Chapter 533: Disappearing Weak Human Bodies, Embrace the Red Beast! (6)

Stars decorated her dress which seemed to be woven from starlight. It was beautiful.

The girl's eyes were all-encompassing, as if they contained thousands of stars.

Her name was Estella. In the language of the Constellation Empire, Estella meant "A woman as beautiful as the stars." Suddenly, she looked at the full moon.

Blood-colored figures quickly flashed past.

They did not notice the girl in the black dress below.

With her abilities, it would be a piece of cake for her to hide from the Blood Clan who were passing by.

"Interesting. What are these blood-sucking bugs up to again?"

Estella revealed a playful smile.

As the number one evil force in the world, the Blood Clan had provoked many enemies.

Although there was no Blood Sacrifice in the Constellation Empire, many civilians and nobles were killed.

So when she saw these Blood Clan members, Estella smiled slyly and gently patted her starry gauze dress.

The next moment, her entire body dissipated into starlight. This starlight formed a blurry translucent starlight figure.

Then, the figure soared into the sky and disappeared.

Estella wanted to see where these Blood Clan members were going. If she could find their nest along the way, she would take the opportunity to wipe them out.

Although these blood-sucking bugs would definitely be reborn in the Blood River, the human world could still be quiet for a while.

On the island.

Levi closed his eyes to rest, but his Transcendent Perception was still on.

Nothing could escape Levi's Transcendent Perception.

"Here we go."

Levi opened his eyes.

His transcendent vision allowed him to see blood-colored figures in the distance from a hundred miles away.

"As expected, it's the Blood Clan. They're really haunting me," Levi muttered to himself.

He sat there calmly and put away the Blood Awl.

At the same time, Levi had also prepared all kinds of Wizard Tool and Casting materials.

Although the power of spells was greatly reduced in the Dharma Ending World, it was still better than nothing.

Even a lion needed to use its full strength to capture a rabbit, let alone a powerful Blood Clan.

A drop of blood stopped in the sky in front of Levi and slowly dissipated.

Yax looked coldly at Levi.

Under the full moon and starry night, on the lonely sea.

On the isolated island, a silver-haired man was sitting there. He was tall and sturdy, and his body was well-built. The moonlight shone on his bronze-colored muscles, making him look like a brother under the moon.

"Interesting. You actually predicted my arrival in advance. You're the one who broke into the Secret Alliance and defeated Schinn?" Yax was not in a hurry to attack. Instead, he said loudly.

"What did you say? I can't hear you?"

Levi shouted as he looked at the powerful Blood Clan who did not dare to move forward despite being twenty miles away.

"You..."

Yax immediately felt as if he had been ruthlessly humiliated. That person was so powerful that it was impossible for him not to hear.

"Boss, don't waste your breath on him. Just kill him."

"That's right. He's actually making fun of us. How arrogant. When has our Lösenba Family ever suffered such humiliation?"

"After defeating him later, I'll dig out his strong heart and eat it. I can feel that burning heart full of vitality. It's too delicious."

"You're bluffing and pretending to be profound!" Yax sneered.

The Primary Blood Clan revealed bloodthirsty smiles. They were not even afraid of the Church and even dared to hold a Blood Sacrifice in the capital. How could they be frightened by Levi's bluff?

And in the void behind Yax and the others, on the sparkling sea, a phantom of starlight lay quietly on the waves, drifting with the current, moving from one shadow to another.

One could vaguely see a young girl in a dress supporting her chin as she looked at the Blood Clan in front of her, as if she was watching a show.

"So they're here to fight. The bloodline in that human's body is so mixed. There are Blood Clan, Dragon Clan, and many bloodline auras that even I don't know about. Moreover, from the fluctuation of his spiritual force, he's also a wizard... A bloodline modification wizard? It doesn't seem like it. Could it be that those crazy wizards have developed some new tricks recently?"

"There's only one level 2 Blood Clan member and thirteen level 1 Blood Clan members. I wonder how he will deal with them."

Estella muttered to herself.

Originally, she had planned to make a move, but seeing the current situation, she felt that she could watch a performance that no one could appreciate first.

If that human couldn't win, she would take action and get rid of these Blood Clan.

On the other side, Yax had already pulled out the Moonlight Greatsword. The sword shone with a blood-colored luster under the moonlight, reflecting on the sea.

"Good sword." Levi praised from the bottom of his heart. He also pulled out his Frostmourne.

The Luminant gold divine sword was unsheathed, and its light was dazzling.

"You're just an ordinary weapon. I'll let you experience the power of a Blood

Artifact!" Yax held the huge sword in his hand and shouted. The Moonlight Greatsword cut through the sea, and the blood-colored sword aura whistled over and arrived in an instant!

Seeing this terrifying power, Levi knew that this Yax should be the strongest enemy he had encountered so far.

He was even stronger than the second-circle black-robed wizard he had met on the Yellow Earth Continent. He should not be weaker than Black Wings, the birdman wizard. He was almost at the level of a second-circle senior.

Clang!

Levi blocked a blow with Frostmourne.

The aftershock of the sword qi sent him flying hundreds of meters away and he stumbled into the sea.

A hundred-meter-long sword qi ravine appeared on the island where Levi was!
