

Wizard 652

Chapter 652: Mortal Divine Refinement (2)

The wizards at the headquarters discovered that the hallucinatory potion developed by God Pan's blood was especially effective.

When wizards entered the Nightmare World, it was different from when Levi entered the Ashen World. Levi entered with his true form.

There were two ways for wizards to enter the Nightmare World.

The first was to enter with his true form, which was the strange dimensional rift that discovered the Nightmare Creatures at the beginning.

However, the mortality rate of entering the Nightmare World like this was too high. If his true form died, he would be completely dead. Up until now, none of the true forms that entered the Nightmare World had returned.

When the wizards of the Dreamland Steeple discovered the second path, they sealed the dimensional rift to prevent powerful Nightmare Creatures from appearing in the real world and causing trouble.

The second was the creation of the Dreamland Steeple wizard.

With the help of the Hallucinatory potion and arrays, he could create his “Nightmare Avatar” in the Nightmare World.

Then, he would wake up somewhere in the Nightmare World and explore the surrounding world.

The initial strength of this Nightmare Avatar was different.

Generally speaking, the stronger the spiritual power of a wizard, the higher the level of the blood of the Nightmare Creature used, and the stronger the Nightmare Avatar used to enter the Nightmare World. This way, they could explore further in the Nightmare World.

If he died in the Nightmare World, he would only lose a little of the wizard’s spiritual force. He would not let the wizard die in the real world.

The resources found in the Nightmare World and even the Dream Creatures could be brought back to the real world through the Nightmare Altar in Dreamscape!

Therefore, after the wizards of the Dreamland Steeple captured God Pan and successfully experimented, they popularized the God Pan Potion among all the members of the organization.

This way, it would be convenient for all the members of the Dreamland Steeple to explore the unknown world in their best state and peak strength to find more wealth and resources.

Behind this vigorous “Nightmare Exploration Journey” was a hidden danger.

In the end, as the leader of the Dreamland Steeple, Daydream Wizard discovered that his true form had also disappeared from the real world.

From the warning he left behind, there was a high chance that he had gone to the Nightmare World. His life and death were unknown.

However, it was already too late.

Almost all the members of the Dreamland Steeple, from wizards to apprentices, had already taken the God Pan Potion and entered the Nightmare World.

Not long after, these members disappeared from the Wizard World no matter where they were.

"That's horrible."

"Fortunately, I didn't explore it rashly back then. The ancient wizard relic I went to previously was the headquarters of the Dreamland Steeple. And there was a nightmare monster that was comparable to a high-level primordial soul wizard sealed inside!"

"I've got to hurry up and find the Lake Naga. I must leave. I don't want to enter the Nightmare World for no reason."

Levi quickly got down to business. Although there were no dangerous hints with Spider Sensing, this place was still a little strange.

His Intuition state gradually swept across this wizard relic.

In the end, he sensed the aura of a living creature in a cave at the edge of the relic.

"It's almost at the level of a second-circle."

It seemed to sense the arrival of a powerful enemy.

When Levi arrived at the cave, a mermaid creature that looked like a human and was covered in black scales was looking at Levi uneasily.

It bared its teeth at Levi, looking very fierce.

Behind it was a smaller species.

"It's indeed the Lake Naga. To be precise, it's the Black Naga branch of the Lake Nagas. After adulthood, it has the strength of a second-circle and is slightly stronger than the Gray Naga."

The so-called singing of the Banshee of the Lake was just the sound made by the Lake Naga when they were courting a mate.

What was worth mentioning was that the Lake Naga reproduced alone and only had females.

However, during the mating period, the two female Lake Nagas would fight to the death.

The winner would retain her female identity, while the loser turns into a male.

After the mating period, the male would become female.

Therefore, in the legends, there was only the title of Banshee of the Lake, but there was no male demon in the lake.

In front of the terrifying Levi, although the Black Naga mother was afraid, she still tried her best to block the Black Naga baby.

The ugly and adorable Black Naga baby hid behind its mother and shivered.

"Forget it, I won't kill you this time. Not only will I not kill you, but I can also give you and your daughter a safer living environment. It seems that your partner has left you. It's not easy for you to raise your descendants alone, right?"

Levi said gently.

Ever since he had Alice's ring, the first thing Levi thought of was not to kill the goose that lays the golden eggs after discovering about transcendent creatures.

He wanted to build a perfect small ecosystem in Alice's ring.

This is in line with the green concept of sustainable development.

Ultimately, Levi still wanted to farm.

The Black Naga's IQ was much higher than the Gray Naga's. Through Nature's Heart, Levi could feel that the Naga mother's mental state was fluctuating.

In the end, under Levi's tyranny, the Black Naga lowered its head.

After all, beside Levi stood the Mountain Giant and the insufferably arrogant mechanical monster. Either one of them could crush him.

The Black Naga entered Alice's ring and went to accompany Leviathan and the others..
