Chapter 511: Origin of the Black Devil Blade! Level 2 Enslavement! 1

Schinn laughed mockingly and said, "Wizards? They are just a group of desperate criminals who were scared out of their wits by the gods. Moreover, the elements in the human world are scarce now, and it is the Doomsday Era. Wizards would not go to war for these stupid mortals."

He continued, "Wizards are a group of selfish people. They definitely won't participate in things that have nothing to do with their cultivation."

"Besides, with the Blood River Will, the Blood Clan is invincible. My dear father, you've lived in the human world for too long. You've long given up your dignity as a Blood Clan member."

"You actually believed the slanderous words of that lowly Secondary Blood Clan member and tried to pressure the Demonic Feast Alliance."

"You..." Anduin felt as though he would die from his rage toward this unfilial son!

Anduin sighed and said, "The Blood Clan will be destroyed by your hands sooner or later. The Blood River Will is not invincible."

"There's no point in continuing this conversation. Let's wait for the Blood Feast to begin!" Schinn laughed maniacally.

On the other side, Anderson, who had also been nailed down, felt discouraged. After this incident, he had completely given up on the Blood Clan.

Except for a few members, the rest of the Blood Clan was just a group of wild beasts blinded by their desire for blood!

They had no sense of reason and did not know their place in the world. If not for the fact that the Blood River Will was powerful, they would have gone extinct long ago!

Fortunately, Anderson had asked the Black Knight to leave after sensing something was wrong. Otherwise, Anderson would not forgive himself for implicating the Black Knight in such a trivial matter and putting him in danger.

"It's a pity that I couldn't break through the shackles of a legendary knight in the end," Anderson muttered to himself in a regretful tone.

During his time as a Blood Knight, he was framed by the Church for sticking his nose into business he should not know about.

Once again, he had forgotten his lesson and wanted to meddle in other people's affairs. He was walking to his own grave.

He thought, "Anderson, oh Anderson, why couldn't you just mind your own business?"

When a Secondary Blood Clan member died, there was no way for their true soul to return to the Blood River. It was because, in essence, they could only be considered half-breeds.

At the same time, in the Gaia Kingdom, Levi quickly flew across the sky.

He took a more remote route to prevent being discovered by the Church's powerhouses.

Soon, Levi arrived at the mountain range where the Secret Alliance was hiding. Suddenly, the sound of fighting down below attracted Levi's attention. In a dense forest, three figures, one dressed in black and two in red, were moving around. All three figures were powerful.

"It's the Black Knight! Why is he here?" Andrew exclaimed.

A black-armored figure wielding a greatsword was engaged in intense combat with his assailants. Behind him was a five-meter-tall minotaur evil spirit phantom holding a spiked club.

Levi muttered, "He's using the Black Devil Blade...Could it be that he created this Black Devil Blade?"

Other than the Pale Knight, this was the first time Levi had encountered an expert who used the Black Devil Blade.

Moreover, it seemed that the Black Knight's Black Devil Blade was around level 4, which was only one level lower than Levi's.

That meant that the Black Knight's spiritual force should also be at the level of a high-level apprentice wizard.

Judging from the spiritual force fluctuations emitted by the Black Knight, he was most likely only an apprentice wizard. He might be a wild wizard who had been gaining experience in the human world.

The Black Knight's opponents were two Primary Blood Clan members.

To fight against two Primary Blood Clan members, who were comparable to First-Circle Wizards, the Black Knight was much stronger than Levi had imagined.

Even Anderson would be inferior to him.

Levi commented, "It appears that his strength is due to the Black Devil Blade."

Levi chose to join the battle. He let go of Andrew and dived down from the sky.

Boom!

Levi turned into a dark golden beam of light and landed on the ground in a massive explosion. A loud bang echoed in the valley, and trees fell everywhere!

A colossal pit appeared under Levi's feet. In the pit, a pool of flesh and blood squirmed as if trying to reform itself into the shape of a human.

Levi sneered.

Gray Destruction Cross Slash!

124 instantaneous slashes flew out!

The ultimate power of annihilation swept out!

The puddle of flesh was decimated into a shower of blood.

Then, it was reduced into a blood-colored powder under the red flames that Levi shot out from his palm.

Even a Primary Blood Clan member could not be reborn after being turned into powder.

Under Levi's gaze, a blood-red light enveloped the true soul of the dead Primary Blood Clan member and disappeared into the void.

Levi frowned.

He muttered, "The Blood River Will might not be a single will."

He remembered what Yasad had said. After the true soul returned to the Blood River, its memories would be absorbed by the Blood River. When the Primary Blood Clan member was reborn, their past memories would be wiped.

Levi remembered the Monster Research Notes of Franken.

According to the notes, the Blood River Will was a terrifying living colony constantly dividing, learning, and evolving. It invaded other planes by dividing into the Primary Blood Clan members.

After the death of the Primary Blood Clan members, their true souls would return to the Blood River with their memories. All the knowledge and memories they saw and heard in the various planes would be absorbed by the Blood River and become a part of it.

Levi thought out loud, "If that's the case, the Blood River is far more terrifying than I imagined. I reckon that even a powerful Legendary Wizard might be unable to deal with it."

Perhaps, there was no such thing as the Blood Clan members. The so-called Blood Clan members were just parasites or cells of the Blood River from the start. They were part of the Blood River, but their levels and functions differed. The more Levi thought about it, the more profound fear he felt toward the

Blood River!
