

Wizard 514

Chapter 514: Origin of the Black Devil Blade! Level 2 Enslavement! 4

Boom! Boom! Boom!

One after another, the Blood Clan members were sent flying into the castle, kicking up dust clouds and causing buildings to collapse.

Whoosh!

From the corner of his eye, Levi saw a bloody light.

The next moment, his dark golden scales, which could withstand second-ring spells, were pierced by something.

A blood-colored awl pierced into Levi's body, and blood gushed out.

Levi felt intense pain.

He looked down at his chest.

On the other side, Schinn held another Blood Imprisonment Awl in his hand and sneered as he charged toward Levi.

"I don't know what kind of monster you are. Although you are somewhat powerful, that is all you amount to! I've already figured out all of your tricks.

You're just relying on your powerful defense to bulldoze your way forward! Faced with the indestructible Blood Imprisonment Awl, your scales are nothing but paper."

Boom!

Another Blood Imprisonment Awl stabbed into Levi's body.

Schinn had an arrogant expression on his face. He moved quickly, much faster than Levi.

The cane in Schinn's hand turned into a thin sword, and then a storm of sword light swept across Levi!

Anduin muttered to the side, "That's the Blood Imprisonment Awl. Once it has pierced the opponent's body, it can randomly seal a spell or spell-like ability lower than the third realm. For the Blood Clan members, the effect is doubled.

"I was ambushed by this unfilial kid and got hit by seven Blood Imprisonment

Awls. That's why he defeated me. Otherwise, how could he be my match?"

Anduin looked at Levi, whom Schinn was ravaging, with a look of anguish on his pale face.

He thought this mysterious expert who had suddenly appeared would be powerful. To Anduin's despair, Levi was hit by two Blood Imprisonment Awl as soon as he appeared.

Even if Levi had a strong body, he could not unleash his spells now.

How could he fight a level 2 Blood Clan member with pure physical strength?

Level 2 Blood Clan members not only had strong bodies, but they also had many spell-like abilities that were comparable to second -ring spells.

"Interesting. I can use a powerful body like yours as a vessel for high-level Blood Clan members to descend into. I, Bloodflame Schinn, accept this gift!" Schinn turned into a bloody light and sent Levi flying again.

His entire body was burning with blood-red flames. With a wave of his hand, fireballs the size of skulls flew toward Levi.

Boom! Boom! Boom!

Explosions sounded continuously.

After the dust settled, Levi's bloody figure could be seen lying motionlessly.

Schinn sneered and rushed forward.

He was much faster than Levi with his level 11 Blood Beast.

Schinn assumed that Levi had been hammered by his storm-like attacks. He thought out loud, "Let's end this quickly!"

Schinn revealed his true Blood Clan form.

His right arm turned into a bone spear.

Like a charging knight, he charged towards Levi.

Boom!

Schinn did not hear the sound of his spear piercing through Levi's flesh and blood, which he had anticipated.

Levi, who was originally a bloody mess, was once again covered in dark golden scales.

He grabbed Schinn's bone spear tightly.

Without Schinn noticing, Levi's arms had become long and slender. His entire body was like an inflated balloon. He had also become a five-meter-tall giant in the blink of an eye.

Levi's broad back bore the weight of the world. Blood-colored ash danced around his body. The ash rapidly healed all the wounds wherever it passed.

The most terrifying thing was the black evil spirit that suddenly appeared behind Levi. The evil spirit was seven meters tall and had three heads and six arms. It looked down from above and held nine swords in its hands.

Levi raised his head, his expression sinister. His snake tongue flicked, and a terrifying Vampire Touch suddenly emerged!

"Do you know how to kill a buzzing, blood-sucking mosquito that flies everywhere?"

Boom!

A terrifying force erupted!

Levi's long blue arm held Schinn's bone spear and lifted him off the ground!

Splat!

Levi smashed Schinn into the ground. Schinn could not move as he was bound tightly by the Vampire Touch.

"You kill it when it is sucking your blood!"

Levi was engrossed in his monologue. "I finally know what is making me so angry. It's mosquitoes! They're clearly so weak, yet they keep me awake at night! They just refuse to die."

Levi said to Schinn, "You damn blood-sucking mosquito! You're so weak, yet you act so high and mighty!"

Levi's body was covered with blue fur. He had transformed into a five-meter-tall blue ape!

He combined the King Kong, Giant Whale, and Nine Swords Forms!

He cursed as he punched Schinn, who was being hammered into the ground by him.

Schinn believed the Blood Imprisonment Awls had restricted Levi's abilities.

Unbeknownst to Schinn, Levi still had many other trump cards up his sleeves.

Strictly speaking, Levi was not a Blood Clan member, even though he cultivated the Blood Beast Breathing Technique.

Therefore, the Blood Imprisonment Awls had little to no effect on him.

Two Blood Imprisonment Awls was far from enough to restrict Levi!

With a bang, Schinn turned into a cloud of blood mist like Yasad and escaped Levi's grasp.

Nine swords swept out!

The extremely violent black gas cut the blood mist into countless pieces, and Schinn's miserable cry came from within the mist.

Schinn wondered what kind of monster he was fighting against.

Schinn was shocked. This guy's ability was too bizarre!

To the side, Anduin revealed a look of shock when he saw the sudden reversal of the situation.

Since when did such a terrifying existence exist in the human world? Levi was actually able to suppress a level 2 Blood Clan member after being hit by two Blood Imprisonment Awls.

Was Levi a saint from the Church of the Dragon God?
