Chapter 636: Alice's Dream-traversing Ring! Seals Knight!

(4)

Levi stood up and walked outside the mansion.

The three brothers from the fur clan had already advanced to the rank of Grand Knight and were currently training in the mansion.

His experiment with knight advancements had achieved initial success, but it was only the beginning.

In the future, Levi aimed to follow in the footsteps of Ms. Rowling and compile various transcendent paths for knight advancements based on his existing breathing techniques. The ultimate goal for each path was the Primordial Ancestor.

Every path's nodes would be the knight realm systems created by Levi.

Breaking through these nodes would require corresponding "Knight

Advancement Medicines" and "Knight Training Secret Medicines."

Advancement Medicines were used to break through the maximum limit of breathing techniques, while training secret medicines were used for daily practice, analogous to breakthrough potions and meditation supplementary potions for wizards.

In this way, Levi would gradually establish hundreds of different knight advancement elixir systems.

Inspired by Miracle Wizards, Bloodline Dharma Bodies, and the seal systems of the four great families, Levi considered using the proficiency panel to create a system that fused the spiritual and physical, spells, and bloodlines.

For example, incorporating the Glacial Finger into the bloodline of the Frost Giant or integrating the Five Fireballs Technique into the Red Lotus bloodline. This system, known as "Bloodline Wizard" or "Seal Knight," would enable spells, like seals, to be activated using the power of bloodlines, enhancing casting speed and reducing spiritual force consumption.

This system could open up a new transcendent path by combining the strengths of knights and wizards, innovating continuously and pushing the limits.

This was Levi's ultimate path of evolution.

A true ultimate being must have flawless spiritual force and physical body, with no weaknesses.

Of course, the idea was perfect.

Unfortunately, Levi was still too weak. His realm, perspective, and knowledge were insufficient to support this concept.

After reaching the third circle, Levi would gradually explore the deeper layers of the wizard world, allowing him to start his research on the innovative path.

"Master, Lord Ryan is looking for you," Tiga informed Levi as he emerged from seclusion.

"Understood, I'll go to the Golden Lion Castle."

Golden Lion Castle.

In the conference hall, all the high-ranking members of the Golden Lion Jostar Family gathered—two Third-Circle Wizards, seven Second-Circle Wizards, along with Dinos and Emperor Mu.

Compared to some time ago, Old Golden Lion Lyon's complexion had improved, and his spirit appeared fuller. Although his injuries seemed to be healing well, a hint of anxiety furrowed his brow.

Upon seeing Levi's arrival, Lyon's face lit up.

"What's the matter, Sir Lyon?" Levi inquired.

"Sir Levi, I received information that Lehman obtained the assistance of a senior Third -Circle Wizard from Black Sun Adam. They've already launched an attack on the Wham Family. If Wham falls, we, the

Golden Lion Jostar Family, will be next. I want to send reinforcements to Wham, but I'm afraid of falling into Lehman's trap, leaving Lion King City vulnerable in defense. I know you have formidable strength, being a Second-Circle Wizard and excelling in the way of knights. I would like to ask for your help..."

Lyon's plea was evident; the critical moment had arrived.

"Please speak, Sir Lyon. Within my capabilities, I'm more than willing to lend a hand," Levi had already guessed what Lyon wanted him to do.

In the upcoming process of spiritual force gasification, Levi would also seek Lyon's assistance. This was a good opportunity for Levi to incur a favor from Lyon.

"If Lehman sends someone to attack Lion King City, I request your assistance," Lyon stated.

In order to confront the formidable Lehman and the senior Third-Circle Wizard, both Lyon and another Third-Circle powerhouse from the family would have to leave. Lyon feared that without the protection of Third-Circle wizards, Lion King City might not withstand an assault.

Although Levi was only a Second-Circle Wizard, judging by his casual defeat of

Dinos and Emperor Mu, his strength seemed to surpass that of most Third-Circle wizards. Therefore, with Levi guarding Lion King City, Lyon felt relatively assured.

"No problem, I will do my best to protect Lion King City," Levi declared.

With his current strength, there was little to fear on the Yellow Earth Continent. Even if Lehman came, Levi might not be an opponent to be reckoned with, especially with Raja and Bo Gang, two powerful Third-Circle guardians, by his side.

"Thank you so much! Sir Levi, the favor you're rendering to the Golden Lion Jostar Family will not be forgotten," Lyon expressed his gratitude solemnly.

"Don't mention it. After your triumphant return, I have a favor to ask as well, but we'll discuss it later," Levi replied.

Golden Lion nodded, "Sure, anything that the Golden Lion Jostar Family can fulfill, feel free to ask."

The situation was urgent. Lyon, accompanied by another Third-Circle powerhouse from the family, left promptly, heading toward the Wham Family's territory.

Before departing, Levi reminded Lyon not to kill the Silver Frost Ice Ape if Lehman was defeated, as it had significant utility. Lyon agreed.

The remaining wizard forces flew from Lion King City to the frontline battlefield. Emperor Mu and Dinos also joined the campaign..
