

Wizard 516

Chapter 516: Level 12! Dragon Body Born, Red Lotus Hellfire! (1)

In the sinkhole, the castle of the Secret Alliance was empty at the moment.

Most of the Blood Clan members had either died or escaped.

"I'm only here to save Anderson. We're not related, so why should I let you go?" Levi asked Anduin calmly.

Anduin fell silent. He then asked, "Why don't you make me an offer? If it is within my power to give, I can give it to you. After all, with your strength, I believe that the money and status of mortals do not interest you."

Levi thought, "Anduin is the leader of the Secret Alliance and has lived for hundreds of thousands of years. Even though the human world lacks resources, he should have accumulated much wealth over the years."

"Breathing techniques, Aether Stones, Wizard Tools, the inherited knowledge of the Blood Clan, and Blood Artifacts. There are many things I'm interested in," said Levi as he revealed a knowing smile.

"Breathing techniques?" Anduin's face lit up when he heard that. "Since I came to the human world, I have killed many human knights who tried to kill me or trespassed on my territory. I have also obtained many breathing technique inheritance diagrams. If you need them, I can give them to you."

He continued, "As for Wizard Tools, I only have some Quasi-Wizard Tools here.

I obtained all of them from wild wizards in the human world. I have some

Aether Stones, but not much."

Then, Anduin explained helplessly, 'As for the core knowledge of the Primary Blood Clan, it is inherited from the Blood River by every Primary Blood Clan member. I couldn't teach you even if I wanted to. We, the descendants of the Blood River, only have the right to use this knowledge but not the right to impart it. I can provide you with some ordinary inherited knowledge.'" Levi confirmed with Schinn that this was indeed the case.

The more Levi thought about it, the more he felt that the Blood River was complex. He had to mutate the Blood Beast Breathing Technique into another breathing technique as soon as possible. Only then would he be able to resist the Blood River.

Levi was afraid that he might just become a part of the Blood River after he cultivated the Blood Beast Breathing Technique to its maximum.

"What about Blood Artifacts? The William family should at least have one Blood Artifact, right?" Levi asked.

Anduin explained, "About the Blood Artifacts, 500 years ago, our Secret Alliance had a conflict with the Church of Holy Light. The Church's experts took away our family's Blood Artifact. It might be sealed in the Heavenly Mountain of the Church. You can ask Schinn for confirmation. I have been telling the truth."

"Indeed, our William family's Blood Artifact, the Blood Feather Bow, is a level 3 Blood Artifact comparable to the Blood Imprisonment Awl. It is made from the ribs of a level 3 Blood Clan member and the tendons of a mighty mixed-blood dragon.

"Drawing this bow requires the Blood Clan bloodline and extreme strength. However, once fully drawn, its maximum range can reach 100 miles!

"The Lösenba family had also wanted to obtain the Blood Feather Bow from us many times. They planned to use their family's Blood Imprisonment Awl together with the Blood Feather Bow. One was the strongest bow, and the other the sharpest arrow. Only when used together could the true power of these two Blood Artifacts be unleashed!

"Within 100 miles, one can penetrate any target below level 3 with good enough aim. Even a level 3 expert would be injured from a hit."

Hearing this, Levi no longer had any hesitations.

"Then, you can pay me in gold coins."

The Primary Blood Clan members did not have souls like humans and wizards. They only had true souls born in the Blood River, so the contract slate was useless on them.

After Levi made Anduin swear a Blood River Oath, he released Anduin and a few other Primary Blood Clan members who were in the same faction.

Levi collected all the Blood Imprisonment Awls.

Their effect of sealing spells or spell-like abilities was useless to wizards. After all, the spells or spell-like abilities they sealed were randomly selected.

Even the weakest First-Circle Wizard mastered dozens or even hundreds of spells and cantrips.

In a fight, if a Blood Imprisonment Awl managed to seal away the primary spell of the opponent wizard, it could still prove helpful. However, if only a useless cantrip of the wizard was sealed away, it would be pointless.

Nevertheless, the Blood Imprisonment Awl itself was extremely hard. It could penetrate Levi's level 12 Golden Snake Scale. That meant it could also penetrate the defensive field of a Second-Circle Wizard.

Levi felt that the awls would be useful as concealed weapons.

"Thank you, sir!"

After Anduin was released, he quickly thanked Levi while looking at him cautiously.

He had witnessed Levi's strength.

Even Schinn, who had the Blood Imprisonment Awls, was no match for Levi. Most likely, no one in the human world could win against him.

"There's no need to thank me. We both get what we want." Levi said calmly.

Levi collected all the Blood Imprisonment Awls and counted them. He obtained a total of 10 Blood Imprisonment Awls.

When a level 3 Blood Clan member died, they would leave behind a blood skeleton similar to a pearl bead.

The blood skeleton could be any part of the Blood Clan member's body. The

Blood Imprisonment Awls were originally the sharp fingernails of level 3 Blood Clan members. Combined with the Blood Clan's refining method, they were made into Blood Artifacts.

Therefore, Blood Artifacts could only be made from Blood Clan members level

3 and above. They were very precious. To the Blood Clan members, the Blood Imprisonment Awl was as intimidating as a third -circle Wizard Tool in the Wizard World.

There were only a few Blood Artifacts in the human world.

This set of Blood Artifacts was one of the most precious treasures of the Lösenba family in the Demonic Feast Alliance. If it weren't for the fact that they wanted to let Schinn successfully take control of the Secret Alliance, the Lösenba family would never give these to him..
