Chapter 595: Knight's Origin, First Transformation of the Blood Source vs Ordinary Third-circle! (6)

Some of these black blades were blocked by the scales, while others pierced into Levi's body, tearing deep bloody holes.

However, in an instant, his flesh and blood recovered, and these bloody holes were restored to their original state.

"What a powerful physique! This was not as simple as a Legendary Knight! A body refinement bloodline modification wizard? It doesn't look like..."

This was the first time Thousand Faced Knight had encountered an enemy like Levi.

The Great Black Sky Curtain surrounded Li Wei and blocked the remaining attacks from the black blades.

It also gave him some breathing space in between the attacks.

A third -circle innate spell was still too powerful.

The black blades seemed to be endless, and with Levi's current level 13 Golden Snake Scales, he was unable to defend against all of them.

Therefore, many bloody holes appeared on his body. Fortunately, he had the Death Ember Breathing Technique. His physique was very strong, and he recovered in an instant. If it were other second-circle Wizard, they would have died long ago.

"Very good. I'm getting more and more interested in you. It seems that you've broken through the shackles of legend. If you can give me the method to break through the legend shackles, I can give you a quick death. Oh, right, I forgot to introduce myself. I am Nameless. My title in the human world is... Thousand

Faced Knight!"

Thousand Faced Knight said calmly. He had not used his full strength yet.

Levi did not say a word. He waited for Thousand Faced Knight's innate spell to attack. and then he swung his Great Black.Sky Can-tain at Thousand Faced

Knight like a whip.

Thousand Faced Knight dodged, his expression uncertain.

How was this man a Second-Circle Wizard? He had one trump card after another.

It was all Rex's fault!

Thousand Faced Knight cursed in his heart. After killing Levi, he would ask Rex for more payment when he returned!

After Thousand Faced Knight dodged the Great Black Sky Curtain's attack, his figure suddenly disappeared.

Third-circle spell, Shadow Walk.

At this moment, Thousand Faced Knight had already disappeared into the shadows and disappeared from Levi's sight. Levi did not panic and stopped attacking.

He entered the Intuition state.

He even closed his eyes.

Even if his enemy hid in the shadows, it was impossible for him to completely disappear!

Levi's five senses were so powerful that he would definitely be able to sense him!

Whoosh!

A sharp blade condensed from shadow magic appeared in the void to Levi's right.

Levi had already predicted it and dodged it.

The voice of Thousand Faced Knight came from the void.

"Your perception is not bad."

Thousand Faced Knight disappeared into the shadows again.

When he appeared again.

This time, he was above Levi's head.

At the same time, Levi tore the Ice Finger Scroll without hesitation.

When the Shadow Blade appeared, a lightning-fast ice attack drilled into the shadows above.

"Hiss! "

Thousand Faced Knight could not help but roar in pain.

He did not expect Levi to have a third-circle spell scroll.

The terrifying Ice Finger instantly knocked him out of the Shadow Walk state.

His figure appeared, and there was a bloody hole in his chest. The hole was covered in frost.

The frost prevented the healing potion that Thousand Faced Knight had just taken from taking effect.

The Ice Finger was effective.

Not only was this third-circle spell powerful, but it could also freeze wounds and prevent those with strong physiques from self-healing. It was similar to Levi's Death Ember Breathing Technique.

At this moment, Thousand-faced Knight's face was pale.

He calmed down. He felt that it was impossible for Levi to have another third-circle spell scroll.

If he had so many spell scrolls, he could just tear them all at once and blast him into smithereens. Why would Levi risk his life to fight with him?

This meant that Levi's next attack would have a hard time breaking through his third-circle defensive field. "Die!"

Thousand Faced Knight attacked.

Levi knew that now was the best time to defeat him.

Tyrant, Schinn, the living dead, regardless of their strength, all of them appeared !

They formed a circle around Thousand Faced Knight. Although they were weak, they could still cause some trouble for the other party. That was enough.

Levi's Blood Beast exploded, and his speed skyrocketed. His Blood Wings appeared, and he shot out the Gray Destruction Cross Slash. A storm of sword aura swept out!

Behind Thousand Faced Knight, black gas was swirling. An evil spirit was coiled behind him. It was a giant snake with three heads.

The three-headed snake looked at Levi with its sinister eyes. Its body was as long as Jorman's, and it blocked the sword aura storm.

"Three-Headed Demonic Snake, Demonic God of Blood Fear!"

The magic snake danced wildly. Thousand Faced Knight activated his defensive field and rode the snake.

"You're very strong, but it's a pity that the battle ends here. I'll let you witness my most powerful killing move that I rarely use!"

The terrifying magic snake charged over, carrying all kinds of magic attacks from Thousand Faced Knight.

Demonic God of Blood Fear! This was a technique created by a fallen genius of the Dark Elves.

Activating the bloodline power in his body, guided by his spiritual power, and condensing the bloodline demon god!

Thousand Faced Knight had been practicing this technique since he was young. He had even named it the "Black Devil Blade" after he had emasculated it.

He passed it to some of the subordinates of the Bird of Death's Voice and used it to make a deal with the Black Knight.

In the end, through the Pale Shadow, Levi obtained this emasculated version of the technique.

What Thousand Faced Knight did not know was that Levi had unknowingly cultivated this simplified version of the technique to a level that even Thousand Faced Knight could not reach through the proficiency panel. The so-called black gas was actually the embryonic form of bloodline power.

"What a coincidence. I know this technique of yours too." Levi looked at the incoming Thousand Faced Knight and chuckled.

He took a deep breath, and the power of his bloodline surged from his back.

Bloodline Dharma Body, Nine Swords Asura!

Boom!

Golden light shot into the sky, and the red silk fluttered in the wind!

With three heads and six arms holding nine swords, the Bloodline Dharma Body finally descended!

At this moment, looking at Levi, who was purer and stronger than him.

Thousand Faced Knight was truly panicking.

"How is that possible? What I sent out was only a castrated version of the Black Devil Blade?"

Other than the fallen genius of the Dark Elves, how could anyone else be able to deduce such a complicated secret technique of merging soul and body?

Sea-Swallowing Whale, Giant Whale Descending!

Red Lotus Hellfire, Dragon Body appeared!

The strength runes on the monster Levi's body flickered. The Nine Swords Asura behind Levi slashed out with the strongest Nine Golden Swords!

Nine swords + Giant Whale + Red Lotus + Strength Runes!

The terrifying three-headed demon snake was twisted, sucked into the vortex, and disintegrated.

Immediately after, it was Thousand Faced Knight's third-circle defense force field.

Crack, crack.

The defensive field lasted for a while before it distorted.

The violent attacks continued to tear apart the other defensive spells of the Thousand Faced Knight.

Levi endured the attack of the spells. His golden scales were shattered, and his body was a bloody mess. He hugged the Thousand Faced Knight.

The golden horn was aimed at the head that was once again protected by the three-circle force field.

Annihilation Beam!

A golden flash streaked across the sky.

Levi held the headless body of Thousand Faced Knight in his arms.

He had mixed feelings.

This was the first legendary knight he had killed.

Hopefully, he would be the last one..
