Chapter 504: Mortal Body, Crushing the Blood Clan! (5)

As the most powerful man in the East Pole Empire and the man closest to a legendary knight, he knew how powerful Yasad was. Even legendary knights might not be his match.

However, Yasad was unable to fight back in front of this middle-aged silver-haired man. This gap seemed to be even greater than the gap between him and Yasad. After all, he could at least break through Yasad's defense.

Levi came over and looked at Hogg's injuries. Then, he went straight to the point and said, "I don't like to beat around the bush. I saved you because I have a motive. Give me your breathing technique inheritance diagram and sword skill, and I can save you."

This was the confidence brought about by strength. There was no need to beat around the bush. He could just ask for it!

Hogg was stunned. Clearly, he hadn't expected this man in front of him to be so simple and crude.

Then, he smiled bitterly and said, "My inheritance diagram is in my family.

Why do you want my family's breathing technique inheritance diagram?"

"Alright, upon the King of Ten Thousand Dragons, I, Hogg, agree to your conditions." Hogg collapsed to the ground and swore to the heavens.

"I don't have faith. I don't believe in swearing. This is a contract slate. Don't have any thoughts of resisting.

"This way, I'll extract a portion of your spiritual force and make it into a mark. Then, we'll form a contract. If you violate the terms of the contract, your soul will dissipate and you'll die! "

He took out a contract slate. Although it was used to regulate the contract between wizards, it could also work on mortals.

However, although mortals also had spiritual force, they clearly did not know how to condense spiritual force imprints themselves.

Therefore, it required the cooperation of mortals to allow Levi to extract his spiritual force to form a mark.

After thinking for a while, Hogg nodded and said, "It seems that I don't have a choice now."

Just like that, Levi successfully signed an unequal contract with Hogg. On this contract, there was only Hogg's obligation, and Levi did not have any obligation.

"As long as you don't violate the contract and honestly hand over what I want, nothing will happen to you."

Levi fed Hogg the healing potion he had refined and said, "I'll stay in the Myriad Dragon City for a few days. Remember to look for me with the inheritance diagram and sword skills. If you try to play any tricks through the Church, you'll regret it. Knight Hogg, the number one genius of the Inferno Dragon Family in a hundred years."

Hogg nodded.

Levi's powerful strength and the confidence in his words made Hogg understand.

The mysterious man in front of him had extraordinary strength. He should be a peerless expert who hid in the mortal world and had the strength to fear the Church!

After consuming Levi's Sacred Blood Potion and relying on his powerful physique, Hogg's injuries were almost healed in no time.

He stood up and said goodbye to Levi before turning around and disappearing into the night.

Levi continued to explore the cave. In the depths of the cave, Levi saw a blood pool.

In the blood pool, two terrifying-looking Primary Blood Clan were sleeping.

The intense battle just now did not wake them up.

Levi decided to go all out. He threw the two sleeping Primary Blood Clan into the Bug House and let the Saint Scorpions watch over them.

If they woke up and caused trouble, Levi could just kill them again.

After confirming that there was nothing of value in the nest, Levi burned all the corpses on the ground and left the wilderness.

Three days later.

In the Shining Tavern of Myriad Dragon City.

In the small private room.

Knight Hogg looked at the mysterious man in front of him.

He was a man of his word. He had obtained the breathing technique inheritance diagram and the sword skill book of the Gray Destruction Cross Slash from his family.

Right now, he was the family head of the Hogg family, so he was in charge.

"That's right. You have the character and potential to become a legendary knight. If you're tired of life in the Church, you can contact me at the Shining Tavern.

"Follow me and you'll see a wider world. Remember, give me a reply within half a year."

Levi extended an invitation to Knight Hogg. Other than believing in the King of Ten Thousand Dragons, this knight had no shortcomings. In short, Levi admired him more.

If he became a legendary knight, he might be able to use it.

Moreover, after his investigations and observations in Myriad Dragon City,

Although this knight Hogg was a little old-fashioned, he was a good person. He was upright, but he was too rash.

"Thank you for your appreciation, senior. I will seriously consider what you said."

The knight Hogg said with a solemn expression.

He did not expect that a peerless expert like this would actually invite him. What kind of honor was this?

After experiencing this incident, he realized that without strength, faith was meaningless!

If he wanted to avenge his comrades, at the very least, he had to become a legendary knight to have the ability to fight against the Blood Clan!

In the end, Hogg excitedly left the tavern.

Levi opened the Inferno Dragon Family's inheritance diagram and sword skill book.

"Inferno Dragon Breathing Technique and Gray Destruction Cross Slash."

"A legendary physique breathing technique and a powerful sword skill created by the legendary knight of the Inferno Dragon Family.. This trip to Myriad Dragon City is worth it! "
