Chapter 537: Returning to the Wizard World, Gray Incident! (3)

After not seeing each other for a long time, the construction of the Dusk Holy Temple had progressed quite a bit.

Anderson and the Black Knight couldn't help but look overjoyed when they saw Levi successfully return.

"How is it? That powerful enemy didn't come?" Anderson asked.

"They're here. I killed them. There shouldn't be a Lösenba Family in this world anymore," Levi said calmly.

"What? You killed Bloodeye Yax?" Anderson was extremely shocked.

As a member of the Blood Clan, he knew how powerful the Bloodeye Yax was.

In his opinion, unless the Church personally took action and mobilized the saints, no one in this world could kill Yax. Even if he couldn't defeat Yax, he could still escape.

The Black Knight and Anderson deeply realized that Levi's Knight realm had reached an unimaginable level.

Also, Levi's performance showed that once he broke through the legendary barrier, he would be able to become a knight!

As long as Anderson and the Black Knight could break through the shackles of legendary, their strength would be comparable to a level 2 Blood Clan. In the human world, the two of them could basically do whatever they wanted without offending the Church. They were more than enough to guard the Dusk Holy Temple.

Levi also wanted to use this to motivate Anderson to cultivate diligently and not always play chess.

Seeing that the effect was not bad, he left Dusk Island and arrived at the teleportation portal again.

On the stone wall, the old man's face appeared again.

"You again?"

"Yes, Senior. Has the teleportation portal been repaired?" Levi asked.

If he couldn't fix it, he would go to the Realm of Crimson!

"It's fixed. If you want to return to the Wizard World, hurry up. It might break again after a while..." The old man said calmly.

Upon hearing that the teleportation portal was repaired, Levi returned to Dusk Island.

"He's really gone this time?" Anderson asked.

"Of course."

"When are you coming back?"

"It depends." Thinking of the unfathomable Miss Estella, Levi felt that he probably never wanted to return to the human world.

He would rather return to the Wizard World and fight with the dark wizards than be invited to tea by the saint of the church.

Levi did not dare to delay and hurriedly returned to the teleportation portal.

"What's in your Bug House?" The old man noticed the Bug House hanging from Levi's waist and could not help but ask.

Levi's storage ring for ordinary items was not inspected according to the privacy protection law, but he still had to check this kind of Bug House for living things as usual.

This was also to prevent some people with ulterior motives from sneaking into the Wizard World or bringing some creatures that might cause a disaster. "Senior, these are my Zergs and pets," Levi said. Then, he took out 500 Aether Stones with a smile and handed them to the old man.

He even released his Saint Scorpions.

After the old man saw the Saint Scorpions, he quietly put away the 500 Aether Stones and coughed.

"I didn't expect you to be from the School of Insects. Go in. Just be self-aware."

After these few interactions, the old man and Levi were considered familiar with each other.

He liked Levi more. This young man was very sensible...

Just like that, Levi successfully infiltrated the Wizard World with Schinn and Yasad, the two Blood Clan members.

Star Sea.

Levi's body was covered in layers of First-Ring Spells. Underneath his clothes, there were dark golden scales.

He was worried that dark wizards would ambush him here.

However, he was clearly thinking too much.

There was only a short, black-haired male wizard sitting here with his eyes closed.

Judging from the mental power fluctuations that the other party inadvertently revealed, he was much stronger than the Third -Circle Wizards Levi had seen, such as the Lush Forest Witch and the Master of Flames. It was very likely that he was a Fourth-Circle Wizard.

"Fourth-Circle Wizards have come to watch the gate. The situation in the Wizard World is indeed not good," Levi muttered in his heart.

Seeing Levi, the Fourth -Circle Wizard opened his eyes and said, "Come and register."

"Register what?"

"Your personal information. This is a special period. Every sorcerer who enters the Wizard World needs to register."

"Will do."

Levi took out his membership card and went to register.

The Fourth-Circle Wizard then waved his hand, signaling Levi to leave.

"Thank you, Senior."

After saying that, Levi left in a hurry.

He planned to take the airship back to the Black Fire Island and the Pale Tower, hoping that Ms. Marlene and the others would be safe.

However, before returning, Levi wanted to find an appraiser here to appraise the longsword-shaped Wizard Tool he had obtained on the Yellow Earth

Continent and the third-circle Wizard Tool he had obtained from the Black Wings Birdman. If it was useful to him, he would keep it. If it was useless, he would sell it for money.

Appraisers were considered a special profession in the Wizard World. However, compared to Pharmacy, weapon-making, and arrays, they were even more niche.

Levi went straight to the Celestial Circle Shop. These Wizard Tools came from hunting dark wizards, so there was nothing to worry about.

He saw that the fourth-circle Wizard Tool—Minnie Miaomiao House—and the fifth-circle Wizard Tool—Gargamel’s Book of Seals were still here and had not been sold.

It could be seen that even in the Star Sea, there were not many wizards who could afford these things.

Therefore, such a precious Wizard Tool needed a certain period of time to be sold.

"Hello, I need an appraisal service," Levi said to the waitress and handed over her membership card.

"Yes, Sir Levi. Please follow me.."
