

## **Wizard 517**

Chapter 517: Level 12! Dragon Body Born, Red Lotus Hellfire! (2)

Besides that, Levi found that the crosses were promising materials. He collected all of them and planned to use them for weapon-making or refining array items when he returned to the Wizard World.

Anduin did as he had promised and handed a red-colored bag to Levi. The bag was a storage item for the Blood Clan members.

Levi took a look inside the bag. There were a total of 18 breathing technique inheritance diagrams stored within. Among them, most of them were of shallow grade. Three were of excellent grade, but none of them were of perfect grade.

Except for homeless wandering knights, most knights would not carry breathing technique inheritance diagrams with them. This way, even if they died outside, they could prevent their family inheritances from going extinct.

Therefore, compared to the sheer number of knights Anduin killed, he had only collected a few breathing technique inheritance diagrams.

Most of the breathing technique inheritance diagrams mainly focused on strength and speed. Three inheritance diagrams focused on endurance, physique, and defense, respectively.

These three diagrams would serve as future raw materials for Levi to break through the limits of his breathing techniques.

There were less than 1,000 Aether Stones in total in the bag. To Levi, it was just a drop in a bucket.

These were all things obtained from wild wizards in the human world. Many had never seen an Aether Stone, so Levi was mentally prepared to see such a small amount.

Levi was not interested in any of the Wizard Tools Anduin had accumulated.

Apart from that, there was a mountain of gold coins.

Levi could use this money to fund Andrew to continue helping him collect breathing techniques in the human world.

The rest were some common inherited knowledge of the Blood Clan members, such as curses similar to the Blood Slave Curse that Anderson had given Levi before and some techniques to use Blood Artifacts.

The knowledge could only be used by Blood Clan members. Ordinary people could not use the curses and techniques even if they obtained them.

However, Levi possessed the bloodline of a high-level Blood Clan member, so he had no problem using the curses and techniques.

This knowledge was peripheral and unimportant. The core knowledge of the

Blood Clan's secret cultivation techniques, advancement rituals of Primary Blood Clan members, and so on could not be passed down. If the Blood Clan members tried to pass them down, they would be destroyed by the Blood River Will, taken back by the Blood River, and reborn.

In this way, the Blood Clan members could establish their own clans in the human world through their bites and teach the Secondary Blood Clan members non-core Blood Clan knowledge.

However, the core knowledge of the Blood Clan could not be leaked to the Secondary Blood Clan members. Relying on this method, the Primary Blood Clan members could control the Secondary Blood Clan members firmly.

Levi left with Schinn and the others.

On the other hand, Anduin went to look for the other members of the Secret Alliance. Levi's arrival had indirectly stopped the Demonic Feast Alliance's upcoming Blood Sacrifice ritual. However, the latter would not let this slide.

The days flew by.

Levi had been teaching Anderson and Blake his experience and methods to advance to the legendary realm in Flower City. He hoped that his sharing could give them some inspiration.

If Levi wanted to rely on the Twilight Knights to establish his faction in the

Wizard World in the future, he would need a group of powerful subordinates.

The legendary knights were mighty in the human world. However, they amounted to nothing in the Wizard World.

Therefore, Levi hoped Anderson and Blake could soon break through to the legendary realm.

Anderson and Blake benefited from Levi's sharing greatly. Regardless of whether they could break through the shackles of the legendary realm in the future, the concept of the Legendary Six-Dimensional State, Blood Awakening Realm, and Bloodthirst Realm that Levi proposed shocked them.

Moreover, Anderson and Blake were impressed by their leader's choice of names for these realms. Levi was indeed a wise leader.

Of course, Levi remembered the lesson he had learned from the fall of the Colin family.

Even Anderson and the Black Knight had to sign a contract with Levi before he imparted this valuable knowledge to them. They could not pass on this knowledge unless they obtained Levi's permission.

Levi wasn't afraid that other knights would surpass him. With the proficiency panel, he was confident that no one could overtake him on the path of knights.

Levi was worried that his grand endeavor might catch the attention of the Church, which would then try to nip them in the bud.

He didn't want his endeavor of creating the top force in the Multidimensional Plane to fail halfway through its establishment!

Therefore, he had to be extra careful in everything he did.

Meanwhile, Levi's breathing technique cultivation was also progressing gradually. The Red Lotus Breathing Technique was slowly approaching level 12.

The riots among the Blood Clan members had noticeably decreased recently.

However, Levi did not let his guard down. This might just be the calm before the storm.

According to the information he received from Schinn, the Demonic Feast Alliance had formulated several plans for the Blood Sacrifice ritual.

Schinn's plan was only one of several plans. He didn't know anything about the other plans.

Levi had foiled Schinn's plan, but the other plans were still unknown to them.

After learning what happened to Schinn, the Demonic Feast Alliance completely cut off their connections to him.

This was to prevent Levi from finding them.

In reality, Levi had no interest in what the Demonic Feast Alliance wanted to do.

He was eager to see the Blood Clan members and the Church fight. He could then take advantage of the situation and reap some benefits.

After a few months, it was the Month of Winter of the 1037th year of the Holy Brilliance Calendar.

After Levi packed his things and made arrangements, he bid farewell to Anderson and the Black Knight and left Flower City. Hogg had not contacted Levi during this period. Levi did not plan to wait any longer..
