

Wizard 584

Chapter 584: Level 6 Black Devil Blade! Sword Control? (5)

He wasn't panicking. His home was so close to the Tower of Pharmacists.

If the other party suddenly attacked, with his ability, he would definitely be able to deal with it for a period of time. It would be enough for him to last until the experts of the Tower of Pharmacists were alerted.

The commotion of their battle could not be hidden from the experts in the city. At that time, someone would naturally interfere.

At home, Levi served Will tea. Will asked, "Levi, I won't keep you in suspense. I wonder if you've heard of horned demons?"

Levi's expression changed. "Oh, I've heard of it. I'm a pharmacist. The powder ground from Horned Demon's horn can be used to refine medicine."

The Thousand Faced Knight nodded. "Indeed, horned demons' horns are very precious. To be honest, when I was carrying out a demon-hunting mission in the wild recently, I found an injured level 3 horned demon..."

"It's level 3?" Levi was shocked.

"That's right. The horn of a level 3 horned demon is worth at least 20,000 Aether Stones. If it's refined into a potion, its value can be multiplied by several times!" Seeing that Levi seemed to be moved, the Thousand Faced Knight knew that the time was coming.

Unexpectedly, after less than half a year of undercover work, he had already taken down Levi.

"It's difficult for me to deal with that cunning horned demon alone. If you can help me, after this matter is done, we'll split the horned demon's spoils equally. I can also see that your true strength is not weak," the Thousand Faced Knight said with a sincere expression.

Levi looked like he was in a dilemma. Then, he smiled bitterly and sighed. "I really can't leave recently. The potion missions during this period of time are too much. It's a pity that I can't go with you."

Upon hearing this, the Thousand Faced Knight's expression did not change.

Instead, he said regretfully, "In that case, you can go about your business first. I'll follow that horned demon first. If you're free, you can look for me. How about that?"

Levi nodded. "That's great. Thank you. I really need money now."

"Since that's the case, I won't disturb you anymore. Go ahead and do your work. Come to my place when you're free," the Thousand Faced Knight said.

"Take care, I won't see you out," Levi said.

After Wizard Will left, Levi closed the door and his expression gradually turned cold.

"Trying to lure me out before harming me? To think that he could think of such an old-fashioned move. I might as well beat him at his own game and stall for a while. When I'm strong enough, I'll play with you and catch the mastermind." Levi already had a plan in mind.

With his current strength, he should not be a match for Will. After he developed for a year or two and the Golden Snake and Black Devil Blade broke through, there would basically be no problem.

However, considering that there might be even stronger enemies lying in ambush outside the city, Levi felt that it was better to stay alive for as long as possible and raise his strength to the limit before making plans.

Holy Brilliance Calendar Year 1044, Month of Winter.

In the blink of an eye, half a year had passed.

Will still kept in touch with Levi. He even said things like "When I go out and rely on friends, I like to make friends with people like Levi."

Levi naturally played along with Will and secretly cultivated crazily.

Finally, Levi's Black Devil Blade reached level 6 first.

Levi—

Black Devil Blade: Level 6 (1/40,000)

"I can still cultivate. Could it be that this Black Devil Blade can cultivate endlessly? Is there no end to it?" Levi was filled with doubts. This was just a skill obtained in the mortal world.

At first, Levi didn't pay much attention.

From the looks of it, this skill was not simple.

Behind Levi, a behemoth that was nearly nine meters tall was sitting cross-legged in the wizard tower. It was covered in golden scales and had a blood-colored ribbon wrapped around its back.

Even though he was sitting, this guy's head was still on the ceiling of Levi's wizard tower.

If not for the array that isolated the aura, the appearance of such a terrifying evil spirit would have immediately attracted a lot of attention.

After level 6 of the Black Devil Blade, the Nine Swords Asura evil spirit was even larger, a full nine meters tall. This meant that Levi's physical fitness and strength had increased in all aspects.

This made Levi have the urge to compete with a third -circle expert. The feeling of arrogance brought about by the increase in strength was indeed very intoxicating.

Apart from that, the colors on the Nine Swords Asura's body were even richer.

The golden scales were clearly the external manifestation of the Golden Snake's power, while the blood-colored ribbon was the manifestation of the Blood Beast's power.

Other than that, the red flames burning around the golden scales were the manifestation of Red Lotus' power.

The bloodline power born from any breathing technique that advanced to level 12 could appear on the Nine Swords Asura and show different characteristics.

Moreover, with a thought from Levi, the nine Crimson Flame Longswords left Asura's hand and circled the inside of the wizard tower. They kept spinning and circling before finally flying back into the Asura's hand, Levi was excited.

Was this the legendary sword control technique?

"This Nine Swords Asura is incompatible with the style of this Wizard World."

Levi sighed in his heart.

It seemed that the Asura was running in the direction of Xianxia.

Levi had a feeling that with his current mental strength, these nine swords could only fly a few miles at most. If they went any further, they might not be able to return.

No matter what, this was the first step on the path of sword control..
