

Wizard 577

Chapter 577: Aether Stones! Nameless Thousand-faced!

The Saint Scorpions' defenses were strong. They were unkillable cockroaches and could even gnaw on the defensive field.

On the other hand, the Red-Faced Sea Ghost Spider was extremely fast. It could also spit out spider webs to control the enemy and inject venom.

Hence, Levi would usually intentionally let them cooperate with drills.

Now that he had taken it out for an actual combat test, the effect was not bad.

They sometimes gathered and attacked together and sometimes scattered to dodge the attacks. They were well-trained, like an army of army ants on the battlefield. A First-Circle Wizard was not their match at all.

Soon, this sudden Zerg army attracted the attention of a Second-Circle Wizard from the Al Hidd Family nearby.

"Why would the Golden Lion Jostar Family have a wizard from the School of Insects?"

Alt looked at the swarm of bloodthirsty family members, his heart filled with anger and shock.

Originally, the Al Hidd Family had the upper hand. Now, with the addition of these terrifying insects, apprentice wizards or wizards fell one after another at a very fast speed.

The attacks of these swarms were purposeful and methodical.

They only attacked First-Circle Wizards and apprentice wizards. They would avoid Second-Circle Wizards.

It was not that they could not defeat the Second-Circle Wizard, but the efficiency was too low, and it was a waste of time.

To Levi, it was better to kill more apprentice wizards.

Alt also saw that behind some red spiders, there were also storage items pulled by spider webs. Their legs were paddling crazily as they sped across the sea.

This bug! It actually took the storage bag!

It was obvious that this was man-made!

"No, I have to deal with these damn bugs first."

Alt chanted a second-circle fire spell, and high temperatures pervaded the air. A firebird that was flapping its wings took shape and charged towards the bugs.

In the next moment, the Great Black Sky Curtain tore through the air and sent Alt's attack flying.

The Great Black Sky Curtain did not slow down. It wrapped around the unprepared Alt and brought him to the bottom of the sea.

"A third-circle Wizard Tool!" Alt was shocked.

In front of him was a burly wizard. His entire body was glowing with golden light.

It was Levi.

He let the insects deal with those weak wizards while he dealt with these Second-Circle Wizards himself.

This was such a good opportunity. He wanted to take the opportunity to make a fortune.

Alt broke free from the restraints of the Great Black Sky Curtain and quickly swam towards the sea.

He had no intention of fighting Levi at all.

What a joke. The enemy was a Second-Circle Wizard and had a third-circle Wizard Tool. Furthermore, he had obviously come prepared. How could he be a match for him?

How could Levi let him have his way?

The Great Black Sky Curtain attacked again, and the Blood Clan Touch quickly followed.

At the same time, Schinn and Tyrant surrounded him.

At this moment, Alt knew what deep despair was.

Slaughter bloomed at the bottom of the sea. Before long, Alt died a horrible death. His corpse was devoured, and his storage bag was picked up by Levi.

Levi's eyes flickered as he continued to wander around the edge of the battlefield, taking away the lives of the weak, dark wizards.

He was covered in storage items and looked like the Elder of Beggar's Sect.

Levi did not dare to go to the center of the battlefield. If he was discovered by the Third-Circle Wizard, he would be in danger.

At the same time.

High up in the sky.

In the end, the Flame Prince was finally at a disadvantage against the two of them.

Golden Lion used the third-circle Wizard Tool Lion King's Sword passed down from his ancestors.

After Lehman regained his composure, he knew that it would be difficult for him to gain any advantages in this battle.

He was already very satisfied that he could fight two people alone. Next, he had time to slowly play with these two families.

Today, they were just testing the strength of their two families. From the looks of it, it was nothing much.

When his strength improved further, or if the Black Sun Steeple sent new Third-Circle Wizards to help, he was confident that he could take down these two families in one go.

With this thought in mind, Lehman used a spell to force the two third-circle powerhouses back and quickly escaped.

The Flame King Family's wizard ship also began to retreat.

Golden Lion didn't continue to chase after him. He didn't have the energy to pursue him. Moreover, he shouldn't chase after a desperate enemy. If he forced Lehman into a corner, the consequences might be even more serious.

In the distant sea area, after running for a long time, Lehman stood at the bow of the wizard ship with a gloomy expression.

At this moment, Lehman realized that the number of wizards he had brought seemed to have... decreased significantly.

"Where's Alt?" Lehman asked.

"Lord, Alt... seems to have died in battle," a Second-Circle Wizard said fearfully.

"How many wizards have been lost in this battle?"

"Preliminary statistics show that two Second -Circle Wizards, twelve First-Circle Wizards, and more than a hundred apprentices died in battle..." Lehman's defense was instantly broken, and he flew into a rage.

"How is that possible? We clearly have the advantage!"

"Lord, a wizard saw a powerhouse from the School of Insects outside of the intelligence. He used thousands of Zergs to attack us in the chaos. He might be a helper invited by Golden Lion."

"D* *n it! A bunch of trash. I can fight two people alone! There are so many of you, but you can actually lose so many wizards. All of you are good-for-nothings!" Lehman vented his anger on the sea.

"Investigate. It's rare to see experts from the School of Insects. There aren't many of them in the Endless Sea. It's impossible for a wizard from the School of Insects to appear for no reason."

When the battlefield returned to calm, the Golden Lion Family was cleaning up the battlefield.

Levi had already packed up his spoils of war and hurried over.

He saw the tired Dinos and Emperor Mu.

"Emperor Mu, what's going on?" Levi asked.

Emperor Mu was pleasantly surprised to see Levi. He was now covered in wounds and panted as he said, "We were attacked by the Flame King family just now, but we've already forced them back.."
