

Wizard 534

Chapter 534: Disappearing Weak Human Bodies, Embrace the Red Beast! (7)

The power of the Moonlight Greatsword was terrifying!

Yax looked at Levi, who was sent flying by his sword, and secretly heaved a sigh of relief.

F.

He had thought that Levi was really powerful, but now it seemed that he was just bluffing. He had only slashed casually, but Levi could not withstand it. In the distance, Estella was also watching everything with interest.

"At the bottom of the sea," she said softly.

On the surface of the sea in front of him, a figure advanced like a cannonball under the seawater. Levi broke through the waves, spread his Blood Wings, and jumped out of the water!

Dark golden scales appeared around his body.

"Again!"

Swoosh!

Levi arrived with a bang!

Frostmourne slashed at the Moonlight Greatsword.

Golden Cross Slash!

Crack!

Bang!

A terrifying Revolving Force erupted under Levi's huge force.

With a bang, Yax was sent flying by Levi and rolled in the air for a long time.

"What powerful strength! How is this possible? This person's strength is far greater than my human form! Are you guys still watching the show? Attack!"

Yax made a prompt decision and ordered his subordinates to swarm forward. Many ants could bite an elephant to death. With so many level 1 Blood Clan members, even a level 2 expert would die if he was not careful!

"Come out, little ones!"

After Levi finished speaking, his living dead and Tyrant Corpse Diggers all emerged from the bottom of the sea.

Schinn appeared on the surface of the sea behind Yax, blocking his escape route.

Yax looked at this scene. He was actually surrounded. This person had quite a lot of tricks. He was clearly a wizard.

His heart was cold, but he did not panic.

He knew that if he did not show his true ability today, there was a high chance that he would not be able to leave this place.

"Bloodeye True Form!"

He roared at the sky and looked at the blood moon in the sky. His entire body began to expand. Then, a six-meter-tall Blood Clan's true form covered in blood spikes appeared. There was even a crack on his head and forehead, as if some terrifying monster was sealed inside!

"It's been a long time since I revealed my true form of the Blood Clan. So far, all the humans who have seen my true form are dead."

Yax was filled with killing intent as he moved his strong body. His bones made cracking sounds.

"Boss has revealed his true form. He's getting serious."

The Blood Clan who were fighting Levi's puppet army had fanatical expressions on their faces. They also revealed their true Blood Clan bodies. Blood-colored wild beasts roared one after another under the full moon, creating a huge commotion.

Estella, who was watching the show from afar, frowned and covered her eyes. She revealed a small gap and said, "They're so ugly. These little bugs don't look good at all."

What made Estella the most speechless was that these Blood Clan members didn't seem to recognize their ugliness at all and were still laughing wildly with pride.

Levi looked at the Blood Clan powerhouse whose aura had suddenly skyrocketed. Such a powerful Blood Clan's true form was obviously not something Schinn could compare to.

Levi was not afraid at all. He had absolute confidence that this was brought about by his own strength.

Now, in Levi's Furnace Heart, other than the scorching blood and fire, there was also the inextinguishable fighting spirit!

His blood boiled!

"The weak human body is about to disappear. It's time to transform into a red beast."

Levi sighed and suddenly lay on the ground. His body began to become slender, huge, round, and powerful. Dark golden scales covered his body, and raging flames burned outside the scales, roasting the sea. The seawater below him boiled and roiled, and white smoke rose like white smoke under the night sky.

Blood Wings spread out on both sides of him, and a Whale Back appeared. Its thick and powerful frost-blue ape arms supported its terrifying body, and Ostrich Feet, which seemed to be able to crush the Earth, supported its back. Countless Blood Embers danced around the monster's body and floated to the surface of the sea. The frost-blue fur that was reflected by the flames stood upright!

The horned head raised its head and its pale golden eyes looked forward.

