

Wizard 531

Chapter 531: Disappearing Weak Human Bodies, Embrace the Red Beast! (4)

At the very least, it was first-rate and excellent. There was even one called the Giant Mountain Divine Sword. The ancestral breathing technique was a perfect-grade Mountain Ape Breathing Technique. This breathing technique had also been copied by Levi.

The Mountain Ape Breathing Technique was a Strength breathing technique that strengthened both arms. Levi planned to use it as raw material for the King Kong Breathing Technique in the future.

Although the breathing techniques of the other two legendary swords couldn't advance to legendary, Levi could definitely find a way to break the bloodline curse in the future. By then, they might really have a chance to enter legendary.

Sooner or later, Levi would have as many legendary knights as the stars in the sky, and he would be the sun that shone on the stars!

Holy Brilliance Calendar Year 1038, Month of Northern Wind.

The construction of the Dusk Holy Temple was in full swing.

Levi continued to cultivate the breathing technique in the human world. He was about to use up all the secret medicine on him. He planned to go to the teleportation portal in another month. If he still could not enter the Endless Sea, he would look for the coordinates of the teleportation portal in the Realm of Crimson and enter it.

After this period of cultivation, Levi's newest breathing techniques welcomed a wave of advancement.

The Inferno Dragon Breathing Technique was level 10, the Jade Dragon Breathing Technique was level 7, the Musk Bull Breathing Technique was level 7, and the Mountain Ape Breathing Technique was also level 4.

The other excellent breathing techniques were used as raw materials to break through the limit. Naturally, their progress was even faster and not worth mentioning.

Levi's Gray Destruction Cross Slash had also reached level 5.

Levi—

Gray Destruction Cross Slash: Level 5 (1,245/30,000), Special Effect: High Speed Power (Level 5)

With the cultivation foundation of the Golden Cross Slash and Levi's current realm, the speed at which he cultivated the Gray Destruction Cross Slash was completely incomparable to the Golden Cross Slash back then.

According to Levi's estimation, in a few years, he would be able to cultivate the Gray Destruction Cross Slash to its limit.

After all, this was just a sword skill created by a legendary knight. Although it had a high intention, it was not difficult for Levi, who had surpassed the legendary realm, to cultivate.

While Levi was waiting to go to the Wizard World, some changes were also quietly happening in the human world.

Ever since that incident, the Church of Holy Light had secretly increased its attacks on the Blood Clan. Occasionally, mortals could see angels with wings on their backs flying across the sky and patrolling the kingdom!

As for the Blood Clan, after the Demonic Feast Alliance's Blood Sacrifice was not considered a success, they disappeared without a trace.

Other than the occasional Blood Clan members who came out to wreak havoc, the frequency of the Blood Clan members wreaking havoc was much lower.

It was obvious that the failure of this operation had dealt a huge blow to the Demonic Feast Alliance.

Constellation Empire.

Under the water of a swamp filled with miasma.

A magnificent underwater palace stood under this desolate swamp.

This was the territory of the Lösenba family in the Demonic Feast Alliance.

After the last operation, Yax, who had used the Bloodeye to injure his origin power, woke up from the blood pool.

"I've almost recovered."

Yax muttered to himself.

"It's time to use secret techniques to find the guy who stole the Blood Imprisonment Awl. That guy definitely doesn't know that my Lösenba family has such a secret technique to find the Blood Artifact."

Schinn did not know this secret. Even in the Demonic Feast Alliance, only Bloodeye, the Clan Leader of the Lösenba family, knew about it.

Levi, who had taken away the Blood Imprisonment Awl, naturally did not know either.

In fact, Levi had also guessed that the Blood Clan probably had a way to track such an important Blood Artifact.

However, he was about to enter the Wizard World, so the Blood Clan could not enter the dangerous Wizard World for the Blood Artifact.

'I'nererore, although Levi was on guard, he did not take it seriously.

Now, Yax bit the tip of his tongue and a drop of dark red blood floated in the air.

This Blood Imprisonment Awl was refined by the ancestors of his Lösenba family, so it had a blood connection with him.

As long as it was still in this world, Yax could sense it.

Yax activated his secret technique and chanted a mysterious and complicated incantation.

A few minutes later, the drop of blood floating in the air suddenly moved.

A smile spread across Yax's face.

The blood would tell him the direction of the enemy.

Behind him, the primary and secondary Blood Clan members of the Lösenba Clan appeared in the shadows.

"Lord Bloodeye, all the members of the Lösenba family are here! Prepare to go out at any time!"

The leading Level 1 Blood Clan member said.

"Let's go, follow me to kill!"

Lösenba sneered. He spread his wide Blood Wings and soared into the sky.

Then, pairs of Blood Wings spread out and chased after Lösenba.

At night, the moon hung high in the sky.

A faint red halo appeared on the surface of the moon.

One by one, the Blood Clan shuttled through the dark clouds. The leader, Lösenba, held a blood-colored sword that emitted a faint light.

To be safe, in addition to bringing the other Blood Clan of the Lösenba Family, he also brought another Blood Artifact from the family.

Moonlight Greatsword!

The Moonlight Greatsword was a blood weapon left behind by a level 3 Blood Clan and refined by his ancestor. Its power was extraordinary.

He had once used this Moonlight Greatsword to kill several Level 2 Blood Clan powerhouses.

In the night sky, Yax and the Blood Clan looked at the full moon in the sky.

"The night of the full moon is when I'm at my strongest. The Blood Imprisonment Awl and the Blood Feather Bow are a match made in heaven. I can finally fuse them."

At the thought of this, he couldn't wait any longer. He wanted to find that fellow immediately and use his Moonlight Greatsword to tell him what a true Level 2 Blood Clan was..
