

Wizard 491

Chapter 491: First Breakthrough, Boiling Beast Blood, Golden Snake Disturbing the sea! (4)

Strength Rune Language Proficiency +1

Night fell.

The wizard airship finally reached the right edge of the endless wind wall, and a Calm Belt appeared in front of them.

The captain was overjoyed and flew the wizard airship with all his might.

In the first-class cabin, the Favored By The Night's Special Effect began to take effect. Levi opened his eyes and felt his body's attributes getting stronger and stronger.

He touched his arm, and his hair stood on end.

"This faint sense of danger has already lasted for a day, it is getting stronger and stronger now, we have clearly left the great hurricane safely, why is there still danger?" Levi looked at the great hurricane.

His Golden Snake's Message or Top Perception did not detect any changes.

Under the faint starlight, Levi carefully observed the distance.

His top-notch vision scanned everything.

In the end, Levi finally noticed a flickering shadow.

"What is inside the great hurricane... what gives me a sense of danger is not the great hurricane, but the unknown existence inside."

Levi immediately became alert.

Dark golden Newborn Scales slowly appeared under Levi's clothes. He subconsciously used his snake tongue to Perception, but he did not sense any aura.

"It's not that simple."

Levi muttered to himself.

He came out of the first-class cabin and looked around, it seemed that other than him, including the captain, no one else noticed the danger hidden in the great hurricane.

Just as he was about to go back, the Violet Witch tied her hair and came out of her private room.

Levi's gaze met with the other party's before he left.

He could feel the vast spiritual force in the other party's deep eyes. This was much stronger than Marlene, who was also a second-circle wizard.

"It's not just the second-circle. It's very likely that she's a second-circle senior," Levi muttered to himself.

It seemed that the Violet Witch had also noticed something wrong.

"Captain, I suggest that we continue to walk for a while and not get close to the edge of the great hurricane," the Violet Witch said to the captain and said what Levi wanted to say.

"This is even better. Having a Second-Circle Wizard to remind me is much more useful than me," Levi muttered to himself.

"Why?" the captain asked.

"Just listen to me. I'm a staff member of the Star Tower." As she spoke, the Violet Witch took out her identification card and showed it to the captain.

The captain hesitated for a moment before deciding to take a long detour.

The strength of a second-circle wizard, coupled with the identity of a staff member of the Star Tower, should not lie to him.

Some wizards were a little dissatisfied, but they did not dare to say anything.

In that case, their flight would be even more delayed.

But who would dare to disobey a Second-Circle Wizard?

Levi did not return to the private room.

He was waiting at a remote cabin door of the wizard airship.

If there was really any danger, he would jump off the ship and leave without hesitation. In any case, with his ability, it was not a problem for him to fly into the sky or enter the sea.

And in the great hurricane.

The expression of the black-winged wizard, who was hiding in the wind belt at the edge using a Wizard Tool, changed.

"What's going on? Did someone discover our ambush?"

"It can't be... This Black Iron Curtain is a powerful Wizard Tool that the organization just rewarded you with."

"Motherf*cker, this wizard airship is too fast. We can't wait any longer. Everyone, prepare your defenses. I will activate the Black Iron Curtain to its maximum speed!"

Black Wings made a prompt decision!

As the spell surged into the Black Iron Curtain, the Black Iron Curtain was like a sharp sword that suddenly stretched straight and broke through the wind belt.

Behind the Black Iron Curtain, wizards grabbed the curtain tightly.

The Black Iron Curtain quickly tore through the air.

Soon, the Black Iron Curtain brought a group of Boiling Beast Blood wizards and sped up, finally catching up to the wizard airship.

Boss Black Wings's expression was cold as the corners of his mouth curled up.

He spread his wings and turned into a black whirlwind, landing directly above the wizard airship.

He took out a black heart that flickered with all kinds of alchemy runes.

This was a powerful one-time attack tool created by combining the knowledge of the Life School of Thought and the School of Alchemy!

"Explosion Heart!"

"Boom!"

'I'ne art was an explosion.

Under the attack power that surpassed the second-ring spell, the protective shield of the wizard airship began to flicker.

This wizard airship was of the lowest level and could only withstand spell attacks below the second-circle.

Soon, the protective shield shattered.

The remaining shockwave blasted a huge hole in the wizard airship, and strong winds surged into the cabin.

All of this happened in a split second.

A wizard who was close to the hole was caught off guard because he did not activate his defense. He was sent flying by the shockwave of the explosion and swept out of the hole by the strong wind.

The wizard, Black Wings, grabbed the wizard who flew out and laughed sinisterly.

Then, he crushed the defensive spell that had just lit up, and this unlucky fellow's blood splattered in the sky.

Black Wings jumped into the cabin, and one spell attack after another poured down on his body.

The light of spells shone through the big hole, illuminating the night sky.

The spell runes on the black-winged wizard's body flickered, and the Black Scale closed. These First-Ring Spell attacks were all blocked.

"Enemy attack!"

"It's a dark wizard!"

The passengers in the cabins looked flustered. All kinds of magic wands were pointed at Black Wings.

Black Wings revealed a cruel smile. "Little lambs, you still want to resist."

"Black Wings! It's you!" The Violet Witch appeared in the cabin, surrounded by a second-circle protective force field.

"The Violet Witch of the 24 Flowers under the Flower Witch is indeed as beautiful as the rumors say. I wonder how beautiful the owner of the 24 Flowers is. Tsk, tsk, tsk.."