Behind this terrifying beast was the phantom of the Asura evil spirit that was seven meters tall, had three heads and six arms, held the Nine Swords, and danced wildly in black silk!

Levi breathed out sulfur from his mouth and nose. His snake tongue breathed out and soared into the sky.

The night of the full moon.

On the boundless sea.

The two ferocious and berserk beasts collided!

Boom!

The shockwave swept out, and after the dust settled, Red Lotus pressed the giant blood beast onto the island, shattering the earth. "My friend, your purity is far from enough!"

Levi smiled as Red Lotus Hellfire surged from his body.

Painful voices came from beneath Levi.

Reality proved that the Hellfire was also effective against the Blood Clan.

Other than the Red Lotus form, Levi's other forms were already in effect, the terrifying explosive power of the dragon's body caused him to press down on Yax, those blood spikes broke through Levi's dark golden scales with difficulty and pierced into Levi's flesh.

Levi was not afraid at all. At this moment, he was even crazier than the Blood Clan beasts!

His beast blood boiled and battle intent soared into the heavens!

Levi's palms continuously slapped Yax with the power of the Golden Revolving Slash.

Slap!

Yax was extremely shocked and furious. He did not expect to be suppressed by the other party even after using his Blood Clan's true form!

This was impossible!

Countless bloody thorns wreaked havoc on Levi's body.

However, the Blood Ember was constantly repairing it.

It was the same for Yax, who was under Levi. The two seemingly indestructible behemoths were fighting each other.

Under their intense battle, the island seemed to tremble...

Schinn rushed up at the right time and prepared ten Blood Imprisonment Awls that Levi had prepared in advance!

All of them were injected into Yax's body!

"Schinn, you traitor!" Yax cursed. His abilities were sealed, and he was in extreme despair.

After Schinn was done, he revealed his Blood Clan's true form and began to beat up Yax!

'You!'

Yax was incompetent and furious!

With the help of Schinn and the Blood Imprisonment Awl, Levi's advantage was becoming more and more obvious!

Yax made up his mind!

"If we die, we die together. All of you will die with me!" The crack on Yax's forehead suddenly began to crack.

However, in the next moment.

Levi's mouth opened wide.

The aberration's Tentacles emerged.

He tore off a Bloodeye and swallowed it.

Levi had been on guard against this move and had long been prepared!

"Ahhh! My eyes!"

Yax roared hysterically.

His Bloodeye was the organ of his most important innate ability. It could not be recovered with his self-healing ability!

Crack!

The Vampire Touch was like eating a walnut. It crushed the Bloodeye and swallowed it into the blood sac. "Hey, don't simply eat everything!"

Levi was speechless!

Without the Bloodeye, Yax was even less of a match for Levi and Schinn.

Even a level 3 Blood Clan wouldn't be able to withstand ten Blood Imprisonment Aws!

Therefore, the battle ended without any suspense.

Yax turned into a pool of blood, and his true soul rushed into the sky and disappeared.

The other Blood Clan scattered like birds and beasts. Levi led his puppet army and cooperated with Schinn to kill them all!

All the Blood Clan members from the Lösenba Family had been sent back to the city by Levi for free.

Levi's inhuman form slowly disappeared. He hurriedly put away the Moonlight Greatsword and Blood Feather Bow that Yax had dropped on the ground, as well as the spoils of war from the other Blood Clan.

Then, he took Schinn, put away his living dead, and hurriedly left the sea.

For some reason, he had clearly killed Yax and those Blood Clan members.

Levi felt that there was another pair of eyes sizing him up. Spider Sensing seemed to be reacting slightly.

However, with his Transcendent Perception, he could not tell that there was anyone around.

There were only two possibilities. The other party's perception range was larger than his. In other words, the other party's realm was higher than his and he had a super-powerful concealment ability.

No matter which possibility it was, it meant that the other party's background was not ordinary. It was very likely that he was an expert of the Church. This was also the reason why Levi did not use the Red Lotus Form..
