

Wizard 496

Chapter 496: Saint Ape Fusion Giant, Levi's Fourth Form!

(2)

He wondered if Elena was a lesbian. The male knights in the human world would cry and be heartbroken.

"Sir Levi, are you going to the Star Tower? My master is currently working in the Star Tower and is also the leader of a Fifth -Circle Wizard Organization. I can bring you to meet her when you have time. She seems to be looking for a legendary knight like her. I think she will definitely be interested in you, Sir Levi," Violet said with a smile.

Although Levi wanted to include the Flower Knight in the Twilight Knights, he knew that with his current strength, he could not handle the Flower Knight.

Therefore, he had no intention of meeting the Flower Knight now. That was a Fifth-Circle Wizard, an existence that was only one step away from becoming a

Sixth-circle high-level wizard.

He was also worried that his background would be seen through by such an expert, regardless of whether such an expert had any ill intentions.

Therefore, he said, "I have something urgent to do in the human world this time, so I won't visit Lord Elena. When I have time in the future, I'll definitely visit her personally."

The Violet Witch was slightly disappointed. Then she smiled and said, "Well, don't worry. My master has a good personality. Most of the 24 Flowers are common girls that my master took in in the gathering place of mortals. I'm sure you know her reputation in the human world."

Levi nodded in agreement.

So far, Levi had come into contact with and understood all kinds of wonderful qualities of the legendary knights in the human world. This was also why they were praised by people.

The courage of the Snowflake Knight, the chivalry of the Blood Knight, the beauty of the Flower Knight...

In the end, Levi got a postcard from the Violet Witch with the name and address of her organization.
"Fifth-Circle Wizard Organization, Sword Flower Oath Tower..."

"That's a nice name."

Levi muttered to himself.

In the following days, Levi continued to cultivate on the airship.

They successfully changed flights and successfully arrived at the Star Sea.

Levi stood by the window and looked at the scattered islands on the sea in front of him, as well as the steeple that seemed to pierce through the world in the center of his vision.

Levi looked up. He couldn't see the top of the steeple. It went straight into the clouds, as if it was about to touch the edge of the world.

"The wizard civilization is indeed amazing."

After arriving at the station, everyone got off the airship. Violet and Levi greeted each other. "Sir Levi, you are welcome to Sword Flower anytime."

"Goodbye, Miss Violet."

Levi waved his hand.

Although this trip was short, it was quite interesting.

He actually met the maid of the important Flower Witch.

"Brother Panel, please take care of the Flower Knight as soon as possible."

Currently, the Twilight Knights were in dire need of legendary female knights.

There were too few legendary female knights in this world. Levi had only heard of the Goddess Knight and the Flower Knight. The Goddess Knight seemed to have died, and he still had no clues about her.

Therefore, the only legendary female knight Levi could conquer was the Flower Knight.

Now that he knew the Flower Knight's maid, it was a good start,

Looking at the prosperous Star Sea, Levi felt the rich power of the water element.

"No wonder everyone wants to come here to cultivate. Just the elemental power alone is countless times stronger than the Outer Circle Area. The herbs and various wizard resources here are naturally not comparable to the outer sea region. Those who cultivate here are all superior."

He did not even dare to release his Perception. Low-level wizards could not be said to be everywhere here, but they were almost there.

From time to time, powerful auras as powerful as the Tower Master's flew across the sky.

Although low-level wizards had depreciated, Intermediate Wizards above the third-circle still had a high status.

Levi looked like a country bumpkin who had just entered a big city.

Before leaving the human world, he wanted to buy some things.

Among them, the most important was the Spirit Binding Ring. If he wanted to capture a Blood Clan alive, such a thing should be useful.

Although the Spirit Binding Ring was rarely sold in the Realm of Azure Cloud, this was the most prosperous Star Sea, so it should be possible to buy it.

In the end, Levi asked for directions and found the Celestial Circle Shop closest to him.

As soon as Levi stepped into the shop, he was attracted by the revolving window.

The display windows were like a long spiraling dragon that spread throughout the steeple.

One by one, the Wizard Tools that looked very high-end and classy were displayed. The price made Levi tremble in fear.

"The third-circle Wizard Tool, Mad Lich Hat, is priced at 40,000 Wizard

Tools... The fourth-circle Wizard Tool, Minnie Miaomiao House, is priced at 200,000 Aether Stones... The treasure of the shop is the fifth-circle Wizard

Tool, Gargamel's Book of Seals, and it's priced at 5,000,000 Aether Stones..."

"There's actually a fifth-circle Wizard Tool. As expected of the Celestial Circle Shop in the Star Sea. Five million Aether Stones. I don't eat or drink. Even if I rob dark wizards every day, I'll have to save up for one to two hundred years... Unfortunately, there's no such thing as loans in this alternate world."

In the Celestial Circle Shop in Area 9, where Levi was, even Second-Circle Wizard Tools were not sold.

This was the huge difference between the outer sea region and the Star Sea!
