Chapter 613: Second-Circle Senior! Level 13 Blood Beast!(5)

This person was Levi.

"Interesting. I'll play with you." Rex licked his lips.

He would let his opponent know that going against the Thunder Dragon Family was an extremely irrational and ridiculous thing to do.

In the blink of an eye.

A month passed.

Before the officials found out who was behind Old Miller's death.

In this one month.

In Lower Riptide of Riptide City, more than a hundred cases of civilians and wizards missing appeared one after another!

This attracted the attention of the officials of Riptide City.

In the wizard tower.

Levi's expression was also solemn.

"More than a hundred cases in a month. There are both civilians and wizards...

Who did it?"

He muttered to himself.

"It's over. Riptide City doesn't feel safe anymore. Is there a safe place in this world?"

Levi sighed helplessly and quickly cultivated.

Holy Brilliance Calendar Year 1050, Month of Flowing Fire.

Something big happened in the Star Sea.

The Hundred Beast Berserk Witch and her junior sister, another high-level primordial soul wizard from the Life School of Thought, and a high-level employee of Rowling's Lab, the Red Mushroom Witch, had a battle between top powerhouses in the Endless Sea.

The reason for the battle was that the Hundred Beast Berserk Witch wanted to seize a treasure from the Red Mushroom Witch.

The important experimental subject of Rowling's Lab was the strange "Christmas tree" that escaped the Realm of Life and came to the Endless Sea.

However, on this Christmas tree, there were all kinds of strange fruits.

In the end, to prevent the Hundred Beast Berserk Witch from obtaining the fruits on the Christmas tree,

The Red Mushroom Witch used a spell to randomly transport all the fruits on it to various places in the vast Endless Sea.

Then, the Hundred Beast Berserk Witch issued a bounty to all the dark wizards in the Endless Sea.

"Anyone who finds the Miracle Fruit can come to the Boiling Beast Blood to receive a huge reward."

And everyone finally knew what the unfinished experimental subject that escaped from Rowling's cabin to the Endless Sea was.

"The Kabbalah Miracle Tree!"

It was said that this was the "Miracle Tree" created by Witch Rowling using the roots of Pandora's mother tree and the bloodline of hundreds of powerful creatures. She represented the top level of knowledge and technology in the Life School of Thought.

Why was it called Miracle?

Even an ordinary person could obtain transcendent power in a short period of time after consuming the Miracle Fruit on the Kabbalah Miracle Tree! Every Miracle Fruit represented the miracle ability of a path.

This kind of miraculous ability could be developed and grown. It had very strong potential.

Levi's heart skipped a beat when he heard the news in the wizard tower.

It turned out that after so long, that experimental subject had not been brought back to the Realm of Life.

Wasn't this causing trouble for Endless Sea?

"What Miracle Fruit? It's clearly a bloodline fruit. It's nothing more than Madam Rowling mastering some method to nurture bloodlines into practical fruits."

It has to be said that he's indeed the boss of the Life School of Thought. I wonder how he developed such a heaven-defying thing." Levi was envious.

However, he did not have any thoughts about this Miracle Fruit because he had a clear path to advance his bloodline.

Even if a Miracle Fruit appeared before him now, he would not consume it!

A few days later.

Levi had heard that in the Lower Riptide city area.

A mortal young man obtained a Miracle Fruit that fell from the sky.

He didn't know what it was, but he smelled it. It was smelly and fishy. Then, he fed it to his family's... dog.

After consuming the Miracle Fruit, that dog spoke human language and instantly possessed the combat power of a Second-Circle Wizard. It directly avoided the pursuit of a group of wizards from the outer city area and escaped into the Endless Sea.

For many wizards with average talent and weak strength, this Miracle Fruit was an opportunity for them to defy the heavens and change their fate. Naturally, they were envious.

Some second-circles in Middle Riptide and Upper Riptide, and even Intermediate Wizards, were quite interested in this Miracle Fruit.

In an instant, the dog-chasing army charged into the Endless Sea.

It was not until the officials appeared that this chaotic phenomenon was stopped.

At the same time, in Riptide City, people disappeared every day.

These people were rather random. They could be mortals, Second-Circle Wizards, or even Third-Circle Wizards from Upper Riptide.

In an instant, everyone in Riptide City was panicking.

Levi stayed at home all day and did not dare to go out. He cultivated crazily.

Until this day.

An intense explosion suddenly occurred in Upper Riptide.

Lightning shattered the night sky, and the sound of electric currents resounded throughout Riptide City.

Levi looked through the window in the direction of the inner city area where the sound came from.

A wizard bathed in lightning stood in the air.

His authoritative and powerful spiritual force swept through the entire city, and he held an illusory lightning spear in his hand.

Above his head, dark clouds gathered, and Thunder Snakes jumped and shuttled.

Levi was shocked by the terrifying power.

He had seen this person on the election speech recording. This person was Thunder Spear Sorrett.

He was a fifth-circle expert.

"Demons have invaded Riptide City. Commanders above the fourth -circle in the city, come and surround us!" The Thunder Spear's voice was like thunder.

Figures with powerful auras surrounded Upper Riptide.

"For a fifth-circle cultivator to be so cautious, he must be at least a level 5 demon or even a level 6..."

Levi was puzzled.

The Abyss Well was destroyed.

Logically speaking, without the support of the Hundred-Eyed Demon King, these Abyss Demons should have been wiped out by those experts long ago..
