

Wizard 540

Chapter 540: Survival in Chaos, Hundred-Eyed Demon King! (1)

On the shore, an apprentice wizard in a light blue wizard robe was practicing his spellcasting.

The wind was blowing. An ordinary apprentice wizard without any background or talent like him had to work hard to learn how to fly!

Until a blood-colored Tentacle suddenly emerged from the bottom of the sea.

With a poof, it pierced through his back and emerged from his abdomen. Then,

The Tentacles wrapped around his head in circles, suffocating him.

There was a whoosh.

The Tentacles disappeared without a trace, and so did the apprentice wizard...

On Leviathan's back.

The blood-red Tentacles threw the apprentice wizard here and then withdrew from Levi's palm.

This apprentice wizard clearly did not understand the situation. He thought that he had been attacked by some kind of octopus sea demon.

Until he saw the silver-haired man on the whale's back. His calm eyes were filled with sharp killing intent.

"Now, I'm going to ask you some questions, and you'd better answer me truthfully," Levi said.

"Who are you? I'm from Whale Song Island..."

Chomp!

Before the apprentice wizard could finish, the ferocious Tentacles appeared again and bit off one of his fingers.

He wailed in pain, his desperate voice drowned out by the waves.

"Who do you think you are? How dare you put on airs in front of me?" Levi pulled the finger out of the alien's mouth and pinched its throat.

"How many times have I told you not to eat anything? I haven't told you about the last time you ate that eye. Now you want to eat fingers again, right?" Levi said calmly.

That apprentice wizard was completely dumbfounded when he saw this strange scene.

Why was this person talking to his Tentacles... Could he be a lunatic?

Or could it be that these blood-colored Tentacles were some kind of parasitic creature?

For a moment, he doubted his life.

He knew that he might have been attacked by some kind of monster.

The silver-haired man in front of him was not human!

After teaching the Tentacles a lesson, Levi released it. The Tentacles hovered in front of the apprentice wizard, revealing rings of sharp teeth and drooling.

Levi continued to ask, "That's the Gray Tower island. Why did your Whale Song Island occupy this place?"

The apprentice endured the pain and said with a trembling voice, "I'll talk... I'll talk. Some time ago, Whale Song Island joined Lord Black-Eyed Crow Lord Modi and the Endless Sea Wizard Liberation Alliance. Lord Modi ordered us to destroy or conquer all the wizard organizations in Area 9 within three

years. We took down Area 9 and went to support the free wizards in Area 8 and Area 7. After our people came to the Gray Tower, we realized that this place had become an empty city..."

Levi quietly listened to this apprentice's confession. The so-called Wizard Liberation Alliance was actually the Dark Wizard Alliance.

However, dark wizards were the name of the Star Tower. Dark wizards did not think of themselves as dark wizards. They thought of themselves as free wizards.

After getting the information he wanted from this apprentice wizard, Levi gave him a quick death. For a small figure like him, many things were carried forward by the wizard organization by the times, and he had no choice.

"Black-Eyed Crow Modi, a fourth-circle wizard of the Black Sun Steeple. He's extremely powerful and is now the mastermind behind all the dark wizards in Area 8 and Area 9. Morpheus of Whale Song Island is just a pawn under him."

However, the good news was that although the territory of the Gray Tower had been invaded, Ms. Marlene and the others seemed to have predicted that this would happen in advance and retreated from the Gray Tower.

However, no one knew where he went, and there was still no news of him.

For a moment, Levi was at a loss.

He originally had a home in the Wizard World.

And now, because of this sudden war, he was separated from his family.

Levi looked at the Gray Tower and temporarily left.

He was now alone. Even if he could kill the wizard stationed on the island, it would be meaningless. It would only alert the enemy and alert Whale Song Island and Modi.

What he could do now was to survive in this chaotic world and cultivate diligently to increase his strength as soon as possible.

When Levi arrived at the Blacksail Wizard Market, he realized that it had also been occupied by Whale Song Island. All the shops on it, including his Warhammer Joint, had been occupied!

The nomadic wizards who had gathered at the Blacksail Wizard Market either evacuated or joined if they could not win.

"Sigh, fortunately, my Black Fire Island is remote enough." Levi was glad that he had made the choice back then.

He gathered some information at the Blacksail Wizard Market and returned to the Black Fire Island.

So far, almost half of the Second-Circle Wizard Organization in District 9 had been destroyed or annexed by Whale Song Island.

Although Morpheus was a Third-Circle Wizard, it was impossible for him to have the strength to do all of this in such a short period of time.

He definitely had Modi's support. This fourth-circle dark wizard had a good status and strength even in the Black Sun Steeple, which was filled with experts. He had many experts under his command.

As for the Five Sector Expedition, there was still no new news from the expeditionary army that was heading to the five federations. They should still be advancing in the boundless Land of Darkness.

The entire Wizard World seemed to have welcomed a true disaster. Both internal and external troubles attacked at the same time.

This was not limited to the Endless Sea, but included all the Realm of the Unbelievers.

Compared to this calamity, the sea beast tide back then was like playing house..
