

Wizard 573

Chapter 573: Legendary Physique Breaks the Limit, Death Ember Breathing Technique! (7)

[Ember Call: You can use the enemy's "embers" to buy a powerful Ash Creature from the Ash World to fight for you. The more "embers" you give out, the stronger the Ash Creature will be. However, the Ash Creature you can communicate with cannot exceed your current strength limit. This Special Effect cannot be upgraded.]

According to Levi's estimation, the so-called embers should be the enemy's vitality. As for how to deprive this vitality to offer to the so-called Ash Creature, Levi thought of the Ashen Eye.

"I see. That's how the Ashen Fire is used.' Levi immediately understood.

However, he did not have the time to try.

He was interrupted by Schinn's shout from afar.

Schinn flew rapidly on the surface of the sea in front of him. As he flew, he shouted,

"Master, save me!"

Levi had been immersed in studying the breathing technique and had forgotten about this fellow.

Behind Schinn, two Second-Circle Wizards with strange bodies who looked like bloodline modification wizards were cursing.

"You damned Blood Clan, stop right there."

"I didn't do anything bad either? Why are you chasing me?" Schinn asked angrily as he ran.

"Because you're a Blood Clan!"

"The lives of the Blood Clan are also lives!" Schinn retorted weakly.

"Sophistry. See if I don't catch you and soak you in the potion."

The attacks of the two Second-Circle Wizards all attacked Schinn.

Seeing that Schinn was about to be drowned by the spells of the two Second-Circle Wizards, Levi swung the Great Black Sky Curtain.

After entangling Schinn, the spells bombarded the Great Black Sky Curtain like dazzling fireworks.

"What a powerful Wizard Tool. Who are you? Why are you in cahoots with the Blood Clan?"

A wizard looked at Levi cautiously and asked.

"What do you mean by Assemble? This is my pet." Levi sneered.

"Why is your pet sneaking around the entrance of our organization's secret realm? I think you're a dark wizard," another wizard questioned.

"Stop talking nonsense with him. It must be a dark wizard. I didn't expect that we would be discovered by a dark wizard after hiding so well. We have to kill him to prevent our traces from being leaked."

Levi was puzzled. How did I become a dark wizard?

He showed his membership card and said bluntly, "I'm not a dark wizard. You two ugly things, I'm afraid your heads have been modified by the bloodline modification. "

"It's useless to say anything more. You can either come with us to see our Lord or have this memory erased by us. It's up to you." A wizard softened his attitude and said.

It seemed that Levi was really not a dark wizard. However, this was a critical period. The location of the secret realm of the organization could not be exposed!

"I don't want to fight with the two of you. I think we can sit down and talk." Levi sighed and tried to communicate.

Because there was a high chance that he already knew which organization was in this mystic realm.

In the beginning, Levi was not sure about the identity of the silver-haired witch. Now, combined with these two bloodline modification wizards, the sealed memories in Levi's mind surged again.

"The silver-haired girl on the Dogo Ship seems to be called Sheely... In that case, the organization inside is most likely the Lush Forest Tower."

Because the Lush Forest Witch was a third-circle powerhouse of the Life School of Thought, many of her wizards were bloodline modification wizards.

He had no enmity with the Lush Forest Witch, so he naturally didn't want to anger this powerhouse.

Moreover, from the looks of it,

Teacher Mai Lin must also be in the mystic realm. She must have been accepted by the Lush Forest Witch. After all, the two of them had a good relationship.

"Then follow us into the secret realm." The two wizards naturally did not want to attack.

The strength of the person in front of him was not simple. He was a level 2 Blood Clan pet, a third-circle Wizard Tool, powerful alchemical creatures, and the aura of a terrifying beast lying dormant under the distant sea.

All of this showed how powerful this person was.

They did not dare to provoke such an existence.

"If I'm not wrong, you guys should be from the Lush Forest Tower, right?" Levi asked. He was not in a hurry to enter the secret realm.

He still had to confirm it in advance.

