

Wizard 539

Chapter 539: Returning to the Wizard World, Gray Incident! (5)

In the end, Newt told Levi about the functions of the third-circle Wizard Tool and the incantation to use it.

"What a powerful Wizard Tool. All kinds of practical second-ring spells have been solidified. It can also conceal one's body and conceal one's aura. There's also a third-circle defensive spell, Iron Curtain Protection." Levi was very satisfied.

Just this third-circle defensive spell was enough to tempt Levi.

According to Wizard Newt's offer, this Wizard Tool could be sold for 30,000 Aether Stones even if the Celestial Circle Shop lowered the price!

In the end, Levi sold the Second-Circle Wizard Tool to the Celestial Circle Shop to recover some money. He planned to use this black cloth Wizard Tool after he advanced to the second-circle.

With his current mental strength and spell power level as a First-Circle Wizard, there was no way he could use a third-circle Wizard Tool.

Levi named this third-circle Wizard Tool: The Great Black Sky Curtain!

Before leaving, Wizard Newt even gave Levi a business card. If Levi needed to be appraised in the future, he could look for him.

Levi put away Newt's business card solemnly. The other party was a Third-Circle Wizard. Being able to get to know him could be considered the first step in opening up his connections in the Star Sea!

Levi now had more than 30,000 Aether Stones on him. He walked around the various medicinal herb shops nearby. Unfortunately, he did not have the Beholder Ball he needed.

He did not waste any more time and quickly left on the airship. Learning from the previous experience, Levi specially bought a higher-level airship ticket for safety. It took him half a month to arrive at Bass Island from the Star Sea.

He immediately rushed to his Black Fire Island. The Black Fire Island itself was not worth much, but the transcendent creatures on it were all painstakingly collected by Levi. If it was gone, he would definitely not let it go.

He also deeply realized that he needed a larger storage space that could store living creatures. This way, it would be easier to take these transcendent creatures away when he ran in the future.

Minnie Miaomiao House in the Celestial Circle Shop was not bad. Levi was determined to save up 200,000 Aether Stones as soon as possible to buy Minnie Miaomiao House.

Black Fire Island.

Levi used Transcendent Perception to scan the entire island.

Poison Fire Bone Snake, Crimson Fire Dragon Lizard, Red Sand Ape... and Leviathan, who was spraying water.

"Everything is fine!"

Levi could not help but feel happy when he did not sense any unfamiliar aura at home.

He arrived at the island. A group of transcendent creatures swarmed forward and surrounded Levi.

"I missed you guys so much."

Levi touched Leviathan's head and Frostmourne began to grind its horns. Levi collected the powder.

Leviathan was enjoying it, unaware that it had been cut.

Seeing that his pets were fine and the herbs in the medicinal field were growing healthily, Levi heaved a sigh of relief.

He let Tyrant and Ace out and let the living dead out to guard the house.

He sat on the Leviathan and quickly headed towards the Gray Tower.

The former Gray Twin Towers were still standing, but they looked cold and cheerless. Other than some apprentice wizards patrolling, there was no one

A senior first-circle wizard in a whale-patterned blue robe was sitting in a room that used to belong to the Tower Master.

In District 9, blue robes with whale patterns were usually worn by wizards from Whale Song Island.

He was the Ghost Ray Wizard of Whale Song Island, MacQueen. He was now the person in charge of guarding the Gray Tower.

In the third year of the Great Expedition, two top-notch experts led by Black Sun Adam and the Hundred Beast Berserk Witch used various methods to intimidate and entice the various dark wizard organizations wandering in the Endless Sea. They led the dark wizards and the Star Tower into a protracted battle.

In the battle with an Intermediate Wizard named Modi from the Black Sun Steeple, the supervisor of Area 9, Rick, sacrificed himself heroically.

The Star Tower no longer had the strength to mobilize new Intermediate Wizards to support Area 9.

Taking this opportunity, Whale Song Island, which had been recuperating for a long time, bared its fangs and pledged its loyalty to the black-eyed crow, Modi!

Without Herman's restrictions, no one in Area 9 was a match for Morpheus.

Whale Song Island had swept through half of the wizard organizations in Area 9. Among them, the Gray Tower, which had a deep grudge against Whale Song Island, was the first to bear the brunt.

The remaining wizard organizations were also struggling to hold on in front of this group of arrogant dark wizards, waiting for official support.

However, what confused MacQueen was that when Whale Song Island raided the Gray Tower, they realized that the Gray Tower was already empty.

Someone seemed to have informed these people in advance and made them abandon their wizard tower overnight and leave.

Regardless, the wizard tower of the Gray Tower, the huge island, and the surrounding sea area had all become the territory of Whale Song Island.

MacQueen did not know that in the sea dozens of kilometers away from the Gray Tower.

Levi popped his head out. His eyes were cold and his face was gloomy.

He didn't sense Marlene, Winnie, Marko, and Manla's information. He only saw the apprentice in the uniform of Whale Song Island and the official wizard in the blue robe!

He knew that the Gray Tower's companions were probably doomed! "I have to figure out what happened here during this period of time."

Thinking of this, Levi quietly approached the island and stared at an apprentice wizard who was patrolling on the shore..
