from the Bug House.

Because Ace was a living creature, he could not put it in his storage bag, so he could only put it in the Bug House.

"Ace, lure that big guy away. The further the better. We'll meet at the exit of this valley in three minutes," Levi said softly.

Ace nodded, indicating that he was in charge.

It had just joined Levi and urgently needed something to prove itself. This was undoubtedly a chance to make a contribution.

Ace was a Fire Elemental Spirit and could elementalize. This super-large Ice Ape King should mainly focus on physical attacks with frost spell attacks as support..
