Chapter 527: The Saint Descends! Rob the Treasure Vault!

(6)

"We got it. Retreat!"

These Blood Clan experts were also decisive. They no longer coveted other things. Once they obtained their target items, they began to retreat.

Outside Heavenly Mountain.

The battle between the Blood God and saints had already reached its climax. The two terrifying existences were fighting in the sky with the Blood River and divine arts.

The blood-red and white light split the sky into two.

"How dare you!" A saint discovered Yax and the others who had robbed treasures from Heavenly Mountain and could not help but roar angrily! "You can't even protect yourselves, yet you still dare to care about others." A Blood Clan expert who looked like a blood wolf sneered. His blood claws charged towards this saint. Blood light tore through the sky, and his might was incomparably powerful!

A saint was helpless. He could only watch as the Blood Clan quickly disappeared from his sight like rats fleeing in all directions!

Yax did not dare to delay. He took this opportunity to quickly retreat from the capital and disappear into the wilderness.

He had already completed his mission. The next battle was not something he could participate in.
In the capital.

The battle lasted for a day and a night.

The final result was as Levi had expected. The Church of Holy Light had obtained the final victory, but the process was different from what he had expected.

Actually, the Blood Clan originally had a very good chance of successfully destroying the Church of Holy Light, killing the saint in the cradle, and then removing the Heavenly Father's tool of faith in this world!

However, the saints of the Gaia Kingdom's Church of Earth arrived in time. Together with Ye Lin, they killed the Blood God and the other four Blood Clan powerhouses!

Levi had long heard that the Seven Gods were not united. Instead, they had their own factions and relationships.

The Heavenly Father and the Mother of Earth seemed to have a good relationship, as if they were an adulterous couple from the astral world. Now, from the performance of the Church of Earth, this was confirmed. If not for the Church of Earth's timely support, the Blood Clan might have succeeded.

Of course, if he really succeeded, he might have to bear the complete wrath of the Heavenly Father from the astral world!

Although the Heavenly Father had more than one place of faith in the Multidimensional Plane, it was not easy to nurture such a place of faith. If this place was gone, it would be a huge loss for the Heavenly Father!

That was why the wizards chose to live in seclusion even though they were powerful.

The wizard civilization was growing healthily. There was no need to fall out with the seven orthodox gods now. After all, in the process of developing and conquering, the wizard civilization had offended many enemies.

If they completely fell out with the seven orthodox gods, then facing so many enemies at the same time, even the wizard civilization would be in danger.

Although the Church of Holy Light had obtained the final victory, the counterattack of the Blood Clan before they died had caused more than half of the Seven Saints to die.

After this battle, the Church of Holy Light suffered great losses. The most infuriating thing was that the important saint's skull was even stolen by the Blood Clan.

The remains of saints might not be important, but being stolen by the Blood Clan was undoubtedly a slap in the face to the Church of Holy Light.

Saints were the symbol of the gods in the human world. If the other Churches knew that the skull of this saint had been stolen, wouldn't they be a laughingstock?

After this battle, the capital was almost completely destroyed. Tens of thousands of people died or were injured. It was like the end of the world.

When immortals fought, the mortals would always suffer.

In fact, not many of these people died in the Blood Sacrifice. On the contrary, there were even more casualties in the later battles.

There was no choice. The saint could only use divine spells to wash away the memories of these people during this period of time and make them forget such pain.

Such a thing naturally could not be leaked, or it would shake the foundation of

The Church of Holy Light's faith.

Soon after, a new version of the story was circulated.

"Because the believers in the capital are not loyal enough, evil thoughts are born and evil is everywhere. Evil existences are born and want to destroy the capital. The saint led the saint disciples through a long bloody battle and successfully expelled the evil strength..."

In short, this new version of the story added a little bit of epic flavor to the original and did some insignificant artistic processing.

The Blood Clan were portrayed as dark demons and devils. They were monsters born because mortals were not devout! The Church of Holy Light played the role of a savior. This disaster was definitely not caused by the incompetence of the Church of Holy Light!

The people who survived in the capital were naturally grateful for this. They were also determined to worship their father more sincerely in the future to prevent such a disaster from happening again!

In addition, because the Emerald King had also died in this disaster, the Church of Holy Light could only temporarily rule the capital while looking for a new king.

The rivers flowed, the years changed, and the kingdoms changed. Only the Church, supported by the gods behind the scenes, survived the calamities and remained standing.

Holy Brilliance Calendar Year 1038, Month of Flowing Fire.

It had been a few months since the Blood Sacrifice in the capital.

As things settle down, Levi, the fire-watcher, is ready to leave the world.

From the looks of it, this matter would not affect his territory.

With the support of the church, there was a high chance that the Emerald Kingdom could hold on for a while longer. At the very least, they would have to wait until a more suitable regime was ready before they could change hands.

The Church was like an invisible hand that could manipulate the situation in the human world at any time and adjust it to its proper trajectory.

"The Church's foundation is indeed unfathomable." Levi sighed.

He no longer had any hope for the Van Helsing family's inheritance.

This was because when he advanced to the fourth-circle, the saint of the church would only be stronger than him. In a short period of time, he would definitely not be able to catch up to the incarnation of a god.

After all, he had the support of a god behind him. He was equivalent to a second-generation God who spent money on experience packs every day.

As for him, he could only use the proficiency panel to cultivate step by step. How could he compare?

However, his proficiency panel represented endless possibilities for the future. There was no upper limit!

As long as he lived for a long time, one day in the future, Levi would be able to turn the tables on the saints, and even the gods behind them!

After figuring this out, Levi silently rushed to the overseas land. He was very satisfied with his gains in the human world this time. He would return to the Wizard World and slowly develop.

When they arrived at the teleportation portal in the sub-dimensional portal, Levi looked at the stone wall and said respectfully, "Senior, I need to teleport back to the Realm of Azure Cloud."

On the stone wall, a human face protruded. The old man burped and said expressionlessly, "A dark wizard attacked the teleportation portal opposite. It's currently being repaired. The teleportation is temporarily suspended. You can wait in the human world first.."
