Chapter 622: Three Years of Hibernation, Collective

Breathing Technique Advancement, The Night Before the Storm! (2)

This was because Riptide City was an elite area that gathered excellent wizards from many areas of the Endless Sea.

In a place like Area 9, the third-circle was the ancestor of a large area.

"Ten scales from the chest of the Banshee of the Lake, dust of the Evil Spirit

Dream Fairy, keratin powder of a level 3 demon..."

Levi looked at the ingredients for the third-circle potion formula and his eyes gradually lit up.

Among the main ingredients he saw, there were several that he already had. "The legendary Evil Spirit Dream Fairy that I killed in the royal family's treasury is actually the main ingredient of the formula for the third -circle potion. If I hadn't coincidentally kept it, where would I find such ingredients?" Levi was glad.

"The horn powder of a level 3 demon. The Horned Demon's horn will be fine."

To Levi, among the main ingredients, the only thing he had no clue about was the “scales from the chest of the Banshee of the Lake”.

The Banshee of the Lake was a monster he had heard of in mortal folklore.

It was said that the sword of the first Emerald King was given to him by the Banshee of the Lake who lived in the Emerald Lake.

Later on, Levi obtained the Franken Wizard’s Monster Manual.

Only then did he know that the so-called Banshees of the Lake were actually some Nagas who lived in freshwater.

This kind of Naga was usually called “Lake Naga”.

Nagas were a common humanoid creature, but most Nagas had the same intelligence as wild beasts. For example, the Gray Naga that Levi had once hunted.

Most of the Nagas lived in the sea. Only a few lived in inland lakes.

“The Realm of Azure Cloud is a sea with only a few islands. There is a high chance that there are no freshwater Nagas in the lakes on these islands. The most likely place to have freshwater Nagas is the Yellow Earth Continent.” Levi put away the formula and closed his eyes in deep thought.

When he was about to advance to the third-circle, he still had to make a trip to the Yellow Earth Continent.

On that vast land, there were some rare transcendent creatures living.

For the next few days, Levi practiced Pharmacy as usual while paying attention to the changes caused by Rex's death.

Rex himself had been completely erased from this world by Levi, leaving no trace behind.

Half a month after Rex's death, the officials of Riptide City finally realized that the great supervisor had gone missing.

He was discovered because the fifth-circle expert of the Thunder Dragon Family, Thunder Blade Tyrrell, discovered that Rex's soul slate in the family had shattered after he came out of seclusion.

Although Rex was not the only son of the fifth-circle expert, Rex was relatively more promising among them.

Therefore, he was furious about Rex's death. He came to Riptide City personally and asked the military to find the culprit of Rex's death.

Thunder Spear, who was also from the Thunder Dragon Family, actually didn't like Rex, but for the sake of his family.

He could only use his position as the deputy commander to advance the investigation.

In addition, Rex was a Third-Circle Pharmacist and one of the five supervisors of the Tower of Pharmacists.

Therefore, this matter undoubtedly attracted the attention of the officials of Riptide City.

The Tower of Order immediately set up a special "Rex's Missing Case Investigation Team" to investigate the matter thoroughly.

They had investigated all the video slates in Riptide City during Rex's disappearance.

In the end, it was discovered that Rex had left the city with his servant, Gan, half a month ago.

After that, he did not return.

Therefore, Rex probably died outside the city.

At this time, apart from Rex, there were also a large number of demon-hunting wizards coming in and out.

This made the range of suspicion of the target very large.

Considering that Hex was a '1'mrd-C1rcle Wizard and had a second-circle butler in his family. Moreover, Rex had several Third-Circle Wizard Tools,

Therefore, the military initially targeted demon-hunting wizards above Third-Circle Wizards.

Of course, anyone below the Third-Circle Wizard level could not escape suspicion. However, comparatively speaking, the possibility of success was almost zero.

The difference between a first-circle, Second -Circle Wizard, and Third-Circle Wizard was huge. These wizards knew very well that it was common knowledge.

Unless it was a powerful one-time-use spell scroll, it was impossible to fight with a higher realm.

Therefore, the officials checked the spell scroll exchange records in the Merit Shop and found a few second-circle suspects.

At the same time, they began to investigate the demon -hunting wizards who entered and left Riptide City at that time.

"I didn't expect Rex's death to cause such a big commotion. As expected of a member of the Thunder Dragon Family. Life is indeed valuable. The entire Tower of Order has to revolve around them." Levi sneered.

He wasn't very worried.

First of all, the soul mark on Rex's body had been completely obliterated by the Saint Scorpions. It was no longer possible to trace him through this simplest method.

Secondly, he had used Thousand Faces when he left the city that night. Furthermore, he had used the Hermit Rune to conceal his aura and sneaked out. Through the recording, he could not see anything at all.

In the end, Levi was just a Second-Circle Wizard and a pharmacist who spent all his time cultivating potions. It was even more impossible for him to kill Rex.

Without evidence, these people could not trace it back to him unless they broke the law and opened his storage bag.

Seeing Levi's vast fortune of unknown origin, it was presumed that Levi had murdered for money..
