

Wizard 558

Chapter 558: Advancing to the Second-Circle! (4)

Levi's Golden Snake Scales were pierced.

Golden runes flashed on Levi's chest.

Then, a black sword blade stabbed into Levi's King Kong Rock Body and sank into it. The tip of the sword had already stabbed into Levi's Lava Heart.

A sharp pain came from his chest.

His powerful physique allowed the wound in his heart to heal quickly.

Levi's expression was cold as he looked at the blade on his chest.

This was a blade of nothingness condensed from black shadows. It did not have a physical body and had fused with the dark Deep Sea. "How is that possible?"

In the Deep Sea, a black shadow face twisted in shock.

This shadow was the same as the black sword blade. It had fused with the Deep Sea and had no physical body.

It was Old Mo.

He had followed Levi stealthily all the way here. Seeing that Levi had some strength, he was not in a hurry to attack.

The more powerful Levi was, the more excited Old MO became. He realized that this kid was actually hiding his strength.

Of course, Old MO was not a fool. He was an assassin and was not good at fighting head-on. Hence, he watched Levi and the eye demon fight first and prepared to reap the benefits.

Then, he waited for Levi to kill the eye demon and prepare to collect the spoils of war to distract himself. He immediately activated his second-ring spell— Shadow Blade!

This was a second-ring spell whose attack power had reached A-rank. It was enough to penetrate the defense of most Second-Circle Wizards.

Old MO, who used to be a grand knight, knew that this pharmacist named Levi was not simple. He was not an ordinary First-Circle Wizard. He might even be a legendary knight. His physique must be stronger than ordinary people.

That was why he used his ultimate skill right from the start!

However, Old MO did not expect that his ultimate move would not break Levi's defense.

As a senior assassin, Old MO had long mastered the habit of escaping thousands of miles away if he missed.

He no longer wanted to continue fighting. Instead, he planned to leave first and make plans later.

He was currently using the second-ring spell, Shadow Form.

He could turn himself into a shadow. In such a dark environment, the Second-Circle Wizard's perception could not detect him at all.

Levi crushed the Shadow Blade in his chest with his large hand. The fragments turned into shadows and disappeared without a trace.

Schinn saw Levi's red body and murderous eyes. He tactfully took the eye demon's corpse and quickly left.

He knew that Levi was angry.

The last person who angered Levi was that tragic Yax.

This hidden enemy was going to be in big trouble.

The Lava Heart thumped and hot blood surged. Levi's entire body was red and transparent, as if he had turned into a lava man burning with red flames.

Boom!

Like a volcanic eruption, more and more fluctuations surged out from Levi's body!

The seawater around Levi suddenly heated up and boiled!

The flames around Levi kept expanding and spreading in all directions!

The Red Lotus Seed circulated at full speed and exploded!

Levi held a huge fireball in his palm. Under the enhancement of Hellfire, the huge fireball exploded in the void in front of him.

The flames illuminated the Deep Sea, making it as bright as day.

Levi's pale golden eyes looked ahead. He launched his Intuition and saw a black shadow flashing in the dim light hundreds of meters ahead. It was quickly escaping!

Levi sneered and held the Blood Feather Bow in his hand!

The Blood Imprisonment Awl was placed on the bowstring!

The bow was drawn like a full moon, and the arrows shot out like meteors!

Swoosh!

In an instant.

The Blood Imprisonment Awl pierced through the black shadow.

From the shadows came a groan of pain.

Although Old Mo's Shadow Form could hide his figure to the greatest extent, there was no way to avoid the damage. If he was attacked, he would be beaten back to his original form.

A staggering figure suddenly appeared on the sea in front of him. Old MO did not look back and directly used his escape techniques to try to escape. "You still want to run after offending Master?" Schinn was calm.

This assassin was going to suffer!

Bang!

Another arrow!

The pierced old Moe's chest.

With the Blood Feather Bow, no one below the third-circle could defend against it.

Not to mention, Old MO was not good at defense to begin with. He was only good at stealth and assassination.

Levi saw that it was about time and did not kill him.

He quickly drew closer and shot out his Vampire Touch. He tied Old Mo's legs and pulled him towards Levi.

The heavily injured Old MO weakly hit Levi's chest with his spell attack. Levi did not say a word. He grabbed Old Mo's neck and came to the surface of the sea.

After finding an uninhabited island, Levi threw Old MO on the ground.

"You want to assassinate me with this little strength? Tell me, who sent you?" Levi returned to his human form and asked expressionlessly.

At this moment, Levi's Spider Sensing finally had no warning.

It turned out that the one who really made Levi feel threatened was not the eye demon, but this wizard.

Old Mo's hands had already been broken by Levi. At this moment, blood was flowing profusely and he was in so much pain that he wanted to die. Levi even injected all the Blood Imprisonment Aul into Old Mo's body.

He looked at Levi and said nothing.

"Just kill me. I won't say anything," Old MO said with a smile. "Are you that tough?" Levi broke Old Mo's legs again.

Old MO's scream sounded on the island.

Old NIO remained silent.

After a long period of torture.

Levi saw that this guy was really stubborn and directly cut off his head.

"Forget it if you don't want to say it."

After Levi killed Old MO, he began to search Old MO's body and finally found a storage bag.

He opened his storage bag and was shocked to discover that there was nothing in it other than some casting materials!
