

Wizard 600

Chapter 600: Legendary Forbidden Technique! New Mutation, Dragon Demon Breathing Technique! (5)

Although Coulomb was panicking, he thought that he had his teacher backing him up, so he became much more unyielding. Did he know what a Third-Circle Wizard was?

The Great Black Sky Curtain wrapped around him tightly. Coulomb felt that his breathing was about to stop. Levi's powerful aura pressed down on him, making him feel as if he had fallen into hell.

"Why did you trespass on my island? You know the consequences of trespassing on a wizard's territory, right? I can kill you at will without any legal consequences." Levi sneered.

Behind him, Gustav slowly emerged from the top of the huge waves. Levi gently landed on Gustav's head.

Upon seeing this scene, Coulomb understood that he had provoked a big shot this time.

The other party must be a genius Second-Circle Wizard from some high-level wizard organization who went out to train. Otherwise, how could he subdue this terrifying sea beast?

He reacted quickly and immediately begged for mercy. "Sir, I'm sorry. I thought that this was an ownerless land. I was greedy for a moment, but I didn't take anything from your island. I can also compensate you for the array I destroyed. As a Lord, you don't hold grudges against me. Let me go."

Levi was amused.

This Coulomb was still very unyielding a second ago, but now, he suddenly begged for mercy. His expression changed really quickly.

"Who did you say your teacher is? What's an Extreme Fire Ancestral Wizard?" Levi asked.

As he was busy with his breakthrough and Pharmacy, he had not been home for a few years and did not pay attention to the situation in Area 9.

Why did he suddenly appear with the Extreme Fire Ancestral Wizard?

Who dared to give such a domineering name as the Ancestral Wizard?

"My teacher, the Extreme Fire Ancestral Wizard is a Third-Circle Wizard. He's one of the three strongest people in Area 9 now. He's on par with Morpheus of Whale Song Island and Lady Whitewater of the Tower of Ocean Currents." "Who is Lady Whitewater?"

"She's a Third-Circle Wizard from the Tower of Ocean Currents. I heard that she came back from studying in the inner sea region."

Levi could not help but sigh.

He had only been away for a few years, but Area 9 had undergone such earth – shattering changes.

In the past, in Area 9, other than the Black-Eyed Crow, Modi, who was hiding behind the scenes, there was only Morpheus, a third-circle powerhouse.

And now, there were three of them.

In this chaotic world, more and more monsters and powerhouses appeared.

Levi forced these two wizards to sign an unequal contract with him and controlled their lives.

At the same time, these two people could not tell others about their own matters.

For a wizard who was much weaker than him, this kind of contract was a way to control him.

This kind of control was not very reliable. The other party might also attack him.

However, Levi's strength crushed the other party, so he did not care much.

If it was an expert like the Thousand Faced Knight, Levi would not dare to do this.

"The two of you trespassed on my island. I'm kind-hearted, so I won't kill you. I'm leaving this place soon. Do whatever you want in the future. However, you have to come to this island often and help me take care of it. If anyone trespasses, kill them."

Levi said.

He was about to leave with all his transcendent creatures, but there were still many herbs on this island that he could not take away.

He could let these two people watch over him and work for free.

"Lord, can I cultivate on this island?" Coulomb asked. He was originally from the Burning Faction. Cultivating on Levi's Black Fire Island would yield twice the results with half the effort. "Up to you."

Levi returned to the cave abode.

He looked around and saw that his transcendent creatures were still alive.

"I can take them all this time," Levi thought.

He took out the storage bags of the two people and rummaged through them.

There were only 10,000 Aether Stones in total. It seemed that they were also poor.

Coulomb had just exchanged his Aether Stones for the Golden Holy Grail from the Extreme Fire Ancestral Wizard, so he did not have any money on him.

Judging from the spell runes and craftsmanship on the Golden Holy Grail, this did not seem to be a product of modern wizards. This Holy Grail was filled with the aura of time.

"It's an item of an ancient wizard. Coulomb said that the Extreme Fire Ancestral Wizard disappeared from an ancient wizard ruin 50 years ago and returned 50 years later. In the past 50 years, the Extreme Fire Ancestral Wizard went from a second-circle ordinary to a Third-Circle Wizard. This speed is second only to the Children of the Elements."

"It seems that this Extreme Fire Ancestral Wizard has encountered some fortuitous encounter in the wizard ruins."

Levi shook his head and suppressed the fire in his head.

He had the proficiency panel, so there was no need to explore the dangerous ancient wizard ruins.

He just had to cultivate obediently in Riptide City.

The Golden Holy Grail was already damaged and worthless. It was useless to

Levi. He put it away for the time being and dealt with it together in the future.

Finally, Levi found a booklet in Joann's storage bag.

Ruin Hunter Jones' Treasure Hunting Log.

Curious, Levi opened it and took a look.

"Interesting. There's a Ruin Hunter occupation."

Compared to the Three Arts of Wizardry, appraisers, and Ruin Hunters were even rarer and unorthodox.

This wizard Jones was a scholar who studied ancient wizardry. He was dedicated to excavating and searching for the ruins of wizards buried in the Wizard World.

"Keep it. It might be useful in the future." Levi had a map of the ruins here.

Lost Pan's Labyrinth.

When he came back, he went to take another look.

With his current strength, Spider Sensing was still indicating high danger alerts..
