

Wizard 525

Chapter 525: The Saint Descends! Rob the Treasure Vault!(4)

The other three godly swords were stunned. What kind of sword technique was this...

What kind of power was this?

Was he still a knight?

This must be a heavenly deity!

Levi arrived in front of the King's Treasure Vault.

The power of the Golden Revolving Slash easily destroyed the treasure vault, allowing the dark treasure vault to reappear.

Levi looked at the wizened and dying king.

"I didn't do anything wrong... Why... for..."

The king was dead.

"You didn't do anything wrong. It's the world that's wrong." Levi finished what the king wanted to say.

A cold wind blew from behind, as if something wanted to invade Levi's body and enter his mind.

Levi sneered. He turned around and grabbed at the air. Multi-colored black gas gathered in his hand and lifted a twisted and sinister evil spirit with disheveled hair.

"A legendary evil spirit? Interesting," Levi murmured and crushed the evil spirit with a little force.

Although Levi had never seen this evil spirit before, he roughly knew that it was this evil spirit that was comparable to a legendary knight that killed the White Horse Knight and the old king and became the fuse for the chaos in Montenegro Mountain.

Unexpectedly, after so many years, this guy was still in the human world and seemed to have been hiding in the King's Treasure Vault.

For a moment, Levi sighed.

Indeed, all fear stemmed from insufficient strength!

In the face of absolute strength, evil spirits and terrifying existences were all paper tigers!

He did not delay any longer and immediately plundered the King's Treasure Vault.

Levi had a storage ring, so he was naturally not afraid of not being able to put it away.

Gold? Antiques? Mithril? Other treasures? Take them all!

In any case, after this incident, there was a high chance that the Emerald Kingdom would be gone. There was no need for Levi to keep these things. That would only benefit the next regime.

In the end, Levi looked at the breathing technique inheritance diagram on the small shelf in satisfaction. There were nearly 30 of them.

Among them, there were five excellent ones, including the Iron Crocodile Breathing Technique. There was also a perfect one, which was the Dragon Breathing Technique!

Coupled with what he had obtained from Anduin, Levi felt that he would not have to worry about his breathing techniques for a long time.

Levi had almost emptied the entire King's Treasure Vault.

Then, he took the three godly swords out of the city and asked them to wait for his arrangements in the south.

After Levi ransacked the King's Treasure Vault, the battle in the sky also reached its climax.

He was not in a hurry to leave. Instead, he observed from afar.

He wanted to take the opportunity to see where the Church's true maximum was.

This was because the Seven Saints had not completely suppressed the blood-colored giant tree from the current situation.

Giant blood cocoons began to grow on the branches of the blood-colored tree.

In the end, five huge blood cocoons appeared on the entire blood-colored tree. Four of them were about five meters in diameter, and one of them was probably ten meters in diameter.

It seemed to be nurturing some life within the blood cocoon.

Levi looked up and saw that there seemed to be a blood moon in the day. It was extremely strange.

"Blood River..." Levi muttered in his heart.

Then, the giant blood cocoons began to break open. Blood-red squirming insects swayed within. These blood insects rapidly grew, abnormally, and matured.

Then, a vast aura descended, and these blood insects transformed into Blood Clan members.

Five powerful beings that exuded an aura that was different from that of ordinary level 2 Blood Clan descended into the mortal world.

In the center was a terrifying Blood Clan that was ten meters tall and had Blood Wings that covered the sky. Countless blood-colored Tentacles grew on its body, and it looked like worms dancing in the bloody holes!

Just looking at it would make ordinary people go crazy.

Levi was shocked.

At this moment, the powerful Blood Clan members underground also appeared one after another.

"Welcome, Blood God! "

The so-called Blood God was actually the incarnation of the Blood River Will! It was not a true god.

The strength of the Blood God depended on the number of blood sacrifices and the strength of the human body.

This blood sacrifice ceremony seemed to be grand, but in fact, only a few thousand mortals had been sacrificed.

In the Blood Sacrifice Ceremony, this could only be considered the lowest standard.

As a result, the Blood Gods that descended this time were only at the level of level 4 Blood Clan.

But even so, it was completely enough in this world.

This was because these Blood Clan experts knew that even if it was the incarnation of a saint, its current strength might only be at the level of a level 3 Blood Clan.

This was because the saint had only descended for a short period of time and did not have the time to grow.

However, the Blood Clan was different. They could sacrifice a city without any scruples, so they could instantly summon powerful Blood Gods!

The four experts beside the Blood God were also at level 3. These four were all high-level Blood Clan members from the Blood River Plane. Their true bodies were extremely powerful, like gods and devils.

At this moment, although their incarnations had descended into the mortal world, the flames of blood still surged into the sky, and their auras were terrifying!

When Levi saw the arrival of such a powerhouse, he knew that he might not even be qualified to watch the next battle.

This was a real fight between immortals.

Levi looked longingly in the direction of the Church. It was obvious that Heavenly Mountain was hidden somewhere in the Church. There was the Van Helsing family's inheritance that Levi had been longing for.

Unfortunately, with so many powerhouses comparable to Third-Circle Wizards descending, it was no different from courting death to fishing in troubled waters..
