

Wizard 497

Chapter 497: Saint Ape Fusion Giant, Levi's Fourth Form!

(3)

He took a look. There were no sixth-circle Wizard Tool or above in these display windows.

It was said that Wizard Tools above the sixth -circle were basically not sold on the market because they were too rare. Even if there were, no one would sell them.

Wizard Tools of this level were usually in the hands of a few high-level primordial soul wizards. Only primordial soul wizards could refine and use them.

Therefore, from the sixth-circle onwards, it was generally not called a Wizard Tool, but a "Soul Artifact".

Soul Artifacts were basically bound to the primordial soul of a primordial soul wizard. Even if other wizards accidentally obtained it, they could not use it unless they could kill that primordial soul wizard and remove this binding. "This Minnie Miaomiao House is really not bad. This is a medium-sized spatial Wizard Tool that can store living creatures. It's equivalent to a Bug House. If I had this Wizard Tool, I could store all the transcendent creatures on my island."

"This treasure of the shop, the Gargamel's Book of Seals, is even more abnormal. There are a total of five pages. The first page can seal a first-circle creature, the second page can seal a second-circle creature, and the fifth page can actually seal a fifth-circle creature! With this thing, why would I need the Spirit Binding Ring? A book can solve my current predicament."

Levi's eyes were filled with envy. These two Wizard Tools were the kind he really needed.

However, he could not afford it at all. When he had the money to afford it, there was a high chance that he would not need it again...

This was the greatest pain in the world.

In the end, Levi found the Spirit Binding Ring that he needed. The first-circle one cost 8,488 Aether Stones, while the second-circle one cost 23,333 Aether Stones. The price of the second-circle Spirit Binding Ring was about the same as the worst third-circle Wizard Tool.

"It's ridiculously expensive."

Levi was speechless.

He could afford a second-circle one. He had more than 30,000 Aether Stones on him now.

In the end, Levi chose a first-circle Spirit Binding Ring. After paying the fees painfully, he left the place.

He had also bought the Wizard Tool that was used to capture the Blood Clan alive. Levi did not waste any more time and went straight to a teleportation portal in a sub-dimensional portal.

Here, two unattractive-looking wizards were on duty.

Levi did not dare to be negligent. To be sent to guard an important place like the sub-dimensional portal, he must be at least a Third-Circle Wizard.

"Lords, I'm going to the human world," Levi said respectfully.

"Give me your membership card to verify your identity," a Third-Circle Wizard said.

Then, he took the membership card from Levi. After confirming that Levi was not a fleeing dark wizard, he said, "Before you teleport, there are some things to take note of. Take a look for yourself."

Levi nodded and checked the things to take note of. He realized that the closest teleportation location to him was the East Pole Empire in the human world. That place was still thousands of miles away from the Emerald Kingdom.

"Forget it. With my current speed, it won't take me long to rush from the East

Pole Empire to the Emerald Kingdom."

After paying, the wizard opened the sub-dimensional portal, and the door that was emitting white light lit up.

Levi was slightly excited. He took a deep breath and stepped into the portal.

"I, Levi, am back!"

Holy Brilliance Calendar Year 1037, Month of Flowing Fire.

In the easternmost part of the continent.

East Pole Empire.

In an uninhabited catacomb on an uninhabited deserted island in the eastern sea region of the Empire.

Some ancient murals could be vaguely seen on the stone walls of the catacombs. It seemed to be drawings of a holy angel emitting white light descending from Heaven's Gate.

Suddenly, on the mural, in the middle of Heaven's Gate, a portrait of a silver-haired man appeared. The eyes of the portrait spun.

Then, the man on the mural slowly fell off and landed on the ground, turning into a three-dimensional person.

"Interesting. This mural is actually the location of the sub-dimensional portal between the human world and the Realm of Azure Cloud."

Levi stretched his muscles and bones. There was nothing wrong with his body, and all the things on him were still there.

"Since you've come out, don't stay here any longer. Leave quickly." Suddenly, an old voice came from the stone wall beside him.

A person's face protruded from the stone wall and looked at Levi, giving him a

Fright.

It was an old man with age spots all over his face. He looked old.

With his perception, he had no idea that there was a person hiding in the stone wall.

It was obvious that this person was also an Intermediate Wizard.

"Are you the guardian of the teleportation gate? If I want to return to the Wizard World, should I look for you?" Levi asked.

"That's right." After the old face finished speaking, he hid in the stone wall again, as if he was unwilling to say another word.

"Thank you."

After saying that, Levi quickly left the place.

"As expected, there are still some existences of the Wizard World hidden in the human world. However, they are very low-key. There's a high chance that they only stay here because of special missions. After all, for official wizards, there's no way to cultivate in the human world. It's a barren land."

After he left the island, he did not use the Blood Wings to fly.

Once he was in the human world, he had to be careful and could not relax. Levi used the most primitive swimming method to swim in one direction.

Not long after.

Levi encountered a fishing boat.

"There's a fishing boat, which means that it's not far from the mainland. It should be the East Pole Empire." Levi swam quickly across the seabed.

Three days later.

Flying Dragon City.

Levi's figure appeared.

After asking around,

This was a small seaside city located along the coast of the East Pole Empire..
