Chapter 468: Unbridled Snatching and Killing of the Second-circle! (7)

"Impossible? This is the Big Fireball Technique? It's the strongest attack that a first-circle body of flesh and blood can't withstand!"

The Big Fireball Technique was publicly acknowledged as the upper limit of the First-Ring Spell's attack power!

This dark wizard was now doubting his life. This was his trump card. Once it hit, he would either die or be injured!

The God of Death had arrived. Levi flashed in front of him and grabbed the dark wizard's magic wand with his Undying Fire Claw, breaking it.

Then, the Golden Revolving Divine Palm shattered his protective spell. Its claws pierced through his heart and crushed it.

After the Saint Scorpions devoured the soul, Levi put the corpse into his storage bag and used it as a spare tire for the living dead.

Levi was already familiar with the process of killing and releasing the Saint Scorpions and then storing their corpses.

"It's a little troublesome to deal with the Second-Circle Wizard's defensive field, but it's not a problem to deal with you."

After killing a First-Circle Wizard, he muttered in his heart.

The strength of a second-circle wizard was that they could choose a second-circle defensive spell as their second -circle defensive force field.

This kind of force field was different from the first-circle defensive field. The second-circle defensive field was continuously effective and was similar to passive protective spells. After being shattered, it could also be quickly recovered through spell power.

This was equivalent to a Second-Circle Wizard wearing a second -circle defensive field at any time. As long as this defensive field was not broken, the Second-Circle Wizard would be invincible. This greatly restricted Levi's knight's means.

However, the First-Circle Wizards in front of him were different. Once their defensive spells were on cooldown or unprepared, they were very likely to be ambushed and killed by knights.

Moreover, with Levi's current attack power, these first-circle defensive spells could be easily shattered.

After Levi dealt with this wizard, he put away the spoils of war and realized that Ace had also finished the battle.

"Not bad. It's still useful."

Levi let Ace enter the Bug House and put away the storage bag of another first-circle ordinary wizard. The corpse was directly swallowed by the Saint Scorpions.

He looked in the direction of the battle between the black-robed wizard and the giant ape.

On the other side, the Black Flame Boss became more and more apprehensive as he fought, because the strength of this giant ape was much more powerful than he had imagined.

With his strength, it was actually a little difficult for him to deal with a second-circle transcendent creature.

This should be some ancient mutant that contained a powerful bloodline power.

Otherwise, he wouldn't be so difficult to deal with.

"Let's retreat first. We can't delay any longer. Let's deal with that damn brat first before we eliminate this big guy!"

If they wanted to continue collecting resources, this big guy had to be dealt with.

However, it was more important to kill Levi.

At the thought of this, after the leader of the black flames used a second -ring spell to force the giant ape back, he quickly used a flying spell to rise from the ground and fly through the air, far away from this place.

Not long after, he saw Levi fleeing in front of him.

This brat had some skills. He actually killed his two subordinates? Boss Black Flame had a cold expression and was filled with killing intent!

"Boss, hurry up. You're about to be caught."

Levi shouted as he flew.

"Still acting? You deserve to die!"

Boss Black Flame was so angry that smoke was coming out of his mouth!

The giant ape chased relentlessly and attacked Boss Black Flame from time to time with long-range spells. Although he could not fly, his movements were extremely fast, and Boss Black Flame could not shake him off for a moment.

Boom!

A huge ice ball collided with the defensive field behind Boss Black Flame. The defensive field flickered continuously before dimming.

"Hang in there."

Boss Black Flame swallowed an extremely precious defensive potion that could quickly recover his spell power and propped up his defensive field.

"Don't run!" Boss Black Flame shot a black flame at Levi.

Levi had long predicted his attack with Top Perception, so he directly dodged it.

"I don't believe that you can keep flying. The wings modified by a bloodline modification wizard also consume stamina and spell power. You're just a First-Circle Wizard. How long can you last?"

Boss Black Flame sneered.

This kid, with a pair of blood-red wings, could fly as fast as his Second-Circle Wizard's escape techniques. This made him unable to catch up to Levi.

The giant ape behind him was still attacking Boss Black Flame. He was about to die of grievance.

Levi looked at the exit in front of him and was overjoyed.

Seeing that Levi was about to leave the exit, Boss Black Flame began to chant a long-distance second-ring spell, Black Flame Spear!

A long spear made of black flames appeared in the hands of Boss Black Flame. It quickly condensed and shot out.

Levi felt a strong sense of danger. The black fire spear arrived almost instantly and directly crossed a long distance to attack. Moreover, it actually had a tracking function. There was no way to dodge!

He could only shift his important organs and circulate the Black Gold Scale and Rock Body with all his might.

At the same time, the Vampire Touch collided with the Black Fire Spear.

The Vampire Touch was sent flying. An intense pain came because it was Levi's organ.

"Ouch! This black flame is really difficult to deal with!"

At the end of the Vampire Touch, the small aberration's head was burning with black flames. It was clearly not in a good state.

The cold air from Frost Arm temporarily suppressed the flames. Then, he made a prompt decision and directly cut off the front half of the burning flames of the Vampire Touch.

Then, the broken blood intestine burned into nothingness in midair.

However, the remaining half quickly retracted into the blood sac.

Under Levi's powerful healing ability, a miracle happened.

The aberration's head which was filled with sharp teeth grew out again. Not long after, the smaller Vampire Touch appeared again.

With the help of the Vampire Touch, Levi successfully dodged the black fire spear and left the exit in a flash. After he left, he released all the living dead that he brought with him. He also released Ace and hid around the exit.

He grew taller, and the five-meter-tall giant Levi appeared again. The seven-meter-tall Nine Swords Asura evil spirit appeared behind him, and its three heads emitted monstrous demonic flames!

The long black silk of the six arms fluttered even though there was no wind. It was like an ink brush scribbling in the air.

The Red Lotus Blood filled Levi's entire body, and the Lava Heart burned with all its might. A large amount of white smoke rushed out of Levi's body like a pillar of smoke, soaring into the sky! From afar, it looked like a rising smoke!

Levi's expression was ferocious as he stuck out his snake tongue. His scales overlapped and his muscles bulged. He held the Poseidon Trident and waited quietly at the exit.

The Paralysis Spell of the Trembling Ring was also ready. If it could paralyze him, it would be even better. If it couldn't, Levi would be able to withstand it.

Meanwhile, in the secret realm, Boss Black Flame sped up.

"Damn it, that kid slipped away so quickly. But where can you escape to?"

He cursed inwardly.

He charged out of the secret realm.

Due to the secret realm's ability to block Perception, he had no idea that Levi was lying in ambush at the exit!

As soon as he appeared.

A monster with three heads and six arms held nine swords and attacked with an unstoppable might.

The second-circle defensive field around Boss Black Flame lit up to the extreme!

Slash!

The Nine Golden Swords used the Revolving Force to stir the force field, twisting it and tearing it apart!

"Die!"

Levi was like a god that had descended to the mortal world. His nine swords danced wildly as the Poseidon Trident swept across, catching Boss Black Flame off guard.

At the same time, flames poured out of Levi's mouth and drowned the black-robed wizard in front of him. Ace and the others also swarmed forward and poured out all the attacks they had prepared!

Plop.

The corpse of Boss Black Flame fell to the ground and was already shattered.

Levi panted heavily, his face grim.

"F*ck, the Paralysis Spell is indeed unreliable.."
