

Wizard 586

Chapter 586: Level 13 Golden Snake! Blood Knight! (2)

Lion King City was in a festive mood.

At the same time, because of the previous war, the Al Hidd Family had suffered serious losses. Therefore, during this period of time, the Wham Family and the Golden Lion Family had obtained a rare opportunity to catch their breath.

Not only that, these two families were currently discussing taking the initiative to attack and catch the Al Hidd Family off guard, striving to destroy the Al Hidd Family in one fell swoop.

Levi wrote a reply, hoping that the Golden Lion Jostar Family would win this battle. At the same time, he officially included Dinos Jostar in the Twilight Knights.

Currently, the Twilight Knights were led by supreme knight Levi, vice commander Blood Knight, Black Knight, Emperor Mu, and Golden Lion Knight.

The five legendary knights were a force that could stir up the world before the Dark Wave.

Although this power was like a firefly in the Wizard World, Levi believed it as the shackles of legendary were broken.

One day, he would be surrounded by knights with determined faces, confidence, and stability that could compare to wizards!

He would make the reputation of the Dusk Holy Temple and the Twilight Knights resound throughout the Multidimensional Plane!

What a pity.

This was because of the civil war that had swept through the Wizard World.

The connection between the entire human world and the Wizard World was completely severed.

Levi had not received a letter from the human world for a long time.

He wondered how the Dusk Holy Temple was developing.

Among the forces in the human world, other than the Church, only the Blood Clan and Blue Frost could pose a threat to the Dusk Holy Temple.

Lan Shuang was in the Northern Territory and was extremely far away from Dusk Island. It should not spread to the sea.

Among the Blood Clan, the one that posed a threat was the Demonic Feast Alliance. Among the two major clans, Levi had basically destroyed the Lsenba family's living Strength (Rune Language).

The other clan might be a hidden danger.

In addition, the saint of the Lord of the Stars, the mysterious and powerful young lady, also lingered in Levi's mind.

"Sigh, I can't worry too much. The Dusk Holy Temple can't always grow under my shelter. It also needs to experience hardships alone."

As for the Gray Tower, there was no need for Levi to worry about Marlene and the others.

Right now, the person he needed to worry about the most was himself.

After all, he was targeted by a famous figure in Riptide City.

Although this matter was very unjust, reality was often like this.

Levi could only admit that he was unlucky.

He took advantage of the time when the other party had yet to make a move to work hard to increase his strength.

Holy Brilliance Calendar 1045, Month of Wheatfield.

The flames of war in the Endless Sea were still burning. More and more wizards were displaced and became nomadic wizards or wandering wizards.

These wizards, who used to be high and mighty, were like mortals. Their bodies were like duckweed, drifting with the waves.

As for the suffering of the mortals living in the Wizard World, there was naturally no need to mention it.

The rise and fall of the Wizard World had never had anything to do with these mortals. They would always be the victims of suffering, existing as vassals and production tools of wizards.

In the Aether Sea war zone, both sides of the war between dark and righteous wizards had invested more and more troops. Intermediate wizards were not uncommon, and even high-level primordial soul wizards fought from time to time.

In Impel City and other Deep Sea prisons, countless criminals took advantage of the chaos to escape from the prison.

These criminals might have law-abiding citizens who had been wronged, but most of them were real black wizard thugs who burned, killed, and plundered.

These locust-like fellows infiltrated the entire Endless Sea. It was undoubtedly a disaster for other wizards who wanted to cultivate peacefully.

This year was also the tenth year of the Great Expedition.

The five Legendary Wizards, Sky City, had all entered the war zones of the five federations.

The old and new wizards in Sky City, who had been waiting for a long time, immediately entered the war.

The Great Expedition also entered a period of total war.

These wizards who fought alone in the foreign land were undoubtedly worthy of respect.

If they died on the battlefield, they would be buried in another dimension forever.

This was an era where heroes were needed. They needed a legendary figure like Sauron, the ancestor of wizards, who could suppress the world, convince countless wizards, and unite the Wizard World.

At this moment, many wizards could not help but sigh in their hearts. If only Sauron was here.

The war was far from over.

And now, at the end of the Month of Wheatfield.

In Riptide City, the Thousand Faced Knight disguised as Wizard Will had even made a name for himself among the demon-hunting wizards.

After being awarded merit points by the military many times, Wizard Will unknowingly completely devoted himself to the role he played.

This year, thanks to Levi and Grimm's hard work, Huffman had some spare cash in his hands. He also invested in a large-scale material store in the inner circle of the sea and became the largest shareholder.

This shrewd shorty used the inside information he had obtained from his position to cleverly know what potion would be sold in Riptide City next.

Then, he would get the materials store to stock up on materials at a low price in advance. When the market was good, he would sell them to the military of Riptide City at a high price.

Compared to the business-minded Huffman, Levi would only save up money and look at the increasing amount of cash.

After all, unlike Huffman who liked to earn money, Levi's focus was always on cultivation.

It was fine as long as he had enough money to cultivate. No matter how much he earned, he could not bring it with him.. What if it was snatched away by a dark wizard one day? Wouldn't he be working hard for the rest of his life and be someone else's wedding dress?
