Chapter 620: Raging Hellfire Burns My Lotus Body! Time for Revenge! (6)

At the same time, the starlight dimmed. He felt that he had completely fallen into boundless darkness.

The second-circle array, Lightless Shield!

Rex realized that something was wrong.

A strong sense of danger assaulted him.

The protective force field around Rex was activated. Electricity flashed in the protective force field, and a Wizard Tool quickly appeared to protect his body.

Ripples seemed to appear in the void in front of him.

A terrifying phantom of the Nine Swords Asura suddenly appeared!

Before Rex could react.

The Nine Swords cut open the protective Wizard Tool.

Then, he tore Rex's defensive field into pieces!

A purple Thunder Dragon mark appeared and flew toward Rex's murderer.

It was the soul mark that Rex's father had planted on him, which could track the person who killed Rex.

In the next moment, Saint Scorpions appeared in the void and devoured Rex's soul, preventing him from reincarnating. At the same time, the purple Thunder Dragon mark was devoured and obliterated...

Along with the Saint Scorpions, there was also a giant monster that was covered in dark golden scales and burning with Red Lotus Hellfire. The Rune Language on its body flickered, and its body was surrounded by red copper, earth spirit, and many other defensive spells. Behind it was a three-headed and six-armed Bloodline Dharma Body.

"The Saint Scorpions can also devour Soul Imprints? I'm already prepared to use my Blood Fog Body to be immune to tracking." It was Levi, who had used the Hermit Rune to sneak here.

He looked at Rex in shock.

"Speaking of which, is a Third-Circle Wizard... that weak? Is Rex a clone?" Levi muttered in his heart.

However, looking at Gan's expression, Rex should be the real thing.

"So weak, I've actually been afraid for so long..."

Levi could not help but sigh inwardly.

He seemed to have been too cautious.

Currently, he had the Hermit and the Strength runes, three level 13 breathing techniques, and the cultivation of the path of a wizard.

In order to kill him in one strike, he directly activated Red Lotus, Giant Whale, King Kong, Nine Swords, and the cover of the night.

Under his full-powered attack, even Rex's third-circle Wizard Tool was cracked by his Nine Swords.

How could Rex's ordinary third -circle defensive field of the Lightning School of Thought withstand such an ultimate blow?

Not to mention ordinary third-circle wizards, even the defensive field of a senior third-circle wizard might not be able to withstand it.

Levi always thought of the worst-case scenario.

Therefore, he did not know that with his current strength and the sneak attack of the Hermit Rune, he could already defeat the pharmacist Rex, who was only at the third-circle and was not proficient in combat.

If it were other Third-Circle Wizards who were more battle-conscious and had mastered spells, Levi might not have been able to kill them in one strike.

With all these conditions, Levi instantly killed a Third-Circle Wizard.

He was stunned. The other methods he had prepared, such as Tyrant II, had yet to appear...

On the other side, Gan was even more dumbfounded.

Just a moment ago, Rex was still confidently preparing to attack Levi. The next moment, a strange monster suddenly appeared and slashed Rex to death.

He was dumbfounded. "Gan, right?"

Levi asked with a smile.

"Yes... Lord, please don't kill me. I don't know how I offended you, but I'm sure that Rex forced me to do it. I had no choice. I signed an indenture contract with the Thunder Dragon Family, so I could only do this."

Gan quickly begged for mercy.

He didn't even know which enemy of Rex had come to seek revenge.

That was because Rex had too many enemies.

"Are all the assets in Rex's mansion in his storage bag?" Levi asked, holding Rex's storage bag.

Forrest nodded. "Rex is a suspicious person. He never keeps his assets at home. He carries them with him everywhere."

"Thank you for telling me. I'll give you a quick death."

Levi opened his mouth.

The terrifying Red Lotus Breath, which had been brewing for a long time, submerged Gan.

When the flames disappeared, Gan's figure also evaporated.

"I was so focused on experimenting with the power of the upgraded breath that I forgot to leave an intact corpse to accumulate Ashen Coins." Levi could not help but curse.

On the other side, Rex's body had already turned into countless ashes and disappeared.

In Levi's palm, after a fist-sized ball of Ashen Fire was extinguished, a silver ash coin appeared.

"Iron coins, bronze coins, silver coins, Fourth-Circle Wizard, isn't it time to drop gold coins?"

Levi kept the silver coins.

The Mountain Giant sacrificial soldier was stunned.

From Levi's eavesdropping conversation, this wizard of the Giant Race was a sacrificial soldier.

Levi was holding a level 3 Spirit Binding Ring.

Rex's mark had been erased and replaced by Levi's own.

Just this seemingly inconspicuous iron ring was probably worth almost as much as an ordinary fourth-circle Wizard Tool. A small number of them were worth 100,000 Aether Stones.

This was because the Spirit Binding Ring controlled a genuine third-circle existence.

"What should I do with you?" Levi looked at the sacrificial soldiers who were stunned.

Perhaps because the Spirit Binding Ring was in his hands, this sacrificial soldier had not done anything until now. He just looked at Levi numbly.

Also, Rex died before he could give it any orders.

Levi really wanted to take this big guy away because the Mountain Giant's blood could be used to cultivate the King Kong Breathing Technique.

The problem was that this was a sacrificial soldier of the Thunder Dragon Family. It was different from ordinary Aether Stones. It was unknown what mark the Thunder Dragon Family had set on it. It could be easily taken away and easily tracked.

It was obviously not appropriate to let this sacrificial soldier leave. In the end, Levi got the Mountain Giant to find a hidden place and let it wait here.

"I'll take some blood first and wait another three to five years. I'll come and take a look after some time. If the Thunder Dragon Family has a tracking mark, they'll probably come to check on the situation and take away the sacrificial soldiers. I have the Spirit Binding Ring, so I can kill this sacrificial soldier with a thought.

"If no one comes here in three to five years, it means that the Thunder Dragon

Family did not make a tracking mark. I can take it away."

After all, their opponent was the Thunder Dragon Family. Levi was determined to deal with them carefully.

The sacrificial soldiers were extremely obedient. This was the most basic requirement in the Thunder Dragon Family's training.

Levi hides it in an isolated valley. "Come visit once every three months."

Levi muttered to himself.

He only brought the Aether Stone, potions, and materials from Rex's storage bag with him.

As for Rex's storage bag, the Wizard Tool, and some items that were suspected to be unique to the Thunder Dragon Family, he hid them all in the Hundred-Eyed Demon Territory to create the illusion that he had been killed by demons.

He planned to find an opportunity to take it in the future. If it was picked up by a passing wizard, he would accept his fate.

This was Levi's first confrontation with a member of a great wizard family.

These people had so many tricks up their sleeves that Levi couldn't be too careful..
