Chapter 576: Aether Stones! Nameless Thousand-faced!

(3)

It engulfed Lehman in the flames and spun with the wind.

"Old Golden Lion, I'm sorry I'm a little late." A zeptle voice sounded.

A bald wizard in a windstorm robe walked in the air. There was a war drum in his hands. With every beat of the war drum, the wind became stronger and stronger.

This was the patriarch of the Wham Family. He was also the strongest third -circle powerhouse in the Wham Family. At this moment, he had brought his ancestral third-circle Wizard Tool, the Gale Drum, to help in the battle.

This made Old Golden Lion heave a sigh of relief. If he and Clan Leader Wham joined forces, it shouldn't be a problem to defeat Lehman.

Amidst the violent winds, Lehman turned into a ferocious flame demon. Under the enhancement of his demon bloodline, his strength soared. At the same time, he became extremely bloodthirsty.

He tore through the wind and fought one against two without fear.

Levi watched the battle between the three Third-Circle Wizards from afar and felt the terrifying power. His heart kept comparing with his current strength.

In the end, he concluded that even if he used all his trump cards, he might only be able to withstand a few moves from a Third-Circle Wizard. Otherwise, his life would be in danger.

Third-Circle Wizards had innate spells and a third-circle defensive field. Even if a knight like Levi got close to them, they would be able to deal with them easily.

Relying on the suppression of third-circle spells, Levi's current defense would definitely not be able to hold out for long.

Therefore, from the beginning to the end, even if Old Golden Lion was about to die, Levi did not dare to help.

It was better not to participate in a battle of this level.

It was not that Levi was heartless, but he had to prioritize his own life.

In addition, Levi's gaze was fixed on the white ape on the battlefield.

That familiar appearance was the one Levi had encountered in the mystic realm.

"As expected, this guy was subdued by Lehman."

The blood of the giant ape was very helpful for Levi's cultivation of the King Kong Breathing Technique. Levi had always regarded it as something in his bag.

Now that he saw it become Lehman's mount, he was a little unhappy.

Hence, Levi was researching how to get the giant ape back.

Judging from the giant ape's appearance, it should have been subdued by Lehman using the Spirit Binding Ring.

If Levi wanted to break this contract, either Lehman had to let it go, or... he would have to kill Lehman.

After killing a Third -Circle Wizard, Levi looked at the battle between the Third-Circle Wizards and shook his head.

"It's too risky. Although Dinos' father and another third-circle powerhouse are restraining him, this is still too crazy."

"Why don't I give it a try? In theory, I have the Iron Curtain Protection and can resist a third-circle attack. If my attack doesn't work, I'll escape quickly."

Levi was in a dilemma. He wanted the Silver Frost Ice Apes, but he did not want to take the risk.

"Never mind. "

After a long hesitation, Levi gave up.

Life was too precious.

He had almost lost his rationality to his own greed.

"However, that Third -Circle Wizard is currently being held back by experts of the same level. He can't split himself up. This is also the best time for me to take advantage of the situation. I don't dare to have any ideas about Lehman, but I won't be polite to the others at the edge of the battlefield."

The dark wizard, Geralt, was about to come!

His eyes were sharp and god-like, like a ferocious bird patrolling its territory from the sky.

In the blink of an eye, he discovered his prey.

A first-circle dark wizard who was massacring apprentice wizards in the city.

"Hahaha, all of you, die!" This dark wizard bullied the weak and was extremely arrogant.

"Let's go all out for the Golden Lion Jostar Family!" The apprentices of the Golden Lion Jostar Family were not afraid at all.

"A futile attempt!" Just as the dark wizard finished speaking, a Big Fireball Technique descended with a bang.

Boom!

His defensive field was damaged, and he was almost roasted to death.

In the next moment, before he could move, spider webs descended and enveloped the dark wizard. Golden or red poisonous insects surged up and swallowed him.

Levi descended from the sky and looked at those apprentice wizards who were in a daze. He pretended to be a master without saying a word.

Feeling Levi's vast spiritual force, these apprentice wizards were greatly energized.

"First-circle, no, this is a second-circle... expert."

Levi picked up the storage bag of the black wizard who was only left with bones and quickly left.

The situation on the battlefield was chaotic.

He released the Saint Scorpions and Red-Faced Sea Ghost Spiders from the Bug House.

These poisonous bugs that Levi had carefully nurtured were most suitable to be used in such a chaotic battlefield.

"Go and kill to your heart's content. Pick up the bag of holding for me."

Levi said to the spiders around him that were the size of human heads.

The Red -Faced Sea Ghost Spider could use a spider web to collect things and bring them back. It was very useful.

A moment later, thousands of poisonous bugs disappeared around Levi.

From time to time, the screams of dark wizards could be heard on the battlefield. Regardless of whether it was official wizards or apprentice wizards, none of them were spared.

Levi's lips curled up.

The old and new grudges of the Asidi family could be settled together.

On the battlefield, the Red-Faced Sea Ghost Spider was extremely fast, like a red flash.

Every time they met those black wizards in the Al Hidd Family's robes, they would release spiderwebs to control them and inject poison into them. Then, the Saint Scorpions would follow closely behind and devour the enemy.

Sometimes, the enemy would attack the Red-Faced Sea Ghost Spider with fire spells, while the Saint Scorpions would appear and use their hard shells to block the attacks.

Levi had long studied the characteristics of these two bugs..
