

Wizard 495

Chapter 495: Saint Ape Fusion Giant, Levi's Fourth Form!

(1)

Levi looked at these numbers and pondered.

"Unknown Dragon Clan bloodline of 5%. This should be the bloodline of the Golden Snake."

"Red Lotus Dragon is undoubtedly Red Lotus, what's going on with the unknown Blood Clan bloodline?"

Levi was puzzled. Then, he began to look through the information again. In the end, he found a manual for the use of the Rowling Crystal that had been thrown in the corner.

"Note 1: All bloodline data of this product is stored in the product terminal.

According to the Pan-Plane Wizard Council's Wizard Tool Privacy Protection

Act, all bloodline testing will be automatically calculated by the crystal."

"Note 2: The bloodline data stored in this product is limited to the bloodline type database established by Rowling Laboratory when making this product. There are countless bloodlines in the Multidimensional Plane. For bloodline data that is not in the bloodline type database, this product cannot be listed. I hope you can understand. If you need the most comprehensive bloodline test crystal ball, please buy the new model in time."

"Note 3: The percentage number after the bloodline of this product is only the percentage of the similarity between the bloodline you currently have and the closest Original Bloodline. For example, 10% of the Ash Dragon Bloodline means that a certain bloodline in your body has a 10% similarity to the ninth-circle transcendent creature, the Ash Dragon. It's not a percentage of the bloodline content. Therefore, the sum of the percentage of all the bloodlines is not 100%."

"Finally, bloodline modification is dangerous. Be it conducting experiments on bloodline modification creatures or performing bloodline modification on yourself, remember to abide by the Law of Irreversibility of Bloodline Modification! "

After reading the introduction of the manual, some of Levi's doubts were resolved.

At first, he thought that these percentages were the percentages of a certain

Bloodline in his body.

However, when he was surprised to find that his human bloodline was still 100%, he realized that something was wrong.

The percentage of these mixed bloodlines had long exceeded 100%.

"Fortunately, I should probably still be... human."

Levi comforted himself in his heart.

Of course, all of this was based on the fact that there was nothing wrong with the Rowling Crystal.

In short, since it had been tested for such a long time, just like the Klein Crystal, there shouldn't be any quality or safety problems with the crystal.

After searching for a while, Levi learned what the Law of Irreversibility of Bloodline Modification was.

In short, once one embarked on the path of bloodline modification, there was no turning back. The more impure the bloodline contained in the body, the higher the level of the bloodline, and the greater the risk of bloodline modification.

Levi looked at the dense bloodline list in front of him and fell into deep thought.

In the end, he silently put away the Rowling Crystal.

It was irreversible.

"I'm on the path of a knight. It's different from their bloodline modification... This law of bloodline modification might not be applicable to me, who has the proficiency panel. "

Levi muttered to himself.

The wizard airship continued forward.

Ring!

A button beside Levi rang. Someone had rang the doorbell.

"Who is it?" Levi asked.

"I'm Violet, a second-circle witch." A familiar voice came from the button.

"What is it?" Levi asked.

"I want to talk to you," said the Violet Witch.

After some thought, Levi packed his things and opened the door.

The Violet Witch stood at Levi's door with a dignified face and a faint smile on her lips.

"Come in and have a seat," Levi said.

The Spider Sensing did not react. This person should not have any hostility towards him. Moreover, after the battle just now, Levi knew from some details that this person's character should be quite good.

"My name is Violet. May I know your name?" asked the Violet Witch.

"Levi. "

"Sir Levi, you must be a legendary knight, right?" The Violet Witch thought for a while and said.

"Yes, it seems that you have some knowledge about knights," Levi said.

"Of course. My master is also a legendary knight. I see many temperaments like hers in you."

"Moreover, my master seems to be like you. When she uses the power of a knight, he becomes... inhuman.

"To be honest, if I hadn't seen my master transform, I would most likely think of you as a bloodline modification wizard," Violet said.

"Your master is the Flower Witch Elena?" Levi asked.

When he was kicking down the door, he heard Black Wings say that Violet was one of the 24 Flowers, the Flower Witch, and so on.

At that time, he was only focused on escaping and did not pay much attention to it.

Now he remembered that Emperor Mu had told him before that the Flower

Knight's identity after entering the Wizard World seemed to be the Flower

Witch.

"I guess you know something about my master, too," Violet said.

"Of course. Your master is a famous legendary knight in the human world. She represents the most beautiful Flower Knight in the world. Our best wishes for a man are 'May your future wife be as beautiful as the Flower Knight'," Levi suddenly said with emotion as he recalled the human world.

"Haha, my master has never talked to me about this. Indeed, there's no woman more beautiful than my master in this world. Although one can change their appearance in the Wizard World, that kind of beautiful temperament is impossible to imitate."

Violet said. There seemed to be admiration in her eyes..
