Chapter 466: Unbridled Snatching and Killing of the Second-circle! (5)

Levi felt that Ace should be able to hold on for a while. In addition, Ace's fire escape speed was not much slower than his, so it should not be a problem.

Soon, Ace flew above the big guy. The giant ape, who was sleeping soundly on the island, opened its eyes. Then, Ace unceremoniously blasted a Fireball Technique on the big guy's furry belly, roasting a large area of his belly...

However, it was obvious that this was just a superficial wound for this big guy.

However, Ace's provocative actions had already angered it. It beat its chest and stomped its feet. It stood up directly and suddenly jumped a hundred meters into the air, smashing towards Ace.

Ace's soul almost left his body. He hurriedly slipped away, and the big guy chased after him.

After sensing that they had disappeared from his perception range, Levi infiltrated the island without hesitation and stored the Seven Days Soul Returning Grass in a special container that he had prepared beforehand. It was very smooth.

Levi even felt like he was dreaming.

The legendary priceless treasure was actually obtained by him just like that...

It was too smooth. There were no obstacles.

This was not normal...

Although he was curious about why such a strange thing would grow in this cold pool, now was not the time to explore and study it.

He flapped his Blood Wings and flew into the sky, heading towards the valley.

Before they could reach the valley, a huge creature approached them with a bang. At the same time, monkey fur shot out like ice needles.

At this moment, Ace was held in the big guy's hand and looked like he was on the verge of death.

"Damn it, Ace, you're too much. I thought you could run away. To think that I had such high expectations of you." Levi couldn't help but complain in his heart.

Suddenly, he felt a sense of danger with the Spider Sensing.

Most of the ice needles were dodged by Levi. A few of them did not manage to dodge and directly broke through the golden protection around Levi's body. They used Water Shield and finally pierced into the Black Gold Scale, piercing through Levi's flesh.

Levi endured the pain.

"Flame Body!"

Red flames burned around his body, melting the ice needles. Blood Ember fell, and his wound quickly healed.

"What a powerful attack!" Levi's expression changed.

It was not that Ace was too strong, but this giant ape was too strong!

He was definitely much stronger than that witch!

Levi opened his mouth and spat out an ice arrow. Caught off guard, it shot towards the giant ape's large eyeball.

The giant ape subconsciously blocked with its hand.

Ace took this opportunity to finally break free from the giant ape's claws.

Even with its elementalization body, it was still caught by the other party. This showed how powerful the giant ape was.

After breaking free from the giant ape, Ace turned into a flame and appeared behind Levi.

A furtive flaming head poked out to look.

The giant ape could not fly. After jumping up, it landed on the ground with a bang.

The Earth trembled, and Levi flapped his wings hurriedly.

Levi was relieved to see that the giant ape could not fly.

Of course, he did not dare to let his guard down. Even if such a terrifying second-circle creature could not fly, it could still bring him down from the sky.

He suddenly sped up as the giant ape chased after him.

From time to time, he would jump up and punch Levi.

Levi had Top Perception and could avert danger every time.

"The Blood Beast Breathing Technique is awesome. It's simply the nemesis of most terrestrial transcendent creatures."

In fact, one of the main reasons why transcendent creatures were generally not as strong as wizards was that even First-Circle Wizards could generally master flying spells and achieve short-distance flight. After reaching the second-circle, their flying ability had further improved.

Levi also had the Blood Wings.

However, the giant ape was not slow. It followed closely below. From time to time, ice needles would pierce through the air. Levi would be pierced if he was not careful.

Although the ice needles did not cause much damage, their penetrative power was extremely strong. It could be said that they were concentrated. Even Levi's level 11 Black Gold Scale could not completely block them.

However, with the powerful recovery abilities of the Rock Body and the Blood Ember, Levi could recover quickly. Fortunately, there was no poison on the giant ape's ice needles. Otherwise, the situation might not be good.

At the same time.

While Levi was running for his life, the three wizards of the Black Sun Flame were also rushing towards the core area.

Until Boss Black Flame's expression changed. He sensed through his mind that there were two transcendent creatures chasing in front of him.

"No, they're not all transcendent creatures. One of them seems to be a wizard...

Because Levi's knight characteristics were too monstrous, most wizards who did not know much about legendary knights would always think of him as a wizard from the Life School of Thought.

"Isn't that Levi from the Ocean Faction? Could there be someone else in this secret realm besides Levi?" The leader of the Black Flames thought.

"No matter what, this person must be killed. The secret realm belongs to our Al Hidd Family. No one can take away what's inside!"

With that thought in mind, Boss Black Flame led the two wizards to ambush Levi's escape route.

Before Boss Black Flame sensed him, Levi, who was flying high in the sky, had already sensed the aura of an unfamiliar wizard in front of him through the Golden Snake's Letter. He even saw with his top-notch vision that it was three black-robed wizards.

Although he did not know them, Levi could tell from the Spider Sensing that the ones who had been giving him a sense of danger these past few days were not the giant ape he had just offended, nor the Colin Family, but these three fellows with ill intentions..
