Chapter 575: Aether Stones! Nameless Thousand-faced!

(2)

Levi suspected that the Three-horned Dragon King was in the territory of the third -circle transcendent creature.

However, Levi naturally did not dare to cause trouble for the third-circle. In the end, he left the ancient forest helplessly.

As he walked towards Lion King City, he searched for the giant ape on the continent.

Yellow Earth Continent was huge, it was easier said than done for Levi to search thoroughly.

He searched for possible clues in the towns along the way, trying to obtain some useful information.

In the end, he heard that a few years ago, the Al Hidd Family's Flame Prince, Wizard Lehman, had once captured a second-circle creature, the Silver Frost Ice Ape, in the wild and used it as a mount.

This made Levi very angry.

"Damn it, he actually stole my pet. I'll remember this!"

Levi suddenly remembered that the second-circle dark wizard who chased after him and was killed by him seemed to be from the Al Hidd family.

From the looks of it, the Al Hidd Family had already secretly sided with the dark wizards.

He did not waste any more time and rode Gustav to Lion King City.

It was said that the Golden Lion Jostar Family and the Wham Family were currently working together to fight against the dark wizard forces led by the Al Hidd Family.

The Yellow Earth Continent was also in chaos.

When Levi rushed to the sea near Lion King City, he realized that the atmosphere was a little off.

From afar, Levi could hear the roar of cannon fire, the explosion of spells, and all kinds of shouts.

"There's a war in Lion King City." Levi became vigilant.

He asked Gustav to stop in the distance while he used a concealment spell to hide in the Leviathan's Mouth.

Then, Leviathan mixed into some sea beasts and moved forward.

He wanted to see what was going on. He wondered how Emperor Mu and Dinos were doing.

All kinds of alarm arrays and defensive arrays were activated on the walls of Lion King City.

In the sky above the Jostar Family's castle in the middle of the city, the battle flag embroidered with a golden lion fluttered in the wind.

On the sea opposite Lion King City, wizard ships filled with alchemy cannons were displayed. On the wizard ships hung the flag of the Black Sun.

Cannon fire filled the air, and spells soared into the sky.

The two sides were currently engaged in an intense battle on the surface of the sea.

On one side was the Golden Lion Jostar Family that was guarding the city.

On the other side was the Flame King Al Hidd Family, who had already sided with Black Sun.

Two Third-Circle Wizards were fighting in the sky. One of them was the Old Golden Lion, Lyon Jostar.

This middle-aged noble was surrounded by an earthy yellow third-circle defensive field that blocked most of the attacks.

With a thought, earth spikes appeared behind him and attacked the enemy in front of him.

Opposite him was a young man with flames burning in his eyes.

It was Flame Prince Lehman, the strongest person in the Al Hidd Family.

With a wave of his hand, the terrifying flames roasted the soil spikes and turned them into ashes.

"Old Golden Lion, your strength hasn't improved at all. What can you use to fight me?" Lehman mocked, his expression smug and arrogant.

"Lehman, aren't you afraid that the Star Tower will settle scores with you after you join Black Sun?" Old Golden Lion questioned.

"Settle scores? The Star Tower is also a grasshopper after autumn. How are they going to settle scores with me? Ridiculous. The boring era has ended, and the era of freedom and greatness has descended. Survival of the fittest, survival of the fittest. An old antique like you is destined to be eliminated by the new era!" Lehman sneered.

"Bullsh*t! What freedom? Do you naively think that Black Sun Adam will give you small fries freedom after winning the war? History is a cycle. These so-called political struggles are too boring. Black Sun Adam is extremely cruel. He could murder his biological father for the sake of inheritance. How dare you work for such a person?" Old Golden Lion said.

"Nonsense. You're stubborn. Die!" The Flame Prince's entire body was wrapped in flames that soared into the sky. In the flames, a faint shadow of a demon that blotted out the sky and covered the sun appeared. Its wings were wrapped in lava.

"I'll show you the power of the abyss!" Lehman was full of confidence.

His own strength was about the same as Old Golden Lion.

However, with the help of the black sun, he had already awakened the power of the Molten Mountain Demon Bat's Abyss Blood.

With the emergence of the bloodline power, the temperature of the flames became even higher and the fire became even fiercer.

Golden Lion's powerful defensive field began to crack, as if it could collapse at any moment.

On the other side of the battlefield, another third-circle powerhouse from the Golden Lion Clan was also fighting against the Flame Prince's men.

This aggressive war was so unexpected.

Now, all the members of the Golden Lion Jostar Family were participating in the battle.

Even Lyon's son, Dinos Jostar, was fighting on the battlefield.

Beside Jostar, a brawny man covered in golden fur was fighting a senior first-circle wizard with his invincible palms and the golden centipede-like monster that appeared behind him.

This was Dinos' knight teacher, the legendary knight Emperor Mu.

Everyone was fighting because behind them was Lion King City, where they had lived for generations.

The Golden Lion Family would never let the enemy break into this city.

The attacks from Lehman became fiercer and fiercer, and the terrifying demonic power made it more and more strenuous for Lyon.

"This Lehman has the bloodline of a demon. I alone am not his match." Golden Lion was anxious.

Just as Golden Lion was about to be taken down by Lehman, a violent wind formed in the world..
