Chapter 487: I'll Be the Leader of the Knights! (6)

Half a month later.

Levi arrived at a dangerous sea area.

This was the location of the lost Pan's Labyrinth.

According to the map, Levi activated his Perception to search for traces of the ancient ruins.

In the dangerous sea region, the number of sea beasts was obviously much higher than outside.

When Levi arrived at the area on the map, he realized that there was clearly an island there, but after arriving, there was not even a trace of the island.

"Could it be that the island sank?"

Levi looked down at the bottomless sea, like the mouth of a giant beast that could swallow everything.

With his current perception, he could sense that there was no danger in the Deep Sea. There were only some first-circle sea beasts.

"Let's go down and take a look."

Leviathan hid in Leviathan's mouth and let Leviathan swim toward the Deep

Sea.

300 meters, 3,000 meters...

Levi could not help but marvel at the depth of this place.

10,000 feet, there was still no bottom.

Sensing that there was no danger ahead, Spider Sensing did not give any warning.

Levi continued to dive down.

Unknowingly, he had arrived at a depth of about 50,000 feet.

The water pressure here was so great that even the transcendent creature Leviathan was not used to it.

Generally speaking, Leviathan liked to stay at a depth of about ten thousand feet. Although it could still go down, it rarely did so.

In the Deep Sea, because no one was looking, all kinds of ugly transcendent creatures swam past Leviathan.

Levi used Perception to investigate the surrounding situation. In such a deep Lightless Sea, top-notch vision was basically useless.

After careful exploration, Levi discovered that there was a row of underwater stone arrays with an eight-pointed star array pattern on the seabed plain ten thousand feet below.

"What's this?"

Levi didn't dare to get close and used Perception from afar. He tried to walk down, but the hairs on his arms began to stand up.

"No, it's dangerous down here. We can't go down."

Levi shook his head and decisively left the Deep Sea area.

After returning to the surface of the sea and seeing the sky again, the uneasy feeling slowly disappeared.

Obviously, it was impossible for the huge rock to grow so regularly and show such a complicated eight-pointed star pattern.

He had used a powerful force to forcefully arrange the huge rock into some kind of array.

Levi was now close to becoming a first-circle array wizard. From his perspective, this array seemed to be some kind of sealing array.

"Forget it, I'm not curious anymore. This should be the lost Pan's Labyrinth, but it's not something my current realm can touch." Levi sighed and left the sea area without hesitation.

Not long after Levi left.

A crack suddenly appeared in the center of the Eight-Pointed Star Stone Formation.

A dark red light emerged from the crack. One could see the blood-colored flesh wall and the dense white bone spikes attached to it.

"Pan..."

A deep voice echoed in the Deep Sea.

Holy Brilliance Calendar Year 1037, Month of Flowers.

Leviathan arrived at an island that bordered Area 9 and the inner sea region.

This was Bass Island, also known as Qihang Island. There was a faster and safer means of transportation to the inner sea region.

The inner sea region was vast and boundless, and danger lurked everywhere. With Levi's cultivation, it would be very difficult for him to cross it safely.

Therefore, he decided to spend some money and take the official high -level transportation.

As soon as they arrived, Levi saw a huge ship soaring into the sky and quickly leaving the island.

"We didn't make it. We can only wait for the next one.."
