

Wizard 593

Chapter 593: Knight's Origin, First Transformation of the Blood Source vs Ordinary Third-circle! (4)

It was a pity that in this era, physical techniques were declining and spells were flourishing. Be it the knights or the fur clan, they had no chance to stand on the center of the stage.

After directing them, Levi left them of their own accord.

His Merit Points were getting closer and closer to 100,000. He had to hurry up and reach the number.

Then, he would buy the Greenfield Immortal House before it became in demand, to save himself the trouble.

After buying the Greenfield Immortal House, Levi planned to make his way back home again to bring those transcendent creatures to Riptide City. This was so that they could help each other out, and it would be more convenient for Levi to practice the Knight Breathing Technique in the future.

The most important thing was that he had used up the secret medicine again, hence his progress in the Knight's Breathing Technique had stopped once again. Moreover, he couldn't always take leave to return to Area 9. Not only would it waste his time, but it would also make Huffman unhappy.

Therefore, if nothing unexpected happened, he would not return to Area 9 for a long time.

Meanwhile, in the Mansion Number 81 next to Levi.

The Thousand Faced Knight pondered in his heart after returning from his demon-hunting.

Damn it!

If he didn't kill Levi now, that man would become the leader of the Demon Hunters!

Although this did not seem like a bad idea, after all the Thousand Faced Knight managed to exchange for a precious third-circle spell using the merit points he had earned during this period.

However, the biggest problem was that he was an assassin!

He had been an assassin all his life. It would be difficult for him to change his mind if he were to give up this profession all of a sudden.

Dark Elves were born to hunt in the dark.

Now, the Thousand Faced Knight had a feeling that Levi seemed to have discovered something.

Therefore, he should not drag the situation any longer.

On the other side, Rex, who was in the Upper Riptide, kept urging him to act quickly.

After all, if Thousand Faced Knight doesn't act soon, Huffman would be making a huge fortune.

The longer Levi lived, the more Huffman would earn.

The Thousand Faced Knight intended to approach Levi after some time. If Levi continued to decline the invitation to join him in hunting demons, the only recourse left for him would be to initiate the riskier second plan.

That was to make a move to the city. As long as Levi left the range of the Tower of Pharmacist's powerhouses, he would not hesitate to kill him.

After he succeeded, he would flee immediately.

There was a certain risk in this plan, hence Thousand Faced Knight was rather

Against it at first. He liked the kind of well-planned, foolproof hunting.

After a while.

Year 1046 of the Holy Brilliance Calendar, the Month of Beginning.

On this day, Levi happily returned to his residence from Huffman's place. His Merit Points had already broken through the 100,000 mark. "I can exchange for the Greenfield Immortal House now." Levi was about to get up and head to the Tower of Merit.

Wizard Will knocked on the door, and Algerta went to open it.

Will looked at the white wolf girl who had appeared in front of him.

He did not expect Li Wei to have such a hobby.

"Sir Levi, as far as I know, that Horned Demon was injured by a demon-hunting wizard some time ago. It's a good time for the two of us to work together to eliminate the demon." Said Wizard Will.

"That's great, Sir Will. We'll leave tomorrow." This time, Levi did not refuse. Instead, he agreed.

Currently, Levi's spiritual force was at 60 points, and his spell power had reached 1800 points.

He was only 10 points away from becoming a second-circle senior wizard.

His Five Fireballs Technique had reached the limit of level 7. His King Kong Rock Body and Earth Spirit Shield had also reached their limits.

His strength was unprecedentedly powerful. In addition to his current level 13 Golden Snake, the strength of the first transformation of the Blood Knight realm should be enough to deal with this enemy who deliberately harmed him.

Levi felt uneasy being remembered by others all day long.

Since the current situation was as such, he would take the opportunity to solve this hidden danger and test the strength of the Blood Knights.

Thousand Faced Knight, who had planned to kill Levi in the city, was secretly delighted.

"You're no match for me in terms of patience, kid. Although this city isn't bad, there are too many restrictions. It's not suitable for me. After killing you, I can leave here without any regrets." Wizard Will left.

Looking at his back, Levi smiled.

His heart was filled with killing intent.

Levi immediately set off for Tower of Merit.

In the exchange list.

Greenfield Immortal House was still there.

This Wizard Tool could only be used to store things, and it did not have any effect on one's strength.

Other than Levi, no one else would spend so many merit points to buy it.

It would take a long time for those ordinary Second-Circle Wizards or even Third-Circle Wizards to accumulate 100,000 merit points.

For other wizards, buying spells or cultivation resources was the most important thing.

He looked at the Merit Points that he had painstakingly saved up for so many years being emptied all of a sudden.

Levi did not feel any heartache. Instead, he felt a sense of accomplishment as if he had bought a house with all his money.

"People who grow flowers are born to work for the house."

Levi sighed and returned to the wizard tower with the Greenfield Immortal House.

The Greenfield Immortal House was an emerald green storage bag-type spatial tool.

Levi chanted an incantation, and the hole in the Bug House grew bigger and bigger, like a spatial rift.

Through the crack, Levi could see the space inside.

It was almost as described.

"It's alright. It's good that there's no public stall. It's as flat as it says. It's fair."

The Greenfield Immortal House wasn't big.

There was a forest, a small lake, and a grassland.

To a certain extent, herbs could be planted here. However, the elemental power here was thin and not suitable for growth.

Levi randomly found an animal and threw it in.

The animal was alive and kicking inside.

After confirming that there was no problem.

Levi called Schinn and the others out of the small Bug House..
