

Wizard 471

Chapter 471: The Black Knight! (3)

With his current strength, he could barely kill a second -circle transcendent creature, let alone these first-circle transcendent creatures.

The Red Sand Ape was not big. It was only about four meters tall, a little bigger than the Great Ice Ape King. Compared to the giant ape in the secret realm, it was a tiny dot.

Levi estimated that the giant ape in the secret realm had the strength of a second-circle senior wizard.

He found a deserted place.

Levi used the chains that he had prepared earlier and tied up the Red Sand Ape leader. While it was unconscious, Levi immediately cast Nature's Secret Language.

With his realm, it was not difficult for him to form a contract with this leader.

Not long after, a green leaf pattern appeared on the forehead of the Red Sand

Ape leader.

Levi knew that Nature's Tale had succeeded.

He had successfully formed a contract with this leader.

When the Red Sand Ape leader woke up, at first, he was confused and lost in thought.

It was basking in the sun and humming songs at home, enjoying the worship and service of the female apes.

Why was he suddenly knocked out by a humongous object that fell from the Sky?

The power of the contract from Nature's Secret Language made it feel as if its life was connected to the man in front of it.

"I'll call you Rhett from now on," Levi smiled and said.

The Red Sand Ape quickly knelt down.

"Woo woo woo," it barked in agreement.

The Red Sand Ape had high intelligence and good learning abilities.

This was also the first time Levi had used Nature's Secret Language. There was a tight connection between him and the Red Sand Ape. Through this connection, he could order the Red Sand Ape to do something.

However, he could feel that this connection was not very close, as if he needed to maintain it frequently.

Nature's Secret Language was completely different from his Blood Contract. The Blood Contract was a complete slavery and loyalty!

A contract like Nature's Secret Language required constant interaction to increase the number of affinity points, and this was undoubtedly an energy-consuming task.

That was why the wizards of the School of Spiritualism would choose a life spirit beast to focus on nurturing relationships and training.

After subduing the Red Sand Ape, Levi went to the Black Flame Mountain Range again. As it was the territory of the Al Hidd Family, Levi was very careful when searching. He could not let go of it at all. In addition, the Crimson Fire Dragon Lizard was unpredictable. In the first week, Levi did not find anything at all.

However, Levi was patient. It was not easy for him to come to the Yellow Earth Continent, so he had to bring this guy back.

Therefore, he waited for another month.

In the end, he successfully found a Crimson Fire Dragon Lizard. Then, Levi grabbed it and gave it a good beating, until it could no longer take care of itself.

After tying him up, he carried the Crimson Fire Dragon Lizard and left the Black Flame Mountain Range overnight.

The Crimson Fire Dragon Lizard was seven to eight meters long, and its entire body emitted a scorching aura. It could breathe out red flames, which was not as powerful as Levi's Red Lotus Breath, but it was still very extraordinary.

However, it was too big to fit into Bug House. Levi could only let the Red Sand Ape and himself carry it. After half a month, they finally reached the seaside.

However, both the Crimson Fire Dragon Lizard and the Red Sand Ape could not swim, and Bug House could not accommodate them.

Leviathan could not carry so many big guys.

Levi was helpless. After contacting Dinos, he found out that Dinos would be leaving for Area 9 in a few days.

As such, Levi had just gotten a free ride.

Three days later, Moon Ship set sail from Lion King City and headed towards Area 9.

In the cabin, the Red Sand Ape and Ace were guarding the dishonest Crimson Fire Dragon Lizard.

Its mouth was covered with a metal cage. Otherwise, its breath could destroy Dinos' ship, and Levi would not be able to afford it. Dinos looked at the magical animals on the boat in disbelief.

"Sir Levi, you can't be a transcendent animal researcher, right..." Levi nodded, "Something like that. I like to study transcendent creatures."

"I see. Amazing. I know the strength of the Crimson Fire Dragon Lizard. You were able to capture it alive so easily. I'm impressed," praised Dinos from the bottom of his heart.

Although Levi did not show his true colors, Dinos knew that the man in front of him was terrifying and unfathomable.

In the blink of an eye, he was able to kill a senior first-circle dark wizard. This kind of strength should be infinitely close to a second-circle wizard.

Levi was not much older than him. He, the so-called genius of the three aristocratic families, had really lived a dog's life.

"By the way, Dinos, have you heard of the Black Sun Flames?" Levi suddenly asked.

Dinos' expression froze, "What's wrong? Did you meet the people from the

Black Sun Flames?"

Dinos suddenly remembered that the Colin family had been destroyed by the Black Sun Flames a few days ago.

A few months ago, Levi had also investigated the Colin family.

Dinos did not know why Levi asked this. Was Levi also involved in this matter?

However, he believed that Levi had nothing to do with the Black Sun Flames.

Levi shook his head and said, "No, I didn't. I just happened to hear someone say it in a tavern a few days ago."

"That's good. This organization is one of the famous dark wizard organizations in the Yellow Earth Continent. They are often active in the western region.

Although I suspect that this organization has something to do with the Al Hidd Family, I don't dare to say anything without evidence," said Dinos..
