

Wizard 605

Chapter 605: Earth, Fire, Wind, and Water—Four Elements Combined! Great Fusion! (3)

"Sir Levi, since your supervisor doesn't welcome me, let's talk another day.

Think about what I said seriously."

"Work hard so that Huffman can buy more properties in Upper Riptide."

Before Rex left, he didn't forget to kill and sow discord.

"Goodbye, Lord Rex." Levi also sent Rex away with a smile.

His Spider Sensing sensed hostility from Rex.

Perhaps Rex's words were true, but Levi would never work with such a person.

Spider Sensing was not fake. If he agreed to Rex's request, he would most likely be in danger.

Moreover, he wouldn't join a wizard family with an outsider's identity.

Who could stand being scheming all day long?

Levi's goal was very simple: to survive in Riptide City.

He would find an opportunity to join a high-level wizard organization like the Tower of Riptide.

Huffman sat on a high stool, drinking a beer Levi had poured himself.

Halflings didn't like tea and only drank beer.

"What did he say to you just now?" Huffman asked nervously.

Levi grimaced. "He invited me to join his family. I'm sure as hell not going."

Huffman nodded. "The Thunder Dragon Family is too complicated. Rex must be up to no good. If he really invited you to join his family, he wouldn't have sent anyone to follow you."

Levi thought to himself, Rex didn't just send people to follow me. He sent people to assassinate me twice.

"How strong is the Thunder Dragon Family?" Levi asked.

Huffman sighed. "From what I know, the Thunder Dragon Family has four fifth-circle experts. The ancestors of this family once gave birth to a primordial soul wizard. They have a deep foundation. For people like us, they are indeed a giant."

"Lord, don't worry. I will not betray you." Levi's expression was solemn as he expressed his loyalty.

Levi could still cozy up to Huffman for a long time.

Besides, working with Huffman was much more reassuring than working with Rex.

Huffman jumped to his feet, clapped Levi on the shoulder in acknowledgment, and left, satisfied.

Algerta and company arrived at the reception hall.

When these experts were present earlier, the fur clansmen felt extremely uneasy.

This reminded them of the painful memories of being a domestic slave.

Knowing that he was being watched by Huffman, Rex did not come to Levi's mansion in person after that. Instead, he sent someone to deliver a letter, wanting to see what Levi's thoughts were so that Levi could answer within three days.

Along with the letter was a contract for the Thunder Dragon Family's family pharmacist.

Levi laughed at the contents of the contract.

There were all kinds of hidden unequal clauses on it, comparable to the black-hearted capitalists in his previous life.

This was not a pharmacist contract, but a naked indenture.

Only a fool would agree!

Levi refused decisively.

But that didn't matter.

After agreeing to Rex, his future would be dominated by the Thunder Dragon Family, and he would only end up worse than he was now.

This was not the life he wanted.

Besides, Levi had to choose between Huffman and Rex. It was impossible for him to fall on both sides.

That was Huffman.

A fifth-circle wizard family was very powerful.

But at Levi's current rate of growth,

As long as he could live in peace in Riptide City and become a big shot in Riptide City,

It wasn't impossible to destroy a fifth -circle clan.

He could kill the Duke of Montenegro, a powerful colossus, step by step in the human world as a small baron from a small and lousy Black Water Valley.

He could also do it in the Wizard World.

As long as the owner of Riptide City was not the Thunder Dragon Family, Levi's safety here would be guaranteed.

"I wonder when the Tower of Riptide will recruit people."

Levi calculated in his heart that he would definitely join the Tower of Riptide!

Once he joined them, he believed that the Thunder Dragon Family would not dare to touch him casually.

That was a genuine high-level wizard organization. Moreover, Levi had inquired about the couple in Riptide City during this period of time and found that their character was quite good. Basically, there were no bad rumors.

Upper Riptide.

Rex read Levi's reply.

"He's indeed shameless. Gan, I've already gone to invite him personally, but he's still so disrespectful. Isn't he looking down on me, Rex? I've already humbled myself. When have I ever been so polite to a Second-Circle Wizard?"

The assistant gulped and said, "Yes, Lord. This kid doesn't know what's good for him. What's the benefit of doing this? There's no future in following

Huffman.”

"You're so full of yourself just because you've made some achievements. Such a person won't go far in the Wizard World," Rex said with a sinister smile.

Holy Brilliance Calendar Year 1047, Month of the Furnace.

80 Middle Riptide, Levi's Mansion.

In the laboratory on the third floor of the wizard tower.

On the laboratory table, an ordinary little mouse lay there.

On the other side was a complete set of bloodline transplant vessels.

This was the full set of equipment that Levi had bought directly.

During this period of research, he had grasped the preliminary method of transplanting bloodlines. Now, he planned to give it a try.

In a corner of the laboratory was a cabinet. On top of the cabinet were bottles of bloodline contained in transparent containers.

These bottles were labeled with serial numbers and the names of bloodlines..
