

Wizard 599

Chapter 599: Legendary Forbidden Technique! New Mutation, Dragon Demon Breathing Technique! (4)

"Petty tricks."

Coulomb raised a Holy Grail that looked like it was made of gold.

The Holy Grail emitted a gentle light that protected Coulomb.

This was the Second-Circle Wizard Tool—Golden Holy Grail.

It was the Second-Circle Wizard Tool he had bought from the Extreme Fire Ancestral Wizard. This Wizard Tool had almost emptied his wealth.

However, it could indeed be used to create a powerful second-circle defensive field.

It was said that this Golden Holy Grail was also obtained by the Extreme Fire Ancestral Wizard from the ancient ruins.

Apart from the Wizard Tool, the second-circle defensive field lit up. In the end, he stepped into the maze array and prepared to force his way through.

An array of this level was not difficult for him at all.

However, after entering, Coulomb realized that he had stepped into one of the most dangerous forbidden areas in Area 9...

A behemoth was lazily lying in a corner of the maze, looking at Coulomb, who had just barged in.

It was Gustav. He had been arranged by Levi to be at the eye of the array. From there, he could see every area of the maze.

However, Coulomb, who was in the maze, could not see Gustav.

Gustav slowly stood up.

During its time on the Black Fire Island, it had already swallowed countless uninvited guests who had entered unintentionally.

Coulomb wasn't the first, and probably wouldn't be the last.

With Gustav guarding the Black Fire Island, it was already one of the most terrifying areas in Area 9.

Outside the Black Fire Island, Joann waited for Coulomb.

He also had some knowledge of arrays, so he could tell.

Although the level of these arrays was not high, the owner of the array cleverly combined these first-circle arrays and even zero-circle arrays together.

Bewildering, defensive, and killing arrays were layered and perfectly coordinated.

This way, even if it was a first-circle array, it was enough to make ordinary Second-Circle Wizards suffer.

Originally, Joann had wanted to help Coulomb, but since the other party was so confident that he wouldn't let him participate, he would wait patiently for Coulomb to successfully break the array.

Fifteen minutes passed.

Coulomb had yet to successfully break through the array.

Half an hour passed.

There was still no news.

Just as Joann was about to investigate the situation,

A disheveled figure flew out of the maze.

The defensive field on Coulomb's body dimmed, and a crack appeared on the Second-Circle Wizard Tool's Golden Holy Grail.

"Damn old man, the second-circle defensive Wizard Tool that he sold me was actually of inferior quality. It was almost bitten to pieces by that big crocodile." Coulomb cursed as he fled frantically.

He was covered in wounds and had even broken a leg. Now that he had used some healing medicine, his injuries had already stopped.

However, if he could not use the Life School of Thought's spells to heal him in time, he would most likely become a crippled wizard in the future. Seeing that something was wrong, Joann also began to retreat.

"What's wrong, Boss Coulomb?"

"The second-circle creature inside is too powerful. I'm not its match. Damn it, why didn't you say so earlier?" Coulomb blamed Joann.

Joann said aggrievedly, "I did..."

"I'll settle the score with you when we get back," Coulomb said coldly.

Gustav had already caught up from behind. The sea dragon crocodile that overturned rivers and seas was aggressive.

Only a second-circle senior wizard could deal with such a sea beast. Coulomb was no match for it at all.

As they ran, Coulomb and Joann realized that the sea dragon crocodile had not caught up.

Instead, he looked at them as if they were pitiful worms.

At this moment, they, who were only concerned about escaping, realized that in the sky ahead, a Second-Circle Wizard was wearing a robe and looking at them calmly.

"Stop," Levi said, leaving no room for argument.

"Get lost!" Coulomb was busy escaping as he threw a Five Fireball Technique at Levi.

He was not in the mood to argue with the strange person in front of him.

He only wanted to escape from here and tell the Extreme Fire Ancestral Wizard the location of this island so that he could flatten it.

The Five Fireball Technique smashed into Levi's second-circle defensive field. The second-circle defensive field only trembled for a moment but did not shatter.

Coulomb's Five Fireball Technique was not practiced well, so its power was average.

Levi's second-circle Earth Spirit Shield was already at the maximum. With the support of the Underground Fire Dominator, it had a second-circle defense.

Under normal circumstances, only very few second-ring spells or third-circle spells could break through Levi's current second-circle defensive field.

At this moment, Coulomb realized that the Second-Circle Wizard in front of him was so powerful.

They were both ordinary second-circle wizards, but the other party's spells were far more powerful than his.

Moreover, the other party's mental strength was much higher than his.

Although he hadn't reached the level of a second-circle senior wizard, he wasn't too far off.

The Great Black Sky Curtain flew out from Levi's back and transformed into a black demon dragon that danced wildly.

He wrapped Coulomb, who was already weak and sent him to Levi's side.

On the other side, Joann was about to escape when he was stunned by Levi's words.

"Running away means death."

Joann swallowed, then stood obediently where he was, waiting for his punishment.

Levi was as immovable as a mountain and easily took down Boss Coulomb. Only the Extreme Fire Ancestral Wizard could do such a thing in the maze tower.

This was definitely an old monster who cultivated in seclusion in the sea. He could not be defeated.

This time, he had really hit a brick wall. He was going to suffer for the rest of his life. Joann felt uneasy.

"Who are you? How dare you attack me, the Heart Burning Fire Wizard? My teacher is the Extreme Fire Ancestral Wizard.... Do the Second-Circle Wizards nowadays not care about the Third-Circle Wizards?"
