Chapter 569: Legendary Physique Breaks the Limit, Death Ember Breathing Technique! (3)

In the end, after Levi's testing, these guys finally became weak.

"Wait for me for a while. When the big house is ready, you can move to a new house. Follow me and see the wider world." Levi rubbed Leviathan's horn and said softly.

The herbs on Black Fire Island were also growing well. Levi casually harvested a wave of them.

After letting Ace take a beautiful shower in the magma, Levi set up some new arrays on Black Fire Island that he had studied in Riptide City.

"Sigh, after the war ends, I might not have the chance to live on the Black Fire Island anymore. However, after living here for so long, I'm still a little nostalgic."

Levi sighed and rode Leviathan to the Gray Tower.

It was still occupied by the people from Whale Song Island. It seemed that the war situation in Area 9 had not been good for the past few years. It had been so long, but they had not taken down Morpheus.

The disappearance of Teacher Mai Lin and the others was definitely related to Whale Song Island.

Levi still had to settle this score.

However, he had to wait until he advanced to the third-circle.

He hoped that Morpheus wouldn't die in this dark and righteous war. He would personally take this old thing's head and let the Saint Scorpions devour its soul, never to be reincarnated.

After understanding some of the battle situations in Area 9, Levi came to the dangerous sea area where the sea dragon crocodile was found.

He did not know if that fellow was still around after so long. If he could subdue it, be it secret medicine or as his combat pet, it would be extremely good.

On the island filled with bones, Gustav finished basking in the sun and opened his dim yellow eyes.

His vertical pupils were filled with indifference.

It swayed its body and entered the sea.

Gustav was hungry. It was about to start hunting. He wondered which sea beast would be the lucky one.

Not long after Gustav left, a very young-looking silver-haired witch sneakily appeared from the bottom of the sea and boarded Gustav's island.

This silver-haired witch had a good figure and exuded a youthful and energetic aura. She endured the stench from the pile of bones and finally found it under the bones of an unknown sea beast.

He found a dark green herb with pale flowers.

"Corpse Soul Flower, the best of the third-circle medicinal herbs. It's one of the ingredients for the Soul Nurturing Potion. It can nourish the soul directly and heal minor soul injuries.

"That's great. I can exchange for enough resources to cultivate for half a year from the Lush Forest Witch."

This witch seemed to be around 30 years old. To be able to enter the realm of First-Circle Wizard at such a young age, she was usually extraordinary.

The silver-haired witch carefully collected the Corpse Soul Grass and placed it in a special container.

"Phew, let's see if there are any more. That sea beast is too terrifying. It's not inferior to the Second-Circle Wizard Lord of the Green Forest Alliance."

The silver-haired witch muttered in her heart. Her mental age seemed to be younger than her actual age, and she was not old to begin with.

Therefore, she gave off the feeling of a little girl.

Upon closer inspection, the silver-haired witch's ears were slightly sharper than ordinary people's and looked a little like the ears of an elf.

As she breathed, gusts of cold air gushed out, causing the surrounding temperature to drop significantly.

In the end, the silver-haired witch successfully found two stalks of Corpse Soul Grass and left the water with satisfaction.

At this moment, she felt a huge wave behind her. A tsunami swept over, and at the top of the wave, a sea dragon crocodile was riding the water and stepping on the waves.

"Oh no, the sea dragon crocodile has discovered me?"

The silver-haired witch quickly retreated. Green leaves danced around her and wrapped her up. With a breeze, she floated into the sky and was carried away by the wind.

"Luckily, I have the Wizard Tool given to me by the Lush Forest Witch." She heaved a sigh of relief and looked down.

The sea dragon crocodile did not chase after her.

At this moment, the silver-haired witch realized that this big guy did not seem to have discovered her, but was running away...

This was because a wizard was holding a black ribbon that tightly wrapped around the sea dragon crocodile's tail.

"Don't run. I won't harm you. As long as you obey me and follow me in the future, I guarantee that you'll advance to the third-circle."

The wizard shouted at this moment. Golden light flickered around his body, as if he was made of gold. He was like a divine general in legends. Amidst his explosive muscles, the scent of male hormones filled the air.

Gustav, on the other hand, only wanted to escape.

Damn it.

What kind of monster was this?

In terms of strength and defense, it was a sea dragon crocodile and a mixed-blood of the Dragon Clan, but it actually did not have the upper hand.

He didn't look like a wizard at all.

Gustav had fought wizards before.

The problem was, which wizard was still casting the Fireball Technique a moment ago? In the next moment, seeing that the Fireball Technique didn't work, he rolled up the sleeves of his robes on the spot and came up to fight the sea beasts hand-to-hand. Was there any justice in this world?

On the other side.

Levi's Great Black Sky Curtain grabbed the sea dragon crocodile's tail tightly.

"This big guy's defense is actually not much weaker than my Golden Snake Scales. The Dragon Clan's bloodline is quite thick. Looks like the second-circle is not its limit. It might even advance to the third-circle. It should belong to me!"

Levi muttered to himself.

On his way, he met the sea dragon crocodile that he had been longing for.

He attacked on the spot..
