

Wizard 585

Chapter 585: Level 13 Golden Snake! Blood Knight! (1)

After studying the ability of the Nine Swords Asura, Levi pondered for a moment and said, "It's no longer appropriate to call the current Nine Swords Asura evil spirit an evil spirit. To be more precise, it should be called the Bloodline Dharma Body."

What was a Bloodline Dharma Body?

He used his spiritual force and bloodline power to gather a supreme Dharma Idol that transcended his body and mind.

In Levi's opinion, the concept that corresponded to the Bloodline Dharma Body was the Bloodline True Form.

The true form of the bloodline was the true body manifested by Levi's various inhuman characteristics.

The Bloodline Dharma Body was an illusory body condensed from the power of bloodline and spiritual force.

"The Black Devil Blade has a lofty intention. Even a legendary knight can't create such a heaven-defying technique."

'Who created this technique? It's not the Black Knight, and it's most likely not the Thousand Faced Knight, Nameless. Nameless might be higher than the other six knights, but it's impossible for him to create such a profound technique. "

"The creator of this Black Devil Blade is too ambitious. He's going to create a new bloodline Dharmakaya apart from knights and wizards. Perhaps even the creator never thought that someone would really cultivate this technique to my level."

Levi felt the growing power in his body.

Now that the Black Devil Blade was at level 6, all that was left was the level 13 Golden Snake.

Moreover, Levi now had 80,000 merit points. He was getting closer to the goal of 100,000 merit points. Soon, he could buy a house for Leviathan and the others.

This was faster than he had expected. Every time he refined a second-circle potion, the merit points he would receive were not much less than killing a level 1 demon beast.

The earning speed of a Second-Circle Pharmacist was indeed extraordinary.

Knowledge and technology were the number one productivity.

How could it be as comfortable as making potions?

Levi was now a second-circle senior pharmacist. If he wanted to advance to a

Third-circle pharmacist, he had to have the strength of a Third-Circle Wizard first.

Therefore, it was very difficult for Levi's Pharmacy to make another breakthrough in the short term.

Third-circle Pharmacy required too much spiritual force. It was not something a Second-Circle Wizard could forcefully refine.

Levi had just walked out of the door when he realized that his good neighbor, Wizard Will, was returning from his demon hunt.

"Sir Levi, are you free recently?" The Thousand Faced Knight asked. In order to play this role well, he had even joined the Demon Hunter Army. After all, renting a house in Riptide City was quite expensive, and he needed to earn more money.

"Soon, Sir Will. After we're done with our work, we'll go and take a look together. However, I hope that you won't go back on your word after everything is done. After all, I'm weak." Levi smiled.

"Don't worry. I, Will, have always been fair. Look, as a Third-Circle Wizard, when have I ever put on airs in front of you?" Will said jokingly.

"Indeed, it's rare to see a wizard like you. I still have something on, so I'll take my leave first." Levi waved goodbye to Will.

Will smiled as he watched Levi leave. Finally, his face returned to normal.

"Could this guy have discovered something?" Will muttered to himself.

"Impossible. With my acting skills, even a Fourth-Circle Wizard could be deceived by me. How could he see through it?"

Will shook his head. He had always been confident in his acting skills.

Sometimes, as he acted, Will would be completely immersed in it and gradually forget his identity as an assassin.

He had played too many roles in his assassination career.

Thousands of people had a thousand faces. This was the case.

In the Tower of Pharmacists.

Levi was in Huffman's room.

"Has anyone been following you recently?" Huffman asked.

"Not recently. I wonder if the mastermind has given up. After all, he doesn't dare to be rash in the city," Levi said.

Huffman sneered. "Don't slack off. From what I know of Rex, he won't give up. He's too full of himself. If it weren't for the fact that he doesn't have the right to bypass the Tower Master and poach people from my department, he might have poached you right in front of me."

"Alas, an undeserved disaster," Levi lamented.

"Don't worry, you can focus on Pharmacy. I'll try my best to protect you. There are still laws in Riptide City," Huffman comforted.

Levi expressed his loyalty again and left.

Huffman looked at the results report happily and calculated how many more Aether Stones he could earn.

Recently, Grimm was also preparing to break through to become a Second-Circle Wizard. He specifically applied for leave from Huffman and devoted himself to the big matter of breaking through.

In comparison, Levi's breakthrough was much more casual. As long as he had the breakthrough potion, with his talent and proficiency panel, it would not be difficult for him to break through from the first-circle to the second-circle.

However, it was indeed difficult for a second-circle to break through to the third -circle.

With Levi's current understanding, unless it was the Children of the Elements and the best breakthrough potion, the success rate could barely reach 80%.

Even dual-elemental affinity and potions only had a one-third success rate. There was no need to mention the other wizards. It was already good enough to have one-tenth of them.

Levi didn't have much confidence in breaking through to the third-circle. Fortunately, he was still far from the third-circle.

Therefore, he was not in a hurry. Perhaps he could even give birth to some awesome Special Effects.

Time was like an arrow, and the sun and moon were like shuttles.

Unknowingly, half a year had passed.

Levi received a letter from the Yellow Earth Continent.

The letter was written by Dinos.

It was mentioned in the letter that Dinos had successfully advanced to a legendary knight, and he called himself the Golden Lion Knight.

This made Old Golden Lion, who was anxious about the war, overjoyed. Emperor Mu was also happy for his disciple..
