Chapter 581: Level 6 Black Devil Blade! Sword Control? (2)

He naturally did not dare to make a move here. After all, this place was too close to the Tower of Pharmacists.

There was a fifth-circle expert and two fourth-circle experts in the Tower of Pharmacists.

Therefore, he decided to stay for the time being. He planned to get to know Levi first and find an opportunity to lure him out of the city and kill him. Then, he would take the commission and leave Riptide City.

In terms of patience, the Thousand Faced Knight believed that not many people in Riptide City could compare to him.

After all, he had a relatively long lifespan as capital, while those low-ranked Magi with short lives had to race against time.

And next door.

In Levi's mansion.

Levi, who was cultivating, opened his eyes.

He looked at the hairs on his arms.

"Damn it, who wants to harm me again? Are you done?"

During this period of time, he felt that there was a faint hostility watching him.

Now, this hostility seemed to be getting more and more obvious.

According to Levi's previous experience, this situation usually meant that the person who was hostile to him was very close to him.

Thinking of this, Levi opened the window and scanned the surroundings of his mansion.

At the same time, he entered the Intuition state in a small area.

He tried his best not to provoke the big shots in the city and see if there were any suspicious figures sneaking around.

Ultimately, Levi turned his attention to Number 81 next door.

Because the distance was very close, Levi could basically confirm that the hostility came from here.

"Who lives in Number 81?" Levi asked, alarmed.

He was really unlucky.

He had worked hard to sell medicine. He did not steal or rob. He worked diligently for his boss. In the end, the damn mastermind did not mess with his boss but him.

He was really angry.

You can bully workers as you please, right?

Was beating up workers not human? There was no human rights!

Levi calmed down. Fortunately, he had Spider Sensing.

Otherwise, he might not even know that such a powerful enemy was hiding next door.

"There's no hurry. Since the other party didn't make a move, it means that he doesn't dare to make a move in the city, or rather, he doesn't dare to make a move near the Tower of Pharmacists. It seems that I was right to rent the house here back then." Levi analyzed in his heart.

Because there was also an array next door that isolated aura and Perception, Levi could not determine the other party's strength.

He could only deduce from the Spider Sensing that the other party was at least a second-circle senior or even a third-circle...

For the rest of the day, Levi led a normal life, seemingly oblivious to the fact that someone was trying to harm her.

When he left the house, Levi also discovered a middle-aged wizard watering the herbs planted on the balcony on the second floor of the wizard tower next door.

As if sensing Levi's gaze, the middle-aged wizard revealed a kind smile.

Levi returned the smile and went to the Tower of Pharmacists.

Looking at Levi's back view, the Thousand Faced Knight chuckled in his heart.

"The kind and diligent Sir Levi still doesn't know that there's a ferocious beast living next door to him. However, from his performance, he does have the foundation of a knight. The information is not wrong." The Thousand Faced Knight analyzed calmly.

Judging from the information, other than being in the limelight because of the legendary knight when he first entered the Wizard World, Levi was mostly unknown.

After coming to Riptide City to serve, he spent all day at home brewing potions and earning merit points.

Levi was indeed a very hardworking person.

Even though the Thousand Faced Knight was Levi's enemy, he had to admit that Levi was working too hard!

There was no lack of hardworking people in the Wizard World, but it was rare for someone to reach Levi's level.

There were no social activities or entertainment activities. He did not even have a partner!

Wasn't such a person tired of living, just like the alchemical creatures?

'What a pity. If he wasn't an enemy, I'd be interested in getting to know someone like him.'

The Thousand Faced Knight muttered to himself as he leisurely cleaned his house and watered the flowers, looking like a middle-aged man full of life.

Tower of Pharmacists.

After Levi handed in the mission, Huffman looked at Levi and asked, "Is there anything else?"

"Lord Huffman, we can't do anything in Riptide City, right?" Levi asked.

"What's wrong?" Huffman looked up with a grave expression.

"Nothing. I just feel that someone has been following me recently. It's as if someone is trying to harm me," Levi said jokingly.

He was now Huffman's number-one employee. Huffman treated him very well, so Levi often chatted with Huffman now.

There were some questions that he would ask directly.

As far as Huffman was concerned, he had no evil intentions other than greed. The problem was greed. Who wouldn't be greedy?

In comparison, Levi was more greedy, but he did not have the ability.

Since Huffman was relatively reliable, Levi would be a fool not to use him.

Therefore, he changed his words, hoping to let Huffman know about his situation indirectly and see if he could come up with any solutions.

"Who followed you?" Huffman asked coldly.

"I'm not sure yet. I'm not sure if he's following me. I just feel a little uneasy," Levi said.

"It must be Rex," Huffman said sternly..
