

Wizard 500

Chapter 500: Mortal Body, Crushing the Blood Clan! (1)

After returning to the hotel.

Levi took out the Rowling Crystal to see if there were any changes to his bloodline.

[Unknown Mythical Creature Bloodline 1%...]

"As expected, because King Kong was mutated from the fusion of the Saint Ape and the giant, it's not recorded in the crystal's database. At least the Golden Snake can still be identified to be a Dragon Clan creature. This can only be given as a general Mythical Creature."

"According to the Life School of Thought's classification of transcendent creatures, all transcendent creatures can be divided into first-circle to ninth-circle. The ninth-circle is also known as the Legendary Creature, which is about the same level as the Grand Wizard. Above the ninth-circle are the Mythical Creature and the Legendary Wizard.

"Therefore, in theory, the theoretical upper limit of the King Kong Bloodline should be the level of a Mythical Creature. Of course, it might also be higher than a Mythical Creature. After all, a Mythical Creature is only at the highest level in the knowledge of wizards. It's an upper limit set by wizards."

Levi put away the crystal. The King Kong Breathing Technique broke through the limit and advanced towards level 12, his four great strength breathing technique systems.

Red Lotus, Black Whale, King Kong, and Ostrich Mountain had already taken shape.

However, the Ostrich Mountain Breathing Technique was still at the maximum of level 11, and Levi had yet to break it.

He planned to wait a little longer and see if he could encounter a perfect-grade breathing technique enhanced by Strength in his legs. Then, he would imitate the giant and the Saint Ape and give birth to a new mutated breathing technique.

All in all, mutated breathing techniques seemed to be relatively powerful.

The next day.

Levi wandered aimlessly through the streets like a streetwalker.

He was very curious. With his perception range, if there were Blood Clan or other monsters in Myriad Dragon City, it should be impossible for them to escape his perception.

Up until now, Levi had not sensed any monster's aura.

In such a situation, there were only two possibilities.

The monsters were either not in the city at all.

Either that or the monster was in the center of Myriad Dragon City, a place that he had never investigated.

Levi looked at the location of the Church of the Dragon God.

Fearing the power of the Church, Levi would deliberately avoid the Church when he used Perception.

In his opinion, most monsters were courting death by hiding in the Church.

However, he could not rule out the possibility that the most dangerous place was the safest place.

"The Blood Clan have the ability to change their appearance at will. They might really be hiding in the Church," Levi muttered to himself.

He planned to focus on the Church's surroundings and see if he could find any clues.

Six days later, in the middle of the night.

Levi was cultivating when he suddenly opened his eyes.

"A suspicious person has appeared."

Over the past few days, he had been keeping a close eye on the Church.

He finally found some clues.

He observed that someone would leave the church in the middle of the night every once in a while and leave the city alone.

And this person was the head priest of Myriad Dragon City's Dragon God Church, Bancroft!

"Strange, I can't sense any aura of the Blood Clan."

Levi had also come into contact with the Blood Clan. His Golden Snake's Message also contained the aura of the Blood Clan.

Although the auras of every Blood Clan were slightly different, Levi's senses should be able to detect it.

Unless this head priest was not a member of the Blood Clan, or he had an extremely high-end technique to conceal his aura.

Levi's heart skipped a beat. He was about to go out and follow the head priest.

At this moment, another figure sneaked out of the church.

Levi stopped what he was doing.

This figure was burly and looked like a knight. Levi had seen this knight before.

He was the leader of the Holy Dragon Knights stationed in Myriad Dragon City. He was an expert on the same level as the White Horse Knight and was only one step away from becoming a legendary knight.

He seemed to be called Hogg. He was almost the strongest person in Myriad Dragon City and even the East Pole Empire on the surface. His status was similar to the Fist of the Empire.

This captain often led the Holy Dragon Knights to patrol the city, so Levi was more familiar with him.

According to Levi's information, Hogg had a good reputation among the people. He was a very prestigious expert.

One was the head priest, and the other was the leader of the knights. They both snuck out of the Church in the middle of the night and headed out of the city.

This behavior was very suspicious.

After waiting for a while, no one else appeared.

Levi's figure disappeared into the night.

Outside Myriad Dragon City.

The head priest's figure advanced in the night. His pace became faster and faster, and soon, he disappeared into the black forest ahead. Soon, the knight Hogg appeared at the edge of the forest.

His gaze was calm and his expression was firm.

He had always been ordered to investigate the truth behind the evil beings in Myriad Dragon City.

However, after experiencing countless hardships and gathering all the clues he had gathered, he realized that these clues actually pointed to a person he had never suspected.

The head priest of the Myriad Dragon City's Dragon God Church!

Lord Bancroft!

The headquarters of the Church of the Dragon God was not in Myriad Dragon City but in the tall Dragon King Mountain.

However, Bancroft's position as head priest was one of the top among all the head priests in the Church of the Dragon God.

Such a head priest, who was respected by his believers and knights, was a big shot who could talk and laugh with the lord of the East Pole Empire in the palace. He was actually the mastermind behind the recent evil deeds in the Myriad Dragon City.

This was something Hogg couldn't accept.

However, after his repeated investigations....