"That's right, it's indeed the Lush Forest Tower. We have no ill intentions towards you.

"However, no matter what, you have to enter the secret realm with us and let the Tower Master decide.

"Whether you did it intentionally or unintentionally, since you know the location of our organization, we won't let you leave easily. I hope you understand," they said after calming down.

"I won't go in. Who knows if there are any traps in your secret realm? If it's convenient, you can inform your Lord Lush Forest Witch that Marlene's apprentice Levi from Gray Tower has come to visit."

"You're Deputy Tower Master Marlene's apprentice?" a wizard asked in surprise.

"The Deputy Tower Master does have an apprentice named Levi, but he's a First-Circle Wizard..."

Seeing that Levi did not seem to be lying, the two wizards were shocked.

Even Marlene's apprentice was stronger than her teacher?

"Wait here for a while. We'll report immediately."

After the two Second-Circle Wizards used a special communication tool to inform Levi, they stared at Levi to prevent him from escaping.

Not long after, a few auras appeared on the surface of the sea and quickly rushed towards Levi.

Among them, there was the aura of a powerful Third-Circle Wizard. Levi had a deep impression of this aura. It was Lola, the Lush Forest Witch who had registered him as a pharmacist.

As for the other auras, they were all familiar to Levi. This made him smile.

"Little Levi, long time no see." Marlene smiled happily.

"Teacher, I'm back." Levi looked relieved and happy.

Marlene, who had a face full of wrinkles and bright eyes, came in front of him. She hadn't changed much from before.

After not seeing each other for a few years, Winnie, who was next to Marlene, didn't dare to recognize Levi anymore.

She could sense that Levi's vast spiritual force was not much inferior to Granny Marlene's.

This meant that Levi had become a Second-Circle Wizard in just a few years.

Marko and Mr. Tim also didn't dare to acknowledge each other. Although they had improved over the years, they were still far from the second-circle.

Who would have thought that the former Little Levi was now a Second-Circle Wizard?

Even a third-circle powerhouse like the Lush Forest Witch was slightly surprised.

To be honest, she didn't have any special impression of Levi. She only knew that he was Marlene's disciple.

She had met too many people in her long life, and only a few people left a deep impression on him.

However, Levi's confident aura made it difficult for her to associate him with the timid and lowly young man who had asked her for the pharmacist certification.

"Alright, you and your master have met. Marlene, you don't have to nag all day. Go in. It's not a good place to stay outside." The Lush Forest Witch smiled. "But what about the sea dragon crocodile?"

"Lord Lush Forest, that's also my pet..." Levi smiled.

The two bloodline modification wizards also had lingering fears.

That terrifying beast was really that person's pet!

Fortunately, they resisted the urge to fight.

What kind of fierce person was this? He was a Blood Clan pet and also a sea beast pet.

If they really fought, they probably wouldn't even be able to defeat Levi's pet.

Along the way, the silver-haired witch, Sheely, kept looking at Levi. She had seen Levi's power before. He had directly chased the terrifying sea dragon crocodile.

Unexpectedly, this person was Granny Marlene's disciple.

Levi also noticed that Sheely, who had been stealing glances at him, was hiding behind the Lush Forest Witch.

He couldn't help but smile. This little girl was interesting.

"This is Sheely, my disciple." The Lush Forest Witch smiled.

Levi laughed and did not mind. He took out a Wizard Tool that he did not use, the Green Gloves, and handed it to Sheely.

"This Wizard Tool is not bad. Take it and use it as a token of my appreciation." Sheely's eyes lit up, but she didn't dare to take it.

It wasn't until the Lush Forest Witch nodded that she carefully took it. "Thank you, senior!"

Levi sighed in his heart. From the looks of it, the Gray Tower should be gone. There was a high chance that it had merged with the Lush Forest Tower. Levi didn't care what the organization was called. As long as Marlene and the others were around, it didn't matter.

No matter how powerful he was now, he would never forget the kindness Marlene and the Tower Master had shown him when he first came to the

Wizard World..
