

## Wizard 583

Chapter 583: Level 6 Black Devil Blade! Sword Control? (4)

Today, Levi's spell model was completed. He had successfully mastered his

Fourth second-ring spell.

He also solidified it into his second-circle defensive field. This way, Levi's defense would have an additional layer of protection.

Earth Spirit Shield, Golden Snake Scales, King Kong Rock Body, and Ashen Entanglement formed Levi's layered defense system.

In addition, Levi's Jade Dragon Breathing Technique had also cultivated to the Maximum of level 11.

As he had expected, after level 11 of the Jade Dragon Breathing Technique, the supernatural organs that were born were related to poison. In Levi's body, where the blood sac was, a new sac grew.

Inside the sac was a pool of dark green poison.

These poisonous ingredients were mainly the Saint Scorpions and the Red -Faced Sea Ghost Spider. They assisted other poisons and eventually gathered into Levi's venom.

He bought a living sea beast and tried it out. A first-circle sea beast couldn't withstand his venom at all.

He would die from the poison in a few minutes. Even if he was a second-circle cultivator, he would not be completely immune to it and would definitely be affected.

If a wizard did not master antidote spells and potions or did not have a strong enough physique, there was a high chance that they would be poisoned.

"It's still not enough. I have to collect more poisons and refine myself into an ultimate poison." Levi's heart was cold.

His Vampire Touch had now become Levi's organ for injecting venom. He could rely on the long-range attacks of the Vampire Touch to inject venom into his enemies like a poisonous snake.

Levi struck while the iron was hot and broke the limit of the Jade Dragon

Breathing Technique. He wanted to cultivate the Jade Dragon Breathing Technique and the Blood Beast Breathing Technique to the same level at the same time and mutate them.

Now, it was just a matter of time.

While Levi was cultivating, the Thousand Faced Knight was not in a hurry.

He didn't seem to be in a hurry at all, which displeased Rex. He called the Thousand Faced Knight over.

"Why haven't you done anything yet?" Rex asked.

"It's not the best time yet. I'm getting along with Levi now. When we're close enough and gain Levi's trust, I'll lure him to a suitable place and kill him," the Thousand Faced Knight said.

"You'd better be serious!" Rex said.

"Are you doubting my professional ability? In order to assassinate a Fourth-Circle Wizard from a high-level wizard organization, I worked as his assistant for 15 years. In the end, I tricked him into an ancient ruin and used the array traps of the ancient ruin to assassinate him effortlessly." The Thousand Faced Knight sneered.

His true strength was actually only at the level of an ordinary third-circle wizard, but he had used his patience and wisdom to kill a Fourth-Circle Wizard. This was not something that any killer could do.

A fourth-circle wizard was an expert who dominated an area in the entire Endless Sea.

"You..." Rex didn't know what to say. After all, he could only place his hopes on Thousand Face.

This assassin was really free. He could actually be a spy for fifteen years.

To the Thousand Faced Knight, he lacked everything except time.

Therefore, in his opinion, it was very normal to spend a few years undercover and kill the enemy.

No matter how talented Levi was, it was impossible for him to become a Third-Circle Wizard in ten years, right?

Since it couldn't, the Thousand Faced Knight could slowly think of a way to lure it out of the city and kill it in the next ten years.

As for how to trick Levi out of the city, there were too many ways for the Thousand Faced Knight.

Heavenly treasures, ancient ruins, secret realm exploration...

These were all temptations that wizards could not resist!

How could Levi not be tempted?

In the end, Rex had no choice but to let Thousand Face go back.

He had a feeling that if this continued, something unexpected would happen.

In the end, he decided to pay a price to get his family to send a wizard death warrior over.

The so-called sacrificial soldiers were the kind of people who had been nurtured by the wizard organization with secret techniques since they were young. For the sake of the wizard organization, they could die without hesitation. Such people were absolutely loyal and reliable, and they would not betray their families.

Of course, the price of nurturing a death warrior was very high.

Therefore, Rex was not sure if he could transfer the death warriors from there with his already worrying status in the family.

He could only say that he would give it a try.

As long as he continued to stabilize his position as the supervisor, he could earn back these costs in the future.

Most importantly, if he wanted to become a Deputy Tower Master in the future, he would have to rely on these achievements.

The military only recognized results.

After returning home, the Thousand Faced Knight continued his plan to get along with Levi.

He felt that his relationship with Levi was getting better and better, and Levi's guard against him was getting lower and lower. Every day, Levi would open the window and take the initiative to greet the Thousand Faced Knight.

This meant that Levi had him in his heart! Levi had already treated him as his good neighbor.

The Thousand Faced Knight took the opportunity to get closer to Levi and decided to ask Levi out of the city.

He had also thought of a reason. He would say he had found an injured level 3 demon in the wild, the Horned Demon.

If Levi cooperated with him to hunt, they could sell the demon's precious horn and split it equally.

In Levi's Mansion.

The Thousand Faced Knight knocked on the door and shouted, "Sir Levi, I have something to discuss with you."

"Sir Will, what is it? Come in and talk." Levi smiled..
