Chapter 617: Raging Hellfire Burns My Lotus Body! Time for Revenge! (3)

"Rex is just an ordinary third-circle wizard. He's not as strong as Huffman. It's purely because of his family that he's able to get to his current position. He can find a suitable time to attack.

"However, it's not difficult to kill Rex. What's difficult is how to deal with the Thunder Spear and the Thunder Dragon Family. There are so many fifth-circle experts. Sigh, it's a headache."

Levi decided in his heart.

He had a good personality, but it didn't mean that he could tolerate being harmed so many times by someone for no reason.

If he didn't get rid of Rex as soon as possible, this guy might cause trouble for him.

Levi had planned to deal with Rex after he advanced to the third-circle.

Now that he thought about it, he couldn't wait any longer.

He had secretly checked Rex's strength. After his analysis, he believed that even if Rex hid part of his strength, he could still defeat him.

Even with his current cultivation speed, it would take him about ten years to raise his spiritual force from 70 points to 100 points.

In other words, it was already not bad for Levi to be able to step into the third-circle at his age.

In ten years, Rex might be up to no good.

Levi had had enough of living on tenterhooks.

Besides, after he advanced to the third-circle, he would not be a match for the Thunder Dragon Family. Therefore, there was not much difference between killing Rex now and killing him after he reached the third-circle.

"The key is how to kill Rex without the Thunder Dragon Family knowing."

"There's no hurry. I'll slowly plan and ask for clues."

Levi settled down.

He could not be too hasty in taking revenge, or he would easily fall into the enemy's trap.

Now that Lady Blue Dragon had been elected as the commander-in-chief, it was a good thing for Levi.

In the days that followed, Levi was no different from before.

When he was not cultivating, Levi would occasionally go to the tavern near the Tower of Pharmacists to drink.

It was for no other reason than to learn more about Rex's habits and personal achievements from his pharmacist employees.

Levi memorized the truth and made his own analysis and judgment.

Rex had a complicated network of interpersonal relationships in Riptide City, ranging from law enforcement officers to peddlers.

That was Rex's strength and his weakness.

Among these people, there would always be someone who could provide Levi with some useful clues.

He was like a jaguar chasing after the temperature and hunting deer.

It enriched his understanding of Rex bit by bit.

Rex was high and mighty. How could he have thought that Levi, a commoner, would attack him?

Rex liked witches with small breasts, Rex liked to drink Rod's coffee, Rex only accepted gifts worth more than 1,000 Aether Stones, and Rex did not like servants to wear the same color as him...

Many small details could actually expose a person's flaws.

At the same time, Levi was constantly paying attention to the situation in Riptide City.

It was best to hunt Rex when there was chaos.

One could only fish in muddy water.

This way, the probability of being tracked down by the enemy was even lower.

Besides, they would have to wait until Rex left the city before hunting him.

This way, the big shots of Riptide City would not sense it.

It was still too dangerous to attack in the city.

Holy Brilliance Calendar Year 1051, Month of the Furnace.

The sixteenth year of the great expedition.

The Five-Realm Great Expedition continued.

It was said that some legendary wizards had already fought with the four evil gods.

Endless Sea.

The situation did not improve.

The Hundred Beast Berserk Witch had collected several Miracle Fruits. After consuming them, her strength increased again.

Although Madam Rowling emphasized that a person could only take the Miracle Fruit once, their lives would be in danger if they took too much.

However, this did not seem to work on the Hundred Beast Berserk Witch.

This dark wizard's talent for the Life School of Thought was far higher than that of Madam Rowling's other disciples.

Unfortunately, the Hundred Beast Berserk Witch had evil intentions. Otherwise, perhaps a Grand Wizard could have appeared in the Life School of Thought.

The Hundred Beast Berserk Witch and Black Sun Adam joined forces to launch an attack on the Star Tower's headquarters.

Of course, this attack was repelled by the Star Tower's only ninth-circle Grand Wizard.

Unfortunately, these two dark wizards were not left behind.

The current Black Sun Adam and the Hundred Beast Berserk Witch were already at the peak of a high-level primordial soul wizard, which was the strength of an eighth-circle senior wizard.

In the entire Wizard World, such an existence was rare.

Most importantly, the Hundred Beast Berserk Witch and the Black Sun Adam dared to act so brazenly.

That meant that there was definitely a ninth-circle dark wizard hiding behind the scenes in the Endless Sea.

As long as the ninth-circle in charge of the Star Tower went to hunt down these two people, this mastermind would break through the base camp of the Endless Sea's righteous wizards with lightning speed.

In fact, many times, the wars between the dark and righteous wizards were caused by the internal strife of the big shots behind the scenes.

How could there be so many dark wizards? To put it bluntly, it was just an internal strife between some big shots in the parliament.

In Riptide City, the undercurrent was surging.

In Levi's mind, another Star Rune spell model was constructed.

This Star Rune looked like a dormant snake.
