

Wizard 529

Chapter 529: Disappearing Weak Human Bodies, Embrace the Red Beast! (2)

"Cultivating this breathing technique is equivalent to suicide for ordinary people... No wonder the royal family is getting worse and worse. It's really not easy to cultivate this breathing technique." Levi could not help but complain.

However, he felt that with his current physique, most ordinary poisons should not have any effect on him, so he was not afraid.

Before long, Levi had mastered the Jade Dragon Breathing Technique. He had all the ingredients for the secret medicine, and he naturally did not lack the venom of poisonous things.

The Saint Scorpions were extremely poisonous. After so many generations of cultivation by Levi, the poison of the Saint Scorpions was comparable to that of some first-circle transcendent creatures.

However, if he only used the Saint Scorpions' poison, the types of poison would be too monotonous. This would definitely not work in the long term.

After cultivating so many breathing techniques, Levi had long known that the effect of this venom was definitely to stimulate the birth of the Jade Dragon Breathing Technique's supernatural organ. In order to ensure the quality of his venom in the future, he had to start consciously collecting the poison of all the poisons in the world.

He estimated that when he mastered the Jade Dragon Breathing Technique, he might become one of the top poisonous creatures in the world!

The terrifying green poisonous breath of the Jade Dragon did not exist in its body. Instead, it liked to devour all kinds of poisonous creatures. The poison slowly accumulated in its body.

"In the future, I'll fuse and mutate the Jade Dragon and the Blood Beast Breathing Technique to create my own breathing technique. This way, I might be able to escape the influence of the Blood River Will."

After witnessing the power of the Blood River Will, Levi was deeply afraid of this existence.

Therefore, he had to make some changes to the Blood Beast Breathing Technique and embark on his own path as soon as possible.

In addition to the Jade Dragon Breathing Technique, Levi had actually obtained two other perfect breathing techniques when he left the human world.

One of them was Blood Knight Anderson's Maya Breathing Technique, and the other was Black Knight Blake's Musk Bull Breathing Technique.

The Maya Breathing Technique was an endurance-type breathing technique.

Legend had it that Maya was a giant eagle that soared through Multidimensional Planes. It was the king of the sky and wind, the god of ten thousand eagles, and the king of ferocious birds!

Maya had outstanding speed and great endurance. It was surrounded by a never-ending storm. Wherever it passed, the wind and thunder would stir. Maya had been traveling all its life. It was said that with a flap of its wings, it could soar into the sky and travel from one dimension to another.

The secret medicine needed for the Maya breathing technique was the blood of eagles. Of course, among them, transcendent eagles with the wind element were the best.

"Transcendent eagles... Fortunately, there are still some in the Endless Sea."

As for the Musk Bull Breathing Technique, it was the breathing technique cultivated by the Black Knight. Musk Bulls were the masters of bulls and minotaurs in myths and legends. They should be a very powerful transcendent giant bull.

This breathing technique was clearly a strength-type breathing technique, and its strengthening part was its legs. It was exactly the same as the Ostrich Mountain Breathing Technique.

Hence, Levi felt that he could fuse these two breathing techniques in the future.

The secret medicine needed for the Musk Bull breathing technique was the blood of earth-element transcendent cow-type creatures and the powder of bull horns.

Levi had a bad feeling. When he reached the legendary realm with this breathing technique, he would most likely become a minotaur...

These three perfect-grade breathing techniques, together with the Inferno Dragon Breathing Technique and the Gray Destruction Cross Slash, could be considered one of Levi's greatest gains from this trip to the human world.

Other than that, he had also obtained Schinn, a Level 2 Blood Clan slave, Yasad, a Level 1 Blood Clan member, and the ten Blood Imprisonment Awls.

The other gains were not worth mentioning.

Since he could not cultivate the Meditation Art now, Levi might as well cultivate his breathing technique proficiency in peace and wait for the teleportation portal in the sub-dimensional portal to open.

Although the Wizard World was a little chaotic now, Levi still had to return.

On one hand, the secret medicine for the knight breathing technique could only be found in the Wizard World. In the human world, his knight breathing technique could not improve.

On the other hand, the cultivation of wizards could not fall behind.

He had only just figured out the path of a knight. It was far from being comparable to a wizard.

He was already a senior first-circle wizard. It wouldn't be long before he could advance to the second-circle.

Therefore, after returning to the Wizard World this time, he made up his mind to find a safe place to cultivate in seclusion. After cultivating his cultivation to a Second-Circle Wizard, he would consider other things.

"I wonder how my Black Fire Island is doing. Nothing can happen to my transcendent creatures. These are the foundations of my Knight Breathing Technique. Damn dark wizards. Whoever dares to touch my Black Fire Island, I will definitely make them pay a million times over!"

These dark wizards only wanted to make big news all day long. They could not live in peace.

With Levi's secret medicine reserves, he could only last for half a year at most. If he could not enter the Wizard World through this teleportation portal within half a year, Levi would have to think of another way.

Just like that, a month passed in the blink of an eye.

Levi cultivated the breathing technique while waiting for the teleportation portal to open.

When he arrived at the teleportation portal again and saw the old man's expressionless face, his heart skipped a beat.

"Senior, is it fixed?" Levi asked.

"Why? Are you in such a hurry to go in and die?" the old man asked.

"I also want to contribute to the Pan-Plane Wizard Council. I'm irreconcilable with dark wizards!" Levi said..
